**Licence Objective Notes (if any)**

## **P) Proposals by the applicant in order to promote the four licensing objectives:**

### **a) General – all four licensing objectives (b,c,d,e)**

Duty Managers, both catering and front of house, carry mobile phones and are in touch with staff by radio. Staff are always briefed on health and safety etc including the right to refuse to sell alcohol. When alcohol is being served on the premises there will be a personal licence holder present who can be contacted in cases of difficulty. Staff are trained to think '21' in terms of alcohol sales generally. Staff regularly undertake various training covering various topics such as health and safety, fire evacuations and the like. A number of Beaulieu staff are retained firemen at Beaulieu Fire Station and several of them live on the Beaulieu complex. The sale and consumption of intoxicating liquor within buildings shall be confined to: a) Persons taking a substantial meal supplied and consumed at the same time in such portion of the premises as are usually set apart for the service of meals. b) Persons who have bona fide ordered a substantial meal to be served within half an hour after the service of such intoxicating liquor, or who have consumed a substantial meal on the premises within half an hour before service of such intoxicating liquor, such liquor only be consumed in the licensed portions of the premises. c) Persons attending bona fide private functions that are being held on the premises and/or to persons who have already paid for admittance to and are attending events other than private functions being held on the licensed portion of the premises. Sale of alcohol outside of any buildings will tend to be between April and October and will cease by 2300 hours. Designated licensed portions of the premises (zones) are indicated on the enclosed plan at points A to I plus buildings J to O together with any associated grounds of the buildings.

### **b) The prevention of crime and disorder**

For events and rallies located outside of buildings alcohol sales will cease at 2300 hours. For private functions licensed hours would not be advertised beyond 2400. If an extension is required beyond this to 0100 hours it will only be as agreed with the senior management of the licence holders in advance where the client has requested such extension. On all such occasions where openings were to go beyond 2400 hours the licence holder or its catering concession company would write and notify the police and local authority a minimum of seven days in advance of such an occasion. Corporate type functions to which members of the public are allowed to 'walk in' off the street are not permitted. All functions held are by prior booking. Police are invited and have some presence at all major events. Plastic beakers are also used at major events.

### **c) Public Safety**

The space available in each building is considered. The Domus is restricted to 150 for private functions. The effective floor area of the licensable area of Palace House is some 450 square metres. Based on an allowance of 1 square metre for seated meal and 0.5 square metre for drink receptions this indicates maximum numbers of 450 for dinners and 900 for drink receptions. When taking bookings for private functions the licence holder ensures that numbers of staff plus patrons do not exceed 120 for dinners and 500 for drinks receptions. The seating area of the Brabazon is some 550 square metres. Based on an allowance of 1 square metre for seated meal and 0.5 square metres for drink receptions this indicates maximum numbers of 550 for dinners and 1100 for drink receptions. When taking bookings for private functions the licence holder ensures that numbers of staff plus patrons do not exceed these numbers. For day catering only 300 covers are allowed for to ensure numbers are not exceeded. The effective floor area of the Museum is some 2550 square metres. Based on an allowance of 1 square metre for seated meal and 0.5 square metres for drink receptions this indicates maximum numbers of 2550 for dinners and 5000 for drink receptions. When taking bookings for private functions the licence holders ensure that numbers of staff plus patrons do not exceed 500 for dinners and 2000 for drinks receptions. Additional risk assessments would be carried out for such large events which are rare. The area of the Trust Building is some 300 square metres. Based on an allowance of 0.75 square metres for seating (non meal) and 0.5 square metres for drink receptions this indicates maximum numbers of 400 seated and 1100 for drinks type receptions. When taking bookings for private functions the licence holder ensures that numbers of staff plus patrons do not exceed these numbers. Where notified at private functions of a guest with disabilities staff make themselves aware of such patrons.

### **d) The prevention of public nuisance**

During events involving live or amplified music or sound (other than low level background music) within buildings all windows will be kept closed. External doors will also be kept closed, except where necessary for access and egress. During events outdoors (including marquee events) involving live or amplified music or sound (other than low level background music) amplifiers are pointed in a direction to minimise disruption to local residents. A senior manager is present and monitors activity both within the event area and by listening near boundaries. Noise emanating after 2300 hours from the premises shall be at a level so as not to unreasonably cause a nuisance at the boundary of noise sensitive premises. Noise prior to 2300 emanating from the premises whilst audible will be set at such a level so as not to unreasonably impose lyrics, musical instruments or base beat at the boundary of the noise sensitive premises. Noise limiting devices will be utilised and maintained in such a manner as to control all sources of amplified noise at the premises. A system notified to local residents is in place to enable contact to be made in case of concern. The licence holder or nominated representative is willing to receive and respond to complaints and concerns raised by the community to noises throughout the duration of the regulated entertainment. Relevant local residents are also notified in advance in writing and/or verbally of all major events and marquee based functions. In this respect a local residents liaison group has been established to notify them of such matters (and to discuss other matters of mutual interest) as well as a specific list of local residents who will be contacted on such occasions. The licence holders also undertake to lodge a separate application in respect of all events occurring under the pop concert code that may be held on the premises, regardless of numbers involved, for the local authority and relevant responsible authorities to consider. Furthermore, the licence holders will write and notify the local authority and relevant responsible authorities a minimum of seven days in advance of all non pop concert code outdoor live music events where in excess of 750 visitors are anticipated to the maximum capacity granted to it under a Premises Licence. Private function clients are encouraged to play calmer types of music at evening end. Patrons will be reminded to leave the premises in a considerate manner.

**e) The protection of children from harm**

Staff are all trained not to serve or sell drinks to minors. Minors at late functions, if present, are accompanied by adults as they are at major events. Staff are trained to take lost children to a central point where they are cared for until their parents have been found.

## Licence Objective Notes (if any)

### P) Proposals by the applicant in order to promote the four licensing objectives:

#### a) General – all four licensing objectives (b,c,d,e)

The types of regulated entertainments proposed re-instate the normal pub entertainments that were previously unregulated. No new steps have been identified by risk assessment in relation to the four licensing objectives, except as below. The terms of the local Licensing Policy have been considered.

#### b) The prevention of crime and disorder

Providing a 30 minute extension of opening hours after the end of the sale of alcohol will promote this as the last drink will be consumed less quickly, with access to the pubs toilet facilities.

#### c) Public Safety

Function bookings will be limited to 100 persons. My risk assessment identifies no other risk of crowding.

#### d) The prevention of public nuisance

Live music will end at 23:00hrs Monday to Saturday, 22:00hrs on Sundays Recorded music will end at 23:00hrs Monday to Saturday, 22:30hrs on Sundays. All windows will be kept closed after 23:00hrs.

#### e) The protection of children from harm

The restrictions set out in the Licensing Act 2003 will apply. No unusual risk of harm to children have been identified.

Date of Plan: Plan approved 20/07/2013 and 17/06/2014

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

Sales of alcohol are authorised within the beer garden.

The types of regulated entertainment proposed reinstate and then enhance the normal pub entertainment that were previously unregulated, with the benefit to enhance the local facilities for social entertainment and reduce the focus on alcohol.

Staff will be trained on the requirements of the Licensing Act 2003 when they are recruited and given training in 'drugs awareness' as part of their induction.

**b) The prevention of crime and disorder**

Providing a 60 minute extension of opening hours after the end of the sale of alcohol will promote this objective as the last drink will be consumed less quickly, with access to the public toilet facilities and the provision of non-alcoholic refreshment during this period.

The DPS will be an active member of the local Pubwatch scheme so long as it exists.

All staff will have received drugs awareness training and will adhere to Company policy on this issue .

Training will be given to staff in crime prevention methods .

Risk assessment has determined that door supervisors are not required.

**c) Public safety**

Based on the nature of the business, the fire risk assessment, seating capacity and available exits and emergency procedures identify no risk of overcrowding.

A full risk assessment has been undertaken relating to fire , health and safety and external auditing companies are used on a regular basis.

**d) The prevention of public nuisance**

The style and level of volume of live and recorded music and entertainment have to take into account the presence of hotel residents and their guests and local residents. This includes reducing the background level during the 'wind down' period to create a mood change and to prevent nuisance to hotel guests.

No entry or re-entry after 24:00hrs

After 23:00hrs music noise and noise from amplified speech i.e., regulated entertainment, emanating from the premises shall not be heard within any noise sensitive premises, i.e., residential properties.

**e) The protection of children from harm**

The restrictions set out in the Licensing Act 2003 will apply.

Photographic proof of age will be required to be shown by anyone seeking to purchase alcohol who appears to be under 21 years of age.

AWP machines and cigarette machines will be sited in areas that are visible to staff to ensure that children do not have access to them.

No unusual risks of harm to children have been identified.

### Plan of Premises

Plan/Drawing No: 10:90/02 dated January 2011

Date of Plan: Plan approved 14/03/2011

### Licence Objective Notes (if any)

#### a) General - all four licensing objectives (b, c, d, e)

The premises have operated for many years without issue or complaint regarding any of the licensing objectives.

The licence holders have risk assessed the proposals and have liaised with the Licensing Authority and other in respect of the same.

Steps that will be taken to meet the specific objectives are set out below.

#### b) The prevention of crime and disorder

The licence holders will continue to be vigilant to avoid selling alcohol to those who are not entitled to it and to maintain good order at the premises.

Bar staff will be trained in the aspects of the Licensing Act 2003 that will affect their duties prior to taking up those duties.

A risk assessment will be effected if an event is to be held at the premises at which regulated musical entertainment is to be offered and the appropriate number (if any) of licensed door supervisors will be employed to supervise customer behaviour.

#### c) Public safety

Public safety issues are capable of being controlled and enforced under other legislation, regulations or jurisdictions.

No new public safety issues have been identified as a result of the proposals.

#### d) The prevention of public nuisance

The premises are not in a densely populated residential area. However, the licence holders are aware of the need to ensure that residents do not experience a public nuisance from the activities at the site.

They will also take the following steps, in addition to the conditions already imposed on this licence, to avoid public nuisance.

Notices will be placed at the door to the smoking area reminding customers of the need to be quiet especially later at night and to have regard to those living in the area.

