(b) The Wykeham Site, Stanford Hill/Priestlands Place (Fig.13)

H6.6 Brief Description : This under-used site is occupied by one detached property and a builders' yard. It occupies an important corner in the town, and its re- development creates an opportunity to "round off" the town centre with a high quality residential scheme that acts as an entrance to the historic core of the town, in a way that is complementary to Reedley House on the opposite side of Priestlands Place.

Photos below from 1992 Site Files

Older sheds and buildings removed from site and front and entrance to site boarded up.
