

UKSPF

PROJECT #11

PROMOTING GREEN SKILLS TRAINING

AT A GLANCE

- Delivered by Community Energy South.
- NFDC contact
roxanne.king@nfdc.gov.uk
- £46,000 budget

AIM

To develop a programme where both businesses and residents are encouraged to invest in skills and training related to green industries.

ACTIVITIES

- Supporting communities to participate in projects that lead to reduced energy consumption and lower emissions
- Raising awareness of the impact of climate action and establishing community led local energy awareness and support
- Developing a network of volunteer energy champions. The volunteers deliver household energy surveys which can be used by residents to reduce their energy consumption
- Offering businesses the opportunity to take part in carbon literacy training