The door to the smoking area will retain the sprung closing device. This door faces away from any residential buildings.

Customers will be deterred from staying outside for any longer than is appropriate to smoke after 23:30 hours by, for example, prohibiting food and drink being allowed outside in the smoking area after that time.

The licensee or nominated representative shall receive and respond to complaints throughout the duration of the regulated entertainment.

At all times prior to 23:00hrs, music and noise emanating from the premises, whilst audible, shall be so low that distinct tunes, lyrics, musical instruments and any base beat cannot be recognised at the boundary of all noise sensitive premises.

At all times after 23:00hrs, music and noise emanating from the premises shall be inaudible at the boundary of all noise sensitive premises.

All external doors and windows shall be kept closed, other than for access and egress, when events involving live and/or amplified music (including amplified speech) are taking place.

During Lymington Arts Festival week, outdoor events of regulated entertainment shall be restricted to take place on a maximum of 4 out of any 7 days during the festival.

#### e) The protection of children from harm

No children (under 18) will be allowed on the premises after 21:00hrs unless accompanied by an adult.

## Licence Objective Notes (if any)

### Q) Proposals by the applicant in order to promote the four licensing objectives:

#### a) General – all four licensing objectives (b,c,d,e)

The types of indoor sporting events entertainment and provision of late night refreshment is proposed to reinstate and enhance the normal public house entertainments that were previously unregulated, with the added benefit of the occasional live and recorded music with dancing to broaden the experience when attending the premises and reduce the focus on alcohol. Not less than 10 working days written notice for the 12 occasions mentioned in Indoors Sporting Events, Late Night Refreshment and Supply of Alcohol as detailed above.

#### b) The prevention of crime and disorder

The premises will provide a 30 minute extension to opening hours after the end of the sale of alcohol to promote this objective as the last drink will be consumed less quickly and customers can then leave in an orderly fashion and make use of the toilet facilities before departure. This will also assist in minimising public nuisance. The premises adopts the Portman Group Code of practice 'Avoiding the Encouragement of Excessive Consumption in Multi-purchase, on Trade Promotions by Producers' and the guidance issued by the British Beer and Pub Association on point of sale promotions. This is to minimise the risks caused by happy hours and binge drinking. The premises encourages staff to regularly collect empty glasses and bottles every fifteen minutes. Toilet inspections are carried out every hour.

#### c) Public Safety

No risks to safety have been identified by the applicant as a result of the proposed variations. The premises have fire retardant fixtures and fittings. The premises have an up to date health and safety policy and a qualified fire first aider. Premises have standard extractor fans at the premises.

#### d) The prevention of public nuisance

The licence holder or the Designated Premises Supervisor shall receive and respond to complaints throughout the duration of the regulated entertainment. Between the hours of 21:00hrs and 23:30hrs music (amplified and acoustic) and noise from amplified speech emanating from the premises shall be barely audible at the boundary of any noise sensitive premises.

#### e) The protection of children from harm

No unusual risks of harm to children have been identified.

**P) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The licence holder will apply a high standard of management and comply to all existing health and safety and fire safety requirements.

**b) The prevention of crime and disorder**

**c) Public Safety**

The inward opening external front door must be secured open when the function room is in use. The steps to the rear of the function room must be kept in good repair and clear of undergrowth and rubbish and ready for emergency use at any time.

**d) The prevention of public nuisance**

The licence holder is aware of the potential public nuisance of noise when live music is being played. The potential problem is from the rear of the premises when customers open the back door to exit onto the decked area. To alleviate this potential problem the licence holder intends to install a lobby to the back door so that customers have to pass through two doors to exit the premises thus limiting the noise loss from the building. Both doors to the new lobby area situated at the back of the building will be kept closed at all times when amplified music is being played.

**Licence Objective Notes (if any)**

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

Harvester Cat & Fiddle is part of and operated by Mitchells & Butlers Group (MAB). Mitchells & Butler own and operate over 2000 separate managed businesses within the United Kingdom. Managers are employed by the company and operate under the direction and procedures of the company. We adopt a corporate approach to risk management across the whole estate. This ensures a consistent approach to the management of risk in each of our businesses through a range of policies, procedures and roles. This approach is fundamental to the operating principles and is integrated into the way the Company run their business. This is a variation application that does not represent a fundamental change in the way in which this premises has already been trading under its existing licences and conditions. Careful consideration has been given to the risks and benefits associated with the additional hour(s) applied for and where additional steps are necessary and proportionate to address the licensing objectives have indicated them. Mitchells & Butler will continue to train their staff in the standards required by the relevant legislation and as required to their company policy. A voluntary closure policy for the operation is 30 minutes after the approved closure time for the supply of alcohol.

**b) The prevention of crime and disorder**

The Company monitors the need for door supervisors and in doing so takes into account any advice given by the Police. Text and/or radio pagers, where already used will be used for any additional hours. Toughened glass is currently in use and will continue to be used during any additional hours. Existing CCTV system will continue to operate during the additional hours. In line with the Companys Alcohol and Social Responsibility Policy there will be no promotions that encourage illegal, irresponsible or immoderate consumption.

**c) Public Safety**

Mitchells and Butler understand the obligations under existing Health and Safety legislation and take responsibilities seriously. The Company have extensive policies and practices in place to meet these obligations. The Company state that the nature of the operation and proposed variation will not lead to any increase in risk of the public safety. The existing policies will simply be extended to cover the relatively small increase in opening hours. An internal health and safety due diligence and incident reporting system will operate during the additional hour(s).

**d) The prevention of public nuisance**

The style and nature of the operation will not differ significantly from the existing trading operation during the extended hour (s). Indeed the grant of the additional hour(s) will of itself promote the licensing objectives by allowing customers to emerge from premises at a more gradual rate. Reasonable steps are taken to recognise the rights of local residents and to encourage customers to leave the premises quietly. Managers are required to liaise with local neighbours as part of their duties and resolve any reasonable concerns in accordance with their Role in the Community Guidelines.

**e) The protection of children from harm**

Mitchell & Butler recognised the importance of protecting children from harm and this is supported by: The Company's commitment to health and safety in the operation and maintenance of the premises. The Company's approach to managing the risk of under-age drinking. The Company will at all times observe the law and ensure that alcohol is not served to people who are under 18 years of age. The manager and staff are briefed in the importance of their responsibilities in ensuring customers are over 18. No adult entertainment (paid for by the company of a nude physical nature) is permitted at these premises. Any children under 16 remain the responsibility of the accompanying adult when using the premises (and/or exterior area). Staff are not to be in sole supervision of children which remains the responsibility of the accompanying adult at all times.

Consideration has been given to the terms of the Local Licensing Policy in preparing this application.

**Plan of Premises**

Plan/Drawing No: 17.45.ELG.100 August 2017

Date of Plan: Plan approved 6th September 2017

**Licence Objective Notes (if any)**

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The types of regulated entertainments proposed re-instate and then enhance the normal pub entertainments that were previously unregulated, with the benefit to enhance the local facilities for social entertainment and reduce the focus on alcohol. Staff will be trained on the requirements of the Licensing Act 2003 when they are recruited and given training in "drugs awareness" as part of their induction. No new steps have been identified by risk assessment in relation to the four licensing objectives, except as below. The terms of the local licensing policy have been considered in preparing the application for this licence.

**b) The prevention of crime and disorder**

Providing a 30 minute extension of opening hours after the end of the sale of alcohol hours will promote this objective as the last drink will be consumed less quickly, with access to the premises toilet facilities and the provision of non-alcoholic refreshment during this period. The Designated Premises Supervisor will be a member of the Lymington Pubwatch Scheme so long as it exists. Not less than 10 working days written notice will be provided to the Police, if they require it, when "Event Days" are planned.

**c) Public Safety**

The premises are a small traditional Public House and are therefore unable to accommodate large numbers. Function bookings are limited to no more than 60 persons, which includes both bar and restaurant areas.

**d) The prevention of public nuisance**

Live music will end at 23:00 hours except on New Year's Eve and New Year's Day, Bank Holidays and Christmas Eve. Live music will be staged indoors only, in the bar area. Recorded music will be staged indoors only. The volume of recorded music will be reduced to low background noise level and windows will be kept closed after 23:00 hours. A notice will be displayed prominently at all exits asking customers to leave quietly. Kitchen extraction filters are cleaned at least once a week to minimise the impact of cooking smells on neighbours.

**e) The protection of children from harm**

The restrictions set out in the Licensing Act 2003 will apply. Photographic proof of age will be required to be shown to anyone seeking to purchase alcohol who appears to be under 20 years of age. No unusual risks of harm to children have been identified.

### Licence Objective Notes (if any)

**a) General - all four licensing objectives (b, c, d, e)**

At the point of booking, guests are informed that the estate requires minimal noise disturbance and the volume of music will be controlled so that it is barely audible at the nearest premises. Guests are booking to appreciate the woodlands setting not to pollute it.

**b) The prevention of crime and disorder**

We only work with private, pre-booked groups who have exclusive use of the venue. We are away from population centres and roads and guests are likely to leave in car/taxis or buses.

The sale of alcohol and regulated entertainment shall be permitted up to 23:59hrs on no more than 20 occasions per calendar year (not including applications for Temporary Event Notices). The DPS will ensure that the Licensing Authority and Police receive a written notice not less than 10 clear days prior to the event. In calculating the notice period it shall not include the day the notice is given or the day of the event.

**c) Public safety**

The venue has certified electrical system with emergency exit signs in place and fire extinguishers appropriate to needs. The building is a simple one room building with an exit at each end. As we are in the middle of a private estate, other than the guests there will be no members of the public nearby.

**d) The prevention of public nuisance**

The two closest houses (approximately 300m) are occupied by the estate owners (our landlords) who are in support of this activity. We have regular meetings with them to ensure that our use of their estate is appropriate and acceptable to them. We will ensure that the sound is barely audible at the boundaries of nearby houses by monitoring it during the evenings of functions. The music will also be restricted inside of the building.

During any event involving live or amplified music (other than low level background music), all windows will be kept closed. External doors will also be kept closed, except where necessary for access and egress, i.e., the doors will not be secured open and will be fitted with self closers if necessary.

