

business waste

Collection guidelines 2021/22

New Forest District Council (NFDC) has recently reviewed the Business Waste Collection service we provide and have updated our procedures. Please adhere to the following guidelines below when putting your business waste out for collection at the kerbside:

Recycling

We provide clear sacks with red print for collection of recycling.

- Please put your recycling in the NFDC clear business waste recycling sacks and tie securely.
- Any cardboard boxes should be bundled together securely. Please affix a white and red NFDC business waste recycling sticker to each bundle.
 - Bundles must not exceed 7kg in weight.
 - Bundles larger than 2ft square will not be accepted.

General waste

- Please put your non-recyclable business waste material in the NFDC green business waste sacks and tie securely, to prevent spillage.
 - Sack must not exceed 7kg in weight.
- General business waste must be presented in an NFDC green business waste sack. We will not collect black or other coloured sacks containing general business waste.
- You may double bag your general business waste but the external sack must be an NFDC green business waste sack.