Speakers will not be positioned outside at any time.

So as to minimise disturbance to local residents late at night, staff will be given appropriate instructions and training to encourage customers to leave the premises quietly and not loiter in the vicinity of the premises.

At each exit point a prominent and clear notice will be displayed to the effect that customers should be considerate to local residents by leaving the premises and the area quietly.

Noise from amplified music and amplified voice emanating from the premises between 23:00hrs and 09:00hrs, will be inaudible when measured at the boundary of all noise sensitive premises.

Prior to 23:00hrs, amplified music and amplified voice emanating from the premises, whilst audible, is so low that distinct tunes, lyrics, musical instruments and any bass beat cannot be recognised at the boundary of all noise sensitive premises.

(Noise sensitive premises includes premises used for residential purposes, hospitals or similar institutions, educational establishments (when in use), or places of worship (during recognised times and days of worship) or any premises used for any other purpose likely to be affected by the music noise).

**e) The protection of children from harm**

We are encouraging a family friendly approach appreciating our woodland surroundings and discouraging excessive drinking ;. Children will be accompanied by their parents during the functions.

**a) General – all four licensing objectives (b,c,d,e)**

**b) The prevention of crime and disorder**

Premises will operate the Challenge 21 Scheme. Posters will be displayed and all staff will be trained to challenge any young persons attempting to purchase alcohol. CCTV is installed at the premises. It records surveillance of both internal and external areas of the premises including all entrances and exits. Recordings shall be securely retained for 30 days and surrendered to Police on request. The pub is a member of the Pubwatch Scheme and attends regular meetings. A zero tolerance to drugs will be taken. Anyone found using or in possession will be reported to the Police. Any drugs found will be confiscated and kept in a safe until such a time it can be collected by an officer. Toilets are regularly checked for evidence of any illegal activity.

**c) Public Safety**

Restaurant and bar will be well lit. Fire exits are clearly marked and risk assessments carried out. At least two members of staff will be first aid trained. All doors will be unobstructed.

**d) The prevention of public nuisance**

No exterior music or dancing after 9pm. Windows are closed and locked during any entertainment. Customers are encouraged to leave quietly and respect the neighbours when vacating the restaurant and bar. Signs are prominently displayed to request this. No individuals who are intoxicated or drunk to be allowed entry. No consumption of alcohol will take place in external areas after 23:00hrs. During all events of live and/or recorded music (excluding background recorded music) a representative of the premises shall carry out monitoring periodically throughout each event at the boundary of the nearest noise sensitive premises to ensure that any breakout of noise from the premises between 09:00hrs and 23:00hrs is at such a low level that distinct tunes, lyrics, musical instruments and any bass beat cannot be recognised at the boundary of the nearest noise sensitive properties and that between 23:00hrs and 09:00hrs any breakout of noise from the premises is inaudible at the boundary of the nearest noise sensitive properties. If noise levels are found to be in excess of the above, steps shall be taken to reduce the level of noise breaking out from the premises to the levels detailed in this condition.

**e) The protection of children from harm**

At all times there will be parental or adult supervision of children. All staff will operate a 'Think 21' Policy. There is no underage sales. Persons who are intoxicated and in charge of children are not welcomed and the relevant authorities will be informed.

The system should be operated in accordance with the Codes of Practice for CCTV issued by the Information Commissioners. There should be clear policies in place to ensure the integrity of all media and the continuity of any images stored on it. The CCTV system should be fully operational, as a minimum, throughout the period of time the premises are open to the public. The recording equipment and media should be stored and operated in a secure environment with limited access, to avoid damage, theft, unauthorised viewing and to maintain the integrity of the system. A record should be kept of any access made to information held on the system. The system should be regularly maintained and serviced with procedures in place to ensure any faults are rectified with the minimum of delay. The system clock/date should be checked regularly for accuracy taking account of GMT and BST. Tapes should be changed daily and kept for 31 days before being reused. Tapes should be replaced after a maximum of 12 usages i.e., annually or sooner where it becomes apparent that the quality of the images has deteriorated. Digital systems should have sufficient storage capacity for 31 days good quality pictures. Procedures should be in place to ensure that Police are able to access data from the system without undue delay. Such a system shall provide CCTV coverage to the internal areas of the Woodside Inn, the Off Licence and the Bistro and the external Piazza area outside the Bistro and shall include coverage of the public entrances/exits of these three buildings.

### **c) Public Safety**

Adequate lighting will be maintained at all times to a level that will facilitate emergency egress from any internal licensed area. Adequate access will be maintained for emergency vehicles whilst the premises are open. The applicant will ensure that materials such as curtains and fabrics in the licensed areas are fire retardant. Any hangings or decorations will be maintained so as not to interfere with an emergency exit. Fire precaution measures as indicated on the attached plan will be kept in place and the advice of the Fire Authority followed if appropriate. Where any temporary structure is erected which is used for a licensable activity care will be taken to ensure all fire precautionary measures are considered and included where necessary and sufficient exits are provided in case of fire. The licence holder will comply with such reasonable advice and guidance as is agreed in writing with the Fire Authority. Fire detection and warning systems will be tested at regular intervals and a record of the test maintained in a log book. Firefighting equipment will be checked and serviced in accordance with manufacturer's recommendations. The licence holder will implement further reasonable measures that are subsequently agreed in writing between the licence holder and the officer for health and safety or the Fire Officer.

### **d) The prevention of public nuisance**

Every effort will be made to ensure any noise from the premises does not cause a nuisance to nearby residents. At times when public musical entertainment takes place all external doors are kept shut save for access and egress. All amplified music in the Woodside Suite shall be controlled through the existing tamper proof noise limitation equipment/compressor or equipment agreed with the Environmental Health Officer of NFDC and maintained at the existing level or at a level subsequently agreed with the Environmental Health Officer. Other areas of the site having regulated entertainment are further away from any residential properties in the vicinity and such entertainment will be within the central core of the site. It is not anticipated that from this distance it will cause any nuisance. Regulated entertainment in any external areas will cease at 22:00hrs save for films outdoors that will cease at 23:00hrs. The licence holder will assess the likelihood of any impact of any noise from the premises on neighbours from time to time and implement such other measures as considered necessary or as agreed in writing with the Environmental Health Officer. The licence holder will continue to liaise with neighbours when this is considered appropriate. Special events held outside at the premises involving the playing of amplified music in outside areas as a main feature of the event shall be limited to a maximum of 25 events per annum under this licence and the level of music shall not exceed 65 dB LAeq, 15 min measured at the boundary of noise sensitive properties. In other cases where amplified music is played externally but ancillary to some other function and not part of a special event, the maximum noise level permitted for that amplified external music shall not exceed a level of 45dB LAeq, 15 min measured at the boundary of noise sensitive properties. Outdoor films will only be shown on two occasions per week during the hours of 17:00hrs to 23:00hrs between 1st March and 31st October each year.

### **e) The protection of children from harm**

If any function is held at the premises that involves adult entertainment, children will not be permitted into that part of the premises where the entertainment is taking place whilst the adult entertainment is being provided. Any adult entertainment envisaged is likely to be in the form of a comedian. If any film is shown that has not been previously broadcast before 20:00 hours on television, it will be subject to an appropriate age classification and children under the appropriate age will not be

permitted in the premises when the film is shown. If there is doubt as to age for the purpose of purchasing alcohol, staff are instructed to seek proof of age by means of a limited description of documents and if this cannot be produced or the staff remain unsure the staff are instructed to refuse any sale or supply. An informal policy of checking age if a person appears under 21 years of age gives an added safeguard. CCTV covers relevant internal and external areas. Any additional measures that are subsequently agreed in writing between the body responsible for advising on child protection and the licence holder will be implemented.

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

The types of regulated entertainments proposed reinstate and then enhance the normal pub entertainments that were previously unregulated with the benefit to enhance the local facilities for social entertainment and reduce the focus on alcohol.

No new steps have been identified by the risk assessment in relation to the four licensing objectives except as below.

The terms of the local licensing policy have been considered in preparing this application.

**b) The prevention of crime and disorder**

Providing a 30 minute extension of opening hours after the end of the sale of alcohol will promote this objective as the last drink will be consumed less quickly, with access to the pubs toilet facilities.

**c) Public safety**

Function s books will be limited to 150 persons. A risk assessment identifies no other risk of crowding.

**Licence Objective Notes (if any)**

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The house has operated without problem. With regard to the new four licensing objectives, we do not expect the extra hours requested will have an adverse effect on this and therefore do not see the need to introduce any extra measures .

**b) The prevention of crime and disorder**

Engage with recognised local liaison groups such as Pub Watch and/or other groups organisations (e.g., the Council and the Police) working to promote the licensing objectives. Advise staff to report evidence of crime taking place on the premises . Provide a 'wind down' period after the end of alcohol sales of 30 minutes daily to assist an orderly departure from the premises. No licensable activities or consumption of alcohol will take place externally after 2300 hours

**c) Public Safety**

Maintain electrical, fire detection/alarm lighting, gas appliances and other relevant plant and systems according to appropriate regulations. Comply with safety legislation, such as health and safety and fire precautions.

**d) The prevention of public nuisance**

Ensure noise levels are kept to a minimum, particularly after 2300hrs. Ensure details of local licensed taxi companies are available in the premises. Bottles will not be disposed of outside the premises until 0900hrs the following day. Regulated entertainment shall only take place in the dining area and/or bar area of the premises. Events of regulated entertainment shall only extend beyond 2300 hours on no more than 30 occasions in any calendar year.

**e) The protection of children from harm**

Train staff on the law and practice relating to age restricted sales. Support proof of age standards scheme. No adult entertainment will be provided.

**Plan of Premises**

Plan/Drawing No:

Date of Plan: 17/11/2004

Not Restricted

**Licence Objective Notes (if any)**

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The types of regulated entertainments proposed re-instate and then enhance the normal pub entertainment and reduce the focus on alcohol. Staff will be trained on the requirements of the Licensing Act 2003 when they are recruited and given training in 'drugs awareness' as part of their induction. No new steps have been identified by risk assessment in relation to the four licensing objectives except as below. The terms of the local Licensing Policy have been considered in preparing this application.

**b) The prevention of crime and disorder**

Providing a thirty minute extension of opening hours after the end of the sale of alcohol will promote this licensing objective as the last drink will be consumed less quickly with access to the pub toilets.

**c) Public Safety**

A risk assessment identifies no risk of crowding.

**d) The prevention of public nuisance**

Live music shall terminate by 23:00hrs. Recorded music shall terminate by 23:00hrs. Outside music events are limited to 6 in any one year and shall terminate by 23:00hrs. At all times prior to 23:00 hours, music and noise emanating from the premises, whilst audible, shall be so low that distinct tunes, lyrics, musical instruments and any base beat cannot be recognised at the boundary of all noise sensitive premises as marked on the attached map. At all times after 23:00 hours, music and noise emanating from the premises shall be inaudible at the boundary of all noise sensitive premises marked on the attached map.

**e) The protection of children from harm**

The restrictions set out in the Licensing Act 2003 will apply. No unusual risks of harm to children have been identified. Photographic proof of age will be required to be shown by anyone seeking to purchase alcohol who appear to be under 20 years old.

**Plan of Premises**

Plan/Drawing No:

Date of Plan: Plan approved 06/07/2005

**Licence Objective Notes (if any)**

## **O) Proposals by the applicant in order to promote the four licensing objectives:**

### **a) General – all four licensing objectives (b,c,d,e)**

CCTV surveillance with exterior lighting monitors arrivals and departures at entrance/exit doors and adjacent car parking area. Club management and steward are informed of objectives within the Licensing Act 2003 and statutory requirement to comply with all relevant provisions of the Act.

### **b) The prevention of crime and disorder**

Club rules govern the conduct of members and their guests within the club premises. Admission to the club is confined to members and bona fide guests and controlled by a computerised door entry system. Guests arriving unaccompanied are scrutinised by CCTV before signing in by the member. Club staff are fully aware of the instruction not to admit or serve members and guests who behave in a drunk or disorderly fashion. Misconduct is reported and acted upon by committee in line with the club rules governing disciplinary code.

### **c) Public Safety**

Following both fire and health and safety risk assessments, carried out professionally, the club management committee strives to ensure preventative and control measures are in place to ensure the safety of members, guests, employees and entertainers whilst on the premises. The club complies with capacity limits and signs are posted where necessary to ensure escape routes are known.

### **d) The prevention of public nuisance**

To comply with New Forest District Council's licensing policy it is the aim of the Club's Management Committee to ensure that when live or recorded music is played reasonable steps, as follows, are taken to avoid disturbance to adjacent properties: 1. Downstairs double-glazed windows at the front of the building are kept closed at all times when entertainment takes place. Air conditioning/smoke extractors ensure adequate ventilation. 2. "Inner" doors form part of the controlled entry system and are only opened by either a door person or club member using their access fob. 3. Heavy duty, lined curtains are drawn in the evenings at all times when entertainment is taking place. 4. Clear and legible notices are displayed at all exits requesting members/visitors to respect the needs of local residents and leave the premises/area quietly. 5. The club's management team communicate with departmental staff to ensure their awareness of controlling noise levels. Any complaints must be passed to the Club Secretary. 6. The committee person on duty when there is entertainment requests the artiste(s) to play at a reasonable level. 7. It is normal practice for entertainment to cease between 23:00 and 23:30 hours.

### **e) The protection of children from harm**

Persons under 18 years will not be allowed into the Club except for: a) Children attending with a full or visiting inter-affiliated member of the club who must themselves be 18 years or over. b) The member will retain full control of the children at all times. No children will be allowed to remain in the Club without the member being present. Under no circumstances will persons below 18 years be allowed to either purchase or consume alcohol. The gaming machines will remain within sight of the bar and surveillance by Club Steward and Committee Members will continue. No person under 18 years will be allowed to play these machines. Appropriate signs will be displayed at the bar and near gaming machines. All staff and committee members will be aware.

**P) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The licence holder is a national retailer that sells alcohol as part of a broad offering of goods and services . Off-licences have been held in the stores for many years and the licence holder is an approved British Institute of Inn-keeping examination centre. The licence holder has written training policies and formal training programmes in place, which ensure employees are equipped to meet all licensing objectives. All training and revision/refresher materials are reviewed regularly and are currently being re-written to reflect the requirements of the new Act. The licence holder has introduced a 'Think 21' policy to stores in July 2004, this policy is brought to customers' attention through point of sale material at the checkout and wherever alcohol is displayed for sale. Legal compliance is taken very seriously and in addition to local training the licence holder has a central alcohol licensing compliance manager and a compliance committee. All the measures currently in place during licensed hours would continue to be in place during any additional hours that alcohol would be sold in the store.

**Plan of Premises**

Plan/Drawing No:

Date of Plan: Plan approved 27/02/2012

**Licence Objective Notes (if any)**

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

It is not proposed that any of the following promotions will be used at the premises: Drink all you can for a fixed price. Charging less per unit for multiple units than for single units. Refusing to sell single measures. Running of drinking games or competitions which involve consumption of alcohol or the rewarding of drinks as prizes. The premises supports the Portman Group Code of Practice on naming, packaging and promotion of alcoholic drinks. Any staff employed at the premises will be trained as appropriate to their duties to ensure that they appreciate the influence that they can have on the licensing objectives. This training will be refreshed as and when we feel is necessary, depending on the individual and the circumstances.

**b) The prevention of crime and disorder**

The premises operates a zero tolerance to drugs and notices will be maintained on display at appropriate locations throughout. No further steps are considered necessary at this point in time because of the variation, but the licence holder will undertake to implement any additional measures that are agreed in writing from time to time between ourselves and the police officer and notified to the Council.

**c) Public Safety**

In relation to any licensed activity: Fire and other risk assessments will be carried out in accordance with statutory provisions. Copies of risk assessments will be requested from any sub-contractors. Electrical systems will be designed and maintained in accordance with the Electricity at Work Regulations 1989 and regard will be had to the current codes of practice on electrical installations. Adequate lighting will be maintained at all times to a level that will facilitate emergency egress from any licensed area. An evacuation plan will be maintained, which will be advised to all relevant members of staff. The property has comprehensive fire detection and warning systems with detectors fitted in all rooms. Fire precaution measures will be kept in place unless otherwise agreed with the Fire Authority. Advice on occupancy figures will be sought from the Fire Authority as appropriate. Fire detection and warning systems will be tested at regular intervals and a record of the test maintained in a log book. Firefighting equipment will be checked and serviced in accordance with manufacturers recommendations. Fire aid provision will be made in accordance with statutory requirements. When holding licensable activities, a sufficient number of staff will be engaged to assist in safe access and egress from the property. The number of staff required will be determined on a case-by-case basis in accordance with our risk assessment and the above guidance depending on the nature and size of the event. Sufficient quantities of water will be supplied free of charge whilst any regulated entertainment is provided. Soft drinks will always be available on sale whenever alcohol is also sold. No further steps are considered necessary at this point in time because of the variation, but the premises will undertake to implement any additional measures that are agreed in writing from time to time between the Fire Service and Health and Safety Officer and the premises and subsequently notified to the Licensing Authority.

**d) The prevention of public nuisance**

There is not believed to be any current problem in relation to public nuisance. The contact details of local public transport providers will be available at the premises. No rubbish, including bottles will be moved or placed in outside areas between 23:00hrs and 07:00hrs. Under normal circumstances, the volume of the sound system is controlled from behind the bar. The hours of operation will be clearly indicated at the entrance to the premises. Outdoor functions will cease at 23:00hrs Monday to Saturday and 22:30hrs on Sundays. No other steps are considered necessary at this time because of the variation applied for and because of the precautions that have already been taken. However, the licence holders will undertake to implement any further measures that are agreed in writing from time to time with the Environmental Health Officer and subsequently notify the Licensing Authority. No noise or vibration shall emanate from the premises so as to cause a nuisance at any residential property.

**e) The protection of children from harm**

Where it is suspected that any person attempting to purchase alcohol is under 18, proof of age will normally be required. Acceptable identification will be by means of a passport, driving licence or other identification that is listed as acceptable in the Councils statement of Licensing Policy. Such as a request will be in addition to any request for identification that is needed for entry. Any sales of tobacco and the use of AWP machines will be supervised from the bar area. No further steps are considered necessary but licence holders will undertake to implement any additional measures that are agreed in writing from time to time between the body responsible for advising on child protection and subsequently notify the Licensing Authority.

**Licence Objective Notes (if any)**

**P) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

At David Lloyd Ringwood the licence holders intend to hold a number of functions, around 15 per year, where the licensing hours will be required to be extended to 01:00 am. These events are for members and their guests only and will not be open to the general public. It is not their intention to, or in fact company policy to, open the premises for non-members. All guests will be asked to fill in a guest registration card at the entrance to the event. The events are for a maximum of 140 people. All events will be adult only, and this will be strictly enforced using the membership system and pre-booking of tickets.

**b) The prevention of crime and disorder**

There is installed a digitally recorded CCTV system with 24 cameras covering all aspects of the building. The system is recording 24 hours a day 7 days a week and 60 days are stored automatically. The CCTV system covers internal areas both inside and outside the club giving us good coverage of all public areas. All members have their names, addresses and photographs on their membership cards and this information is stored by the club on computer, enabling us to link immediately any incident with the person/persons involved. All guests of members are made to fill in a guest registration card at each event and must be pre-booked to each event. David Lloyd Ringwood has a zero tolerance policy for illegal drugs and anyone found with such substances will be handed over to the police and the drugs seized and placed in a sealed signed envelope in the main safe until collected by the relevant authorities. David Lloyd Ringwood has a fully activated intruder alarm for the whole premises which is activated on closure every night. All alcoholic drinks are locked away behind steel shutters or lockable doors at the end of service each night. The car park and outside areas are well lit and the lights are set on a timer. The rear of the building is lit and access to the grounds is limited at night due to locked gates. There are no fruit machines on the premises and all safes are automatically locked with the main drop safe time out until 08:30 am, all takings are bagged and put in the drop safe at the end of the day's trading. During the summer months and functions outside on the patio plastic government stamped glasses are used.

**c) Public Safety**

Each function has a maximum capacity of 140 and this will not be exceeded due to catering restraints. The building has an annual fire inspection and regular full evacuations are carried out and documented training is kept on the premises. There are always fully qualified first aiders on duty as part of the company policy. All first aid trainers are also defibrillator qualified. All food handlers are food hygiene qualified and the premises is health and safety audited bi-annually by an external auditor, details of which are kept on site. The premises have adequate facilities for disabled members and their guests.

**d) The prevention of public nuisance**

Windows and doors will be kept shut during regulated entertainment. All regulated entertainment will be housed at the rear of the building away from the nearest houses. All speakers away from adjacent houses. Garden areas and areas used for smoking and drinking are at the rear of the building away from the nearest houses. Smoking is only permitted on regulated functions and is not allowed during the normal running of the club. All empty bottles and rubbish will be disposed of in the main bins the morning after an event and not during the hours of 23:00 pm and 07:00 am. Car parking facilities are provided for members.

**e) The protection of children from harm**

During the normal trading activities children are allowed in the licensed areas and staff will be trained to not serve. The only forms of identification accepted in these instances are passport or driving licence. All junior members are subject to the same rules with membership details where we have their picture and their address and date of birth on the computerised system accessible at all times. There will NOT be entertainment of an adult or sexual nature on the premises at any time. During events aimed at families adult supervision will be employed at all times.

**P) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

Tescos are a national retailer that sells alcohol as part of a broad offering of goods and services . The Company have held off-licences in their stores for many years and are an approved British Institute of Inn-Keeping examination centre. Tescos have written training policies and formal training programmes are in place which ensure their people are equipped to meet all licensing objectives. All training and revision/refresher materials are reviewed regularly and are currently being re-written to reflect the requirements of the new Act. A 'Think 21' policy has been introduced to all of the stores in July 2004, this policy is brought to customer's attention through point of sale material at the checkout and wherever alcohol is displayed for sale. Tescos take legal compliance very seriously and in addition to local training, a central alcohol licensing compliance manager is employed and they have a compliance committee. All the measures that are currently in place during licensing hours would continue to be in place during any additional hours that alcohol would be sold in the store.

**Plan of Premises**

Plan/Drawing No: 4200/02

Date of Plan: August 2006

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

In the rural location on the southern edge of the village of Damerham, the Fishing Lodge is not immediately adjacent to any other properties. The fishery caters for members of corporate parties and season ticket holders and is not a day ticket fishery. The clientele are known or become known personally to the Manager/Director, or are members of an organised corporate party. The new Lodge has been built in accordance with Planning Permission and Building Regulation Consent taking into account all current legislation in respect of disability discrimination, health and safety, food hygiene and fire safety. The main activity under the licence will be the sale of drinks with lunch. There is no entertainment or other activities carried on at the premises. Children do not attend the premises unless they are in the company of a responsible adult. It is unlikely that the premises would be used for alcohol sales after 2100 hours, even in mid-summer. The fishery not only provides local employment but also further employment for local inns, hotels and businesses offering accommodation in the area.

**b) The prevention of crime and disorder**

The supply of alcohol is ancillary to the main business of the fishery and will be largely supplied to accompany meals, principally lunches. The clientele are either members of corporate parties or season ticket holders and are not dropping in "off the street". The premises are discreetly placed on a private fishery, entry to which is by a privately operated and electric coded gate.

Consumption of alcohol is to be in the Fishing Lodge, details of which are clearly shown on the plan. The premises are large enough to accommodate visiting parties in comfort with no need for an overflow to the exterior. The premises are not of course to be open late at night and night time use will be extremely low.

**c) Public safety**

The premises have been built in accordance with Planning Permission, having considered environmental health and fire safety law. There are ample entrance and exit doors and the employers have assessed the risks, including risks from fire, in relation to the operation of the kitchen area. Exits to the premises are clear and uncluttered and access away from the premises in case of fire is clear and evacuation of the premises should be straightforward with escape routes to places of ultimate safety easy to locate and navigate.

**d) The prevention of public nuisance**

The premises have been built in accordance with Planning Permission, having considered environmental health and fire safety law. There are ample entrance and exit doors and the employers have assessed the risks, including risks from fire, in relation to the operation of the kitchen area. Exits to the premises are clear and uncluttered and access away from the premises in case of fire is clear and evacuation of the premises should be straightforward with escape routes to places of ultimate safety easy to locate and navigate.

**e) The protection of children from harm**

Access for children to the premises is restricted as they will be accompanied by adults. In the case of any organised teaching sessions, these would be conducted by a properly vetted instructor and the use of the Fishery Lodge would be adapted to allow for the attendance of children. As indicated previously, this is not a facility where access can be obtained by passing members of the public. As a result, close observation of the use of the public area and the Fishing Lodge can be maintained.

**a) General - all four licensing objectives (b, c, d, e)**

The Licence holder has comprehensive and appropriate written policies to cover all aspects of its trading operations including those which pertain to the sale of alcoholic products.

**b) The prevention of crime and disorder**

The Company operates a Challenge 21 policy and all cashier staff are trained in respect of this policy and acceptable forms of identification (passport, photo driving licence, PASS approved proof of age cards). Appropriate signage is displayed in store and a till prompt system requires the cashier to physically confirm that the purchaser is over 18 years of age whenever an age restricted product is scanned.

In relation to age restricted sales, the Company will implement and maintain a refusals log system which will be regularly monitored in compliance with existing Company policy.

A digital CCTV system will be maintained at the Premises, enabling surveillance of entrances, exits and till point areas. Recordings from the system will be to a standard acceptable as evidence in a court of law and shall be securely retained for a period of 19 days. The recording shall be surrendered in a playable format to Hampshire Constabulary upon receipt of a reasonable request.

**c) Public safety**

Please refer to (b) above.

**d) The prevention of public nuisance**

Please refer to (b) above.

**e) The protection of children from harm**

In addition to those measures referred to in (b) above it is also a written, trained and refreshed Policy of the Company to challenge any customers who are apparently under the age of 21 years and attempting to purchase alcoholic products to provide evidence (in PASS approved formats only) to prove that they are in fact over the age of 18 years.

Separately the applicants IS system at all checkouts identify any alcoholic products and will always display an electronic flag to the cashier when any such products are presented for purchase. The cashier is then required to physically input into the till console a confirmation that the customer is over the age of 18 years.

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

This restaurant understands that in extending our opening hours we have a duty to the local community and that we continue to protect our staff and customers from danger and harm. We believe that the systems we have in place are robust, thorough and will, as far as reasonably practicable, secure the promotion of the four licensing objectives.

We are eager to work in partnership with all responsible authorities to ensure the promotion of the four licensing objectives .

**b) The prevention of crime and disorder**

This restaurant is keen to work in partnership with the local police force to prevent crime and disorder.

At this restaurant all shift running managers have safety and security training. This restaurant will maintain a CCTV system in operation on the premises while open to the public. CCTV images will be held for a period of 28 days and access to the CCTV system will be provided to Police Officers and Council Officers at their request .

**c) Public safety**

This restaurant has safety systems in place to protect the safety of customers and staff at all times . These systems are regularly reviewed and updated where appropriate. In line with current legislation all our restaurant are routinely inspected by the local Environmental Health Office and we work with them and the local Fire Service to ensure we are complying , as far as reasonably practicable, with relevant Health & Safety and Fire Safety Legislation. This restaurant is subject to inspections from our safety and security teams to ensure our systems are being maintained.

This restaurant is keen to work in partnership with the local Fire Service and Environmental Health Officer to ensure public safety.

**d) The prevention of public nuisance**

McDonald's were the first Company in our sector to introduce litter patrols in the early 1980's. These patrols collect McDonald's packaging and other litter within a certain radius of the restaurant. We are happy to act on recommendations from the Environmental Health Officer should they feel that we should extend our patrol to a nearby area , as far as this is reasonably practicable. Our pioneering stance on litter patrols has meant working on a project with DEFRA, in which we piloted 'reducing litter cause by food on the go', a voluntary code of practice for local partnerships. A copy of which can be found at [www.defra.gov.uk/environment/localenv/litter/pdf/fastfoodcop.pdf](http://www.defra.gov.uk/environment/localenv/litter/pdf/fastfoodcop.pdf).

We also have measures in place to limit noise . Our doors are self closing and we try to encourage customers to be considerate to our neighbours and limit noise both when ordering their food and on leaving the local area.

The licensee or nominated representative will receive and respond to complaints.

The disposal of empty bottles refuse into outdoor storage receptacles will not take place between the hours of 23:00hrs and 05:00hrs.

Arrangements will be in place to ensure that deliveries of consumables will not take place between the hours of 23:00hrs and 05:00hrs.

Arrangements will be in place to ensure that waste collection contractors will not collect between the hours of 23:00hrs and 05:00hrs.

At each exit point a prominent and clear notice will be displayed to the effect that customers should be considerate to local residents by leaving the premises and the area quietly.

**e) The protection of children from harm**

McDonald's do not anticipate that children will use the restaurant in the extended hours period covered by this licensing application. We do however take their safety extremely seriously and will continue to employ the same practices to ensure that they are protected from harm at all times when visiting the restaurant.

All of our restaurant staff are required to attend comprehensive safety training .

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

We are a small cafe with a limited amount of seating and don't foresee selling a large amount of alcohol on any given day.

We will have clear policies, guidelines and training in place for all staff to understand all aspects of the sale of alcohol to customer.

We will have a strict Challenge 21 policy in place and will not allow the sale of alcohol to be made by any staff under the age of 18.

We are very aware of our residential neighbours and will put everything necessary in place to reassure them that the consumption of alcohol in the cafe will be very low key - will not be highly advertised and any disruptive behaviour from any of our customers will be addressed promptly to reduce the impact it has on any other member of the public.

Alcohol will only be served to customers dining in the cafe.

**b) The prevention of crime and disorder**

We would be happy to work closely with the Crime and Disorder Partnership .

We will always have someone over the age of 25 on the premises and have a clear policy in place to help prevent crime and disorder.

This would include guidelines and training on what to do if a customer appears to have consumed a high level of alcohol.

The holder of the premises licence shall ensure that every individual who appears to be under 21 years of age seeking to purchase or be supplied with alcohol at or from the premises shall produce means of identification acceptable to the Licensing Authority proving that individual to be 18 years of age or older. If the person seeking alcohol is unable to produce acceptable means of identification, no sale or supply of alcohol will be made to or for that person.

All staff shall be trained to challenge every individual who appears to be under 21 years of age and to refuse service where individuals cannot produce acceptable means of identification. Such training shall be provided not less than every six months and written records shall be kept of all training and refresher training.

A written log shall be kept of all refusals including refusals to serve alcohol , refusals of entry to the premises and ejections from the premises. The holder of the premises licence shall ensure that the refusals log is properly maintained and this shall involve but is not limited to, nominating in writing a responsible person to check and sign it on a weekly basis.

**c) Public safety**

This would include guidelines and training on what to do if a customers appears to have consumed a high level of alcohol.

We will have a policy that states alcohol will only be served to customers dining with us .

**d) The prevention of public nuisance**

We will display signs to make customers aware that they are in a residential area and should leave the premises quietly .

We are a small cafe and don't foresee customers purchasing a large amount of alcohol at any one time.

We have a friendly, approachable staff team who will be trained in how to approach customers in a non-confrontational manner if they were perceived to be upsetting other members of the public.

No consumption of alcohol will take place in external areas after 21:00hrs each day.

**e) The protection of children from harm**

In general children are accompanied by an adult who is dining in our cafe.

We intend to store any alcohol out of sight and out of reach of children . We will not be advertising alcohol products on posters etc - they will only be on our table menus.

We will have a strict 'Challenge 21' policy and the sale of alcohol will only be permitted by a member of staff over the age of 18.

**Plan of Premises**

Plan/Drawing No: MOS/001/2011

Date of Plan: 15/06/2011

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

Club management, stewards and bar staff are aware of the objectives within the Licensing Act and the statutory requirement to comply with all relevant provisions thereof.

Club Committee and Designated Premises Supervisor are on duty to generally oversee events.

**b) The prevention of crime and disorder**

The stewards and bar staff are fully aware that they must not serve anyone who behaves in a drunk and disorderly manner and such refusal is noted in the Bar Day Book.

Misconduct of members is reported to the committee who will suspend members or withdraw their membership as they see fit.

The holder of the premises licence shall ensure that every individual who appears to be under 21 (or 25) years of age seeking to purchase or be supplied with alcohol at or from the premises shall produce means of identification acceptable to the licensing authority proving that individual to be 18 years of age or older.

If the person seeking alcohol is unable to produce acceptable means of identification, no sale or supply of alcohol will be made to or for that person.

All staff shall be trained to challenge every individual who appears to be under 21 (or 25) years of age and to refuse service where individuals cannot produce acceptable means of identification. Such training shall be provided not less than every six months and written records shall be kept of all training and refresher training.

A written log shall be kept of all refusals including refusals to serve alcohol, refusals of entry to the premises and ejections from the premises. The holder of the premises licence shall ensure that the refusals log is properly maintained and this shall involve, but is not limited to, nominating in writing a responsible person to check and sign it on a weekly basis.

Challenge 21 (or 25) posters shall be displayed in prominent positions at the premises.

**c) Public safety**

Risk assessment has been undertaken and the committee strives to ensure the safety of members, guests, employees, visitors and entertainers whilst on Club premises by putting both preventative and control measures in place.

Signage is in place to demonstrate escape routes and the Club with capacity limits.

All bar staff and committee know the location of the first aid box.

**d) The prevention of public nuisance**

The Club has signage asking members and guests to show consideration to neighbours by leaving quietly at all times but especially at night. Any complaints from residents will be immediately reported to the Club secretary.

Committee and bar staff have been made aware that when regulated entertainment is taking place all double and triple glazed windows must be kept closed and all heavy duty curtains drawn and doors kept shut. It is the responsibility of the duty committee person to monitor the levels of performers to ensure that they are maintained at acceptable levels.

During any event involving live or amplified music (other than low level background music), all windows will be kept closed. External doors will also be kept closed, except where necessary for access and egress i.e. the doors will not be secured open and will be fitted with self closers if necessary.

Speakers will not be positioned outside at any time.

The air conditioning and cooking extraction system will be switched off when not required.

The disposal of empty bottles into out door storage receptacles will not take place between 2130 – 0700

Arrangements will be in place to ensure that deliveries of consumables will not take place between 1900 – 0700.

Arrangements will be in place to ensure that waste collection contractors will not collect between 1900 – 0700.

So as to minimise disturbance to local residents late at night, staff will be given appropriate instructions and training to encourage customers to leave the premises quietly and not loiter in the vicinity of the premises.

At each exit point a prominent and clear notice will be displayed to the effect that customers should be considerate to local

residents by leaving the premises and the area quietly.

Prior to 2300, amplified music and amplified voice emanating from the premises whilst audible, is so low that distinct tunes, lyrics, musical instruments and any bass beat cannot be recognised at the boundary of all noise sensitive premises.

(Noise sensitive premises includes premises used for residential purposes, hospitals or similar institutions, educational establishments (when in use) or places of worship (during recognised times and days of worship) or any premises used for any other purpose likely to be affected by the music noise.)

**e) The protection of children from harm**

Up to the age of 14, children are only allowed in the club with their parents, grandparents or official guardians and are not allowed in the bar area. Between the ages of 14 and 17, they must be either with their parents or be a junior member which requires sight of their passport/birth certificate and an interview with them and the parents. Bar staff will then monitor them in the Club ensuring that they are kept safe and that they can only purchase soft drinks.

There is signage in the Club stressing the importance the committee puts on alcoholic drinks not being purchased by or for under 18's and bar staff are aware to watch for this.

Committee and bar staff have been instructed to be on their guard for children at risk and they have a duty to report anyone who may come into this category.

The Club has a sub-committee specially to oversee families and children within the Club.

Overview

### Overview

J D Wetherspoon began trading in 1979, Over time we *have* developed a sophisticated range of practices and procedures aimed at providing a safe and convivial environment in which the public may enjoy the wide range of facilities which we offer, The procedures that we *have* put in place are subject to constant *review* and improvement and are the result of careful consideration by our experienced team of directors, managers and professional advisors,

Overall, our aim is to provide a distinctive kind of pub which attracts a broad range of customers, We aim to create the congenial atmosphere of the traditional pub combined with features found in modern cafes, restaurants and bars, We successfully *achieve* this through a combination of high-quality design, good management and the provision of an all-day menu and a range of quality products, J D Wetherspoon was the first company to develop a Code of Conduct for Responsible Retailing, This Code sets out the operational procedures that we as a company *have* put in place to ensure we are actively promoting the four licensing objectives; Prevention of Crime and Disorder, Preservation of Public Safety, Prevention of Public Nuisance and Protection of Children from Harm, At all times we operate to ensure that our commercial imperatives do not override the core values set out in the Code, The first edition of the Code was developed in April 2004 as a result of our experience in dealing with different local authorities, police forces and various other statutory bodies at the time of licensing reform, The Code formed an integral part of all applications that we submitted to convert and *vary* licenses prior to the introduction of the new licensing regime, Today we continue to offer a commitment to the principles set out in the Code with each and *every* application for a new premises licence,

The Code is divided into four sections, one for each of the four licensing objectives, with specific practices and procedures identified under the relevant objective, There is, *however*, considerable overlap between our practices and the objectives so that some of our procedures simultaneously address more than one of the objectives, For

example, our staff training procedures address **all** four objectives and our CCTV policy meets both the crime prevention and the prevention of public nuisance objectives,

Our approach has always been to work closely with the statutory authorities and with local residents to ensure that the licensing objectives are being actively promoted, We appreciate that the success of the licensing regime depends on the continuation of strong partnerships between the licensed trade, responsible authorities and interested parties, We are always sensitive to concerns raised by interested parties or responsible authorities in response to our applications for new licences, We are always willing to modify our applications to address those concerns when that is deemed necessary,

### 1.1 Food

1.1.1 At J D Wetherspoon the provision of good quality food at reasonable prices is at the core of our business. A full menu is available in our premises from opening until 10pm. 7 days of the week.

1.1.2 Food has become an increasingly important element of our operation in recent years and in particular since the introduction of the smoking ban in England and Wales in 2007. Our experience is that a smoke-free pub provides a much more conducive atmosphere in which to eat, especially for families with children. As a consequence, in the past few years we have seen our food sales increase significantly. Food currently amounts to 29% of the total sales across the estate. In a number of our pubs a figure of 50% and higher is achieved. Including bar purchases made in association with table meals, diners now account for approximately two-thirds of sales.

1.1.3 The majority of our pubs open from 8:00am or 9:00am to cater for customers who want to join us for breakfast. We pioneered the availability of breakfasts across all our pubs. We now sell approximately 250,000 breakfasts per week. In a similar vein, we now sell over 400,000 cups of Lavazza coffee every week. Our coffee sales now approximately match those of Caffè Nero in volume and are about a quarter of Starbucks. We believe that we now have approximately 6 per cent of the United Kingdom 'chain' coffee market.

1.1.4 Our Curry Club, Grill Night and Sunday Club are a key offer available in all of our pubs. These promotions are typical of our approach to responsible drinks retailing where we link drinks promotions with the sale of affordable food. For example, during Curry Club customers are offered a drink inclusive with their meal and can choose from a pint of lager, bitter, Guinness or cider, a bottled lager, a glass of wine, a single gin or vodka and tonic, or they can choose a coffee or tea, a bottle of water or a non alcoholic soft drink such as Pepsi or J20.

1.1.5 We always use high quality ingredients and increasingly offer regional dishes and locally sourced products. We also take great care to ensure that artificial ingredients are avoided wherever possible. For example we use free range eggs, cod from sustainable stocks, the beef in our burgers is 100% British and cooking oils without trans-fats.

1.1.6 Our award winning children's menu is available throughout our trading hours. A number of our children's meals use only organic ingredients. We have no preservatives or sugar or artificial colours or flavours in any of the meals in the children's menu. All of our children's meals come with a bag of fresh fruit as well as milk, orange juice or water as the drink options. We provide nutritional information about the meals offered on the children's menu to help parents make informed decisions about what their children are eating.

Section 1.2 Responsible Drinks Retailing

### 1.2 Responsible Drinks Retailing

1.2.1 J D Wetherspoon takes the issue of responsible drinks retailing extremely seriously. We understand that we are in the business of selling alcohol and we cannot therefore take the moral high ground, but we strive to operate our pubs in such a way that we create a safe and convivial atmosphere which encourages people to behave well. We work closely with the statutory authorities to ensure that any initiatives designed to achieve these goals are fully supported by our local operators. We are continually looking for new ways to ensure that the facilities and promotions offered in our pubs do not encourage the excessive consumption of alcohol and unruly behaviour that often goes with it.

1.2.2 The provision of food throughout our trading hours is a vital component of our approach to responsible drinks retailing. The consumption of food both before and during the consumption of alcohol is widely recognised to slow down its absorption into the blood stream. We encourage adults to drink in moderation and to enjoy alcoholic beverages in a sensible manner, preferably around mealtimes.

1.2.3 We do not engage in irresponsible drinks promotions. We do not offer 'all

inclusive' promotions where our customers can drink unlimited amounts for a set fee. Neither do we offer promotions that entice customers with free alcoholic drinks such as buy-one-get-one-free promotions. The majority of our drinks promotions form part of our food promotions. Our practices and procedures are frequently held-up by the police and local authorities as 'best practice' for others to follow.

1.2.4 We sell a wide range of soft drinks, fruit juices and coffee. We ensure that low-alcohol and non-alcoholic beverages are prominently advertised in our 'table talker' menus. Where drinks are promoted we always offer a range of drinks including ones of different alcoholic strengths, soft drinks and coffee.

1.2.5 We concentrate on the provision of cask conditioned beers - selling more than any other pub company. Throughout the year we run regional festivals showcasing the very best ales from local microbrewers as well as larger provincial brewers. The vast majority of our premises are accredited by Cask Marque for the quality of their ales. Real ale typically attracts a broader, often older, cross-section of customers. This broad customer base creates an atmosphere within our pubs that we believe leads to better behaved customers.

1.2.6 We are the only pub company in the United Kingdom to produce a comprehensive, bi-monthly customer magazine - Wetherspoon News. The print run per issue is 250,000 however there is an estimated readership of 1,000,000 (4 readers per copy). Wetherspoon News is distributed nationally throughout all Wetherspoon pubs, Lloyds N01 bars, Wetherspoon Lodges and the company's head office. It is provided free-of-charge to customers. Wetherspoon News is an invaluable method of communicating responsible retailing messages to our customers. We also devote a large proportion of this publication to recognise and highlight our staff who have worked hard to promote responsible retailing and sensible drinking messages in their pubs.

5

Section 1 " Prevention of Crime and Disorder .....

1.2.7 We recognise the importance of informing customers about the alcoholic strength of products and unit measurements, We always try to source alcoholic products (wine, RTDs, bottled lagers and beers) that prominently advertise both the alcohol-by-volume ('ABV') content and units as a part of their packaging. All of our table talker/drinks lists record the ABV content for draught ales, lagers, spirits & bottled beers & ciders, Unit measurements for all alcoholic products are available through our website,

1.2.8 We adopt a socially responsible approach to marketing, We place our responsible retailing messages in prominent positions in public areas to ensure that our customers are kept well-informed about our commitment to these practices, The majority of our drinks promotions form part of food promotions such as our Curry Club or Grill Night where customers are offered a drink inclusive with the meal offer, We ensure that low-alcohol and nonalcoholic beverages are prominently advertised in our table talker/drinks lists, Where drinks are promoted we always offer a range of drinks including ones of different alcoholic strengths, soft drinks and coffee,

### 1.3 Price Structure

1.3.1 J D Wetherspoon offers reasonable prices across the full range of products on offer to our customers and not just on alcoholic drinks, This approach has been always been an *attractive* part of our offer from the customer point of view, In our view customer behaviour is primarily influenced by strong management, highly trained staff, and a robust approach to responsible drinks retailing rather than the pricing of alcoholic products,

1.3.2 The Office of Fair Trading has consistently stated that price fixing or minimum pricing is prohibited under United Kingdom and European Competition Law.

Accordingly, we do not adopt a minimum pricing policy in our pubs, We continually review the pricing structure of our alcoholic and non-alcoholic products to ensure that we are encouraging sensible drinking at all times,

1.3.3 Our approach to the sale of alcohol is to concentrate on the range and quality of the products on offer rather than to use price as an incentive, Our approach has been both welcomed and supported by the police and other statutory authorities around the United Kingdom, In 2005 we won the national 'Responsible Drinks Retailer - Pub Chain Company' award organised by the Morning Advertiser and supported by the Home Office and were short listed for the same award in 2006,

### 1.4 Highly Trained Staff

1.4.1 At J D Wetherspoon there is a very strong culture of thorough induction training and on-going refresher training. Training is provided for all employees regardless of their role, their age or their hours of work. It is widely recognised that the level and quality of staff training is a significant factor in controlling the behaviour of customers on licensed premises. Our employees are extensively trained on their obligations under licensing law.

1.4.2 Our training systems have been consistently praised by employees and by the industry. We have won many awards including the Supreme Training Award from the British Institute of Innteeing ('BII') for two consecutive years.

We have also won the National Innkeeping Training awards for Best Catering Training, Best Training in Managed Estates and in 2007 the Best Training Scheme by Institutions of Further and Higher Education in Partnership within the Licensed Retail Industry.

1.4.3 Training of our management personnel is conducted on a modular basis with continuing assessment throughout their employment period. Bar staff training is primarily carried out on site by management personnel.

1.4.4 An essential element in having a well trained staff is our ability to retain our employees. Turnover of Pub Managers is around 12% which is less than half the industry average. Moreover, 75% of all management employees began with J D Wetherspoon as hourly paid employees and, typically, anyone appointed to run one of our pubs for the first time is likely to have been employed by the Company for at least 5 years.

1.4.5 The quality of our training, recruitment and employment practices have been recognised by J D Wetherspoon being included in "Britain's Top Employers" for 5 consecutive years.

#### 1.5 Management Structure

1.5.1 Our management structure is designed to ensure that we encourage responsible behaviour on our premises. Our pubs each have an average of five managers and the majority of these hold personal licence qualifications or are working towards them. There is always at least one manager (often more) on duty in every pub throughout trading hours and at peak times there will be a designated manager supervising the bar and 'walking the floor'.

1.5.2 Pub Managers have the support of their Area Manager who in turn reports to a General Manager. The Operations Director maintains regular contact with management at all levels. This management structure ensures that if any employee has any question or requires further support they can immediately ask for assistance from their management team. Area Managers look after an average of only 12 pubs each which is a low number of pubs in comparison to regional managers in competitor pub companies.

7

### Section 1 - Prevention of Crime and Disorder

#### 1.6 Preventing Drunkenness and Disorderly Behaviour

1.6.1 In recent years we have taken numerous positive steps to ensure that the facilities and promotions offered in our pubs do not encourage the excessive consumption of alcohol. All of our employees are provided with intensive induction and refresher training on our Don't Do Drunk policy. This policy is designed to ensure that alcohol is not served to anyone who appears to be drunk or to anyone who is trying to purchase alcohol on their behalf. Our employees are trained to continually assess the state of sobriety of any customer purchasing alcoholic drinks or consuming alcohol within the premises. As part of this training we reassure our employees that if they ever feel uncomfortable dealing with a situation then they must notify the Pub Manager and ask for their assistance. Our management teams are asked to support the decision of any employee not to serve a customer who appears to be drunk or disorderly.

1.6.2 We monitor the effectiveness of this training by reviewing the use of the 'Refusal' button on the EPOS till system (pressed whenever a customer is refused alcohol) and from feedback given by enforcement authorities, customers and Company representatives. Adherence to our Don't Do Drunk policy is closely monitored through regular inspections of all pubs at any time during trading hours. These visits are completed by senior J D Wetherspoon managers and also by a body of independent professional advisers. There are specific questions on the visit report form regarding the perceived presence of drunk and disorderly customers on the premises and all employees participate in a monthly bonus scheme which is directly linked to the results of these visits.

1.6.3 All employees are trained to immediately notify the Pub Manager if any customer becomes insulting, threatening or aggressive. The Pub Manager is then able to act to prevent this behaviour escalating into violence. If such disorderly behaviour does occur on our premises the pub management team will take immediate action to diffuse the situation. If the disorderly individual refuses to leave the premises then, if necessary, the police will be called to assist in the ejection.

1.6.4 Details of disorderly customers are circulated to other licensed venues via the PubWatch or similar local intelligence systems. We will always support 'Banned from One - Banned from All' initiatives which ensure that a consistent approach is taken by licensed premises to refuse entry to anyone who has been included on the PUBWatch 'banned list'.

#### 1.7 Zero Tolerance to Drug Use

1.7.1 J D Wetherspoon operates a zero tolerance policy towards drug use and we will take whatever measures are necessary to ensure this policy is being actively promoted. In particular, we co-operate with the police to ensure that

wherever a risk has been identified customers are searched upon entry and where illegal substances are found, they are confiscated and given to the police at the earliest opportunity.

8

Section 1 - Prevention of Crime and Disorder

1.7.2 Where a search policy is in place we make every effort to ensure that customers are aware that this is a voluntary procedure and that they have the right to decline this 'condition of entry'. If a customer does decline and our door staff or employees remain concerned that the person is in possession of illegal substances they will make every effort to notify the police of these concerns so that a police search can be considered.

1.7.3 Employees are expected to be extra vigilant to prevent drug use occurring and all receive specific training on how to deal with such issues should they arise. Our Pub Managers will always welcome any additional site specific training that local police wish to offer that may be particularly relevant to their locality.

1.7.4 Toilet checks are carried out by employees at frequent intervals during peak trading times and they are carried out at least once every hour during all other trading hours. These checks help ensure that no illegal activities take place in these areas.

1.8 **CCTV**

1.8.1 CCTV is provided throughout our premises. It has proved to be an active deterrent for anti-social behaviour and we are committed to continuing its provision. All new premises are fitted with digital equipment and the camera locations are selected in conjunction with the local police Crime Prevention Officer whenever possible.

1.8.2 We are committed to training adequate numbers of employees in each pub in the use of the CCTV system so that immediately following an incident a trained member of staff is always available to replay footage, download material or provide a VHS tape where the CCTV is recorded on an analogue system. This material will always be made available to the statutory authorities without delay.

1.8.3 All CCTV footage will be retained for a period of at least 30 days.

9

Section 1 - Prevention of Crime and Disorder

1.9 **Door Staff**

1.9.1 The vast majority of our premises operate successfully without the need for door supervisors. We continually 'risk assess' the need to provide door supervision and are willing to follow any reasonable recommendations of the police to engage door supervisors where that is deemed necessary.

1.9.2 Where door staff are engaged they work in accordance with our policies and procedures under the control of a Head Door Supervisor. Their primary function is to ensure that the points of exit and entry and outside areas remain under supervision while also monitoring the interior of the premises to maintain a safe and relaxing environment for customers and employees alike. We would always expect door staff to meet the high standards of service and behaviour that we would expect from our own staff. We expect them to give customers confidence in their ability (and our ability) to create a safer environment. We expect that they can control and handle themselves in an appropriate manner in any situation where customers are rude, aggressive, violent and know how, when deemed necessary, to use proportionate force in controlling a situation. We ensure that all door supervisors are registered and in possession of an SIA badge and refuse to allow any unbadged door supervisor to work on our premises.

1.10 **Toughened Glassware & Polycarbonates**

1.10.1 J O Wetherspoon is 100% committed to working with the police to improve industry standards for customer safety in licensed premises and in particular reduce the risk of 'glassing' incidents.

1.10.2 We strive to eradicate glass-related incidents in our pubs through strong front-of-house management, staff training, effective door and customer management policies, regular glass collection, well-maintained premises and the use of toughened glass. Wherever possible the glassware used in our pubs is toughened glass. Due to the methods employed in the manufacture of toughened glass the glass, if broken, tends to break into very small pieces thereby reducing the possibility of it being used as a weapon. Our employees are trained to ensure that when customers leave our premises they do not leave taking glassware or bottles with them. Our employees are also tasked to ensure empty drinking vessels are cleared away in a timely fashion so as to reduce the risk of breakages and their use as weapons. Most importantly, however, J O Wetherspoon, unlike the vast majority of pub companies, has an extensive food offer which is available to customers throughout trading hours from 0900 hours to 2200 hours, 7 days a week. The result of this is that our pubs attract a much broader range of age groups and types of clientele

than many of our competitors, We consider that this is a significant factor in reducing the potential for poor behaviour and glass-related violence,

10

## Section 1 - Prevention of Crime and Disorder

1.10.3 We will always consider whether polycarbonates should be introduced on a premises-by-premises basis. When problems have been identified with a particular pub or a Town Centre then we accept that this approach may assist to address the problems at specific licensed premises. Similarly, there may be specific occasions when a temporary use of polycarbonates is appropriate, for example, on match days in premises that are situated close to major football grounds. The issue of whether we are willing to adopt polycarbonates involves a very delicate balancing exercise between our desire to work with the police to eradicate glass-related violence, the need to promote customer and staff safety whilst at the same time accommodating and respecting the expectations of our customers.

### 1.11 PubWatch and Best Bar None

1.11.1 J D Wetherspoon is a member of the National PubWatch organisation and a senior representative of J D Wetherspoon sits on the National PubWatch committee. We are one of the few pub companies that are involved in this organisation at a national level. National PubWatch is an entirely voluntary organisation that is set up to support local PubWatch schemes and encourages the creation of new schemes. The National PubWatch organisation has the key aims of achieving a safe, secure and responsible social drinking environment in all licensed premises throughout the United Kingdom and helping to reduce alcohol-related crime.

1.11.2 Our Pub Managers are expected to take an active role in their local PubWatch scheme. We will support the establishment of a local PubWatch where one is not already in existence. The type of support we can provide includes providing expertise on how to set up a local PubWatch scheme and/or PubWatch online, offering our premises as venues in which PubWatch meetings can be held and chairing those meetings.

1.11.3 We always support initiatives introduced by local PubWatch schemes to reduce crime and disorder in town centres. For example, many of our premises operate the 'Banned from One - Banned from All' initiative and subscribe to the Radio-Link scheme which provides radio contact with other licensed operators and with the town centre CCTV operators.

1.11.4 We provide national support for the Best Bar None Award scheme. The UKwide scheme, which is backed by the Home Office, was piloted in Manchester in 2003 and has since been adopted by over thirty other towns and cities with great success. Best Bar None aims to promote the responsible management and operation of alcohol-licensed premises with the ultimate intention of offering and maintaining a safer, more welcoming, attractive and lively drinking experience. The scheme encourages local operators to act responsibly and take pride in their premises and surroundings and, in so doing, put something back into the town and the local community. Wetherspoon pubs have won numerous awards throughout the UK in the Best Bar None Awards scheme.

11

## Section 2 - Prevention of Crime and Disorder

### 1.12 Drinkaware

1.12.1 J D Wetherspoon is one of only four pub companies in the UK who was a founding supporter of the Drinkaware Trust ('the Trust'). We fully support their strategic aims and hope to raise their profile and highlight their valuable work by communicating their sensible drinking messages within our pubs,

1.12.2 We actively promote the Trust by including a reference to their website [www.drinkaware.co.uk](http://www.drinkaware.co.uk) on most of our 'alcohol-related' point-of-sale and marketing materials. Their website is recognised as the leading public source of information on sensible drinking behaviour. A link to their website is provided on our own company website. The website is also advertised on our table-talker/drinks list, our front-of-house posters and all single-issue flyers/mail-drops/vouchers. The website is advertised on any promotional materials for our bi-annual beer and wine festivals. The link features routinely in the header of the 'responsible drinking' section of Wetherspoon News. We offer the Trust a free page to communicate sensible drinking messages in every edition of Wetherspoon News,

1.12.3 We are continually working with the Trust to update our own sensible drinking messages and develop marketing material which can be used in our pubs to reinforce this message. We are pleased to be actively supporting the Trust to achieve their key objective, namely, change the United Kingdom's drinking culture in order to help reduce alcohol misuse and alcohol-related harms,

## 2 Maintaining Public Safety

### 2.1 High Quality Design

2.1.1 J O Wetherspoon works closely with Planning Officers, Listed Building Specialists and where appropriate, English Heritage to ensure that each new pub is designed and built to the highest specification. We aim to provide comfortable, efficient and ergonomic dining facilities and accessible customer areas suitable for all types of customer.

2.1.2 Customer areas are designed aesthetically and surfaces are carefully chosen to ensure safety. The majority of our premises are large in size and this allows us to provide ample seating space which in turn prevents overcrowding and creates a safer and more welcoming atmosphere. All floor coverings are assessed for suitability and are slip resistant so as to minimise slips and trips. The sanitary accommodation consists of ceramic tiles and either quarry tile flooring or non-slip flooring similar to the kitchen and behind the bar. Again, consideration is given to maximising slip resistance when choosing flooring.

### 2.2 Disabled Facilities

2.2.1 We are fully aware of our obligations in respect of accessibility for disabled persons and we aim to make all new developments as accessible to everyone as is possible within the constraints of the building.

2.2.2 J O Wetherspoon is highly respected by consumer and enforcement bodies interested in the provision of services and facilities for those with disabilities. Significant emphasis is placed on designing premises which will provide easy access to toilet facilities and also lifts for customers with disabilities where they are required.

2.2.3 All new buildings will meet the requirements of Part M of the Building Regulations 2002.

### 2.3 Electrical and Gas Safety

2.3.1 All electrical systems are installed in accordance with Part P Building Regulations and are under the supervision of the Electrical Services Consultant. The Company follows good electrical practice guidance and ensures that all equipment is maintained in a safe condition in accordance with the Electricity at Work Regulations 1989.

2.3.2 All gas appliances are installed by CORGI registered engineers and thereafter maintained within the planned maintenance scheme.

2.3.3 Electrical safety procedures form part of the overall health and safety management system.

13

## Section 2 - Maintaining Public Safety

### 2.4 Health and Safety

2.4.1 All management staff and Associates are trained in basic health and safety to a level commensurate with their job responsibilities.

2.4.2 A Safety Policy Statement is displayed on the staff notice board or in the staff room of every pub and detailed procedures in respect of safe working practices etc are contained in the written Safety Policy Manual.

2.4.3 Regular audits of all our pubs are carried out by senior managers and by independent consultants. These audits are often unannounced and are made throughout the entire estate.

2.4.4 An extensive accident and incident reporting and monitoring system is in place, with all accidents / incidents being reported to our independent health and safety consultants. Monthly records of types of accidents are collated using computer software. Accidents are investigated where necessary and RIDDOR reporting is undertaken.

### 2.5 Fire Safety

2.5.1 All Wetherspoon premises comply with the terms of the Regulatory Reform (Fire Safety) Order. We engage independent consultants to conduct regular fire risk assessments focusing on the safety of all relevant persons in situations of fire. We identify and define the nature and extent of both the fire precautions that must be put in place to protect against fire and the inherent risks that remain, and take steps to remove or reduce those risks where appropriate.

2.5.2 All employees are trained in basic fire safety and regular refresher training is undertaken. Daily, weekly and monthly logs of fire safety checks are kept and all fire protection / precaution systems are regularly maintained.

## Section 3 - Prevention of Public Nuisance

## 3 Prevention of Public Nuisance

### 3.1 Dispersal Policy

3.1.1 J D Wetherspoon operates a dispersal policy designed to minimise the negative impact of our premises on their locality. A key element of encouraging customers who are leaving our pubs to behave in a responsible fashion is ensuring that they are well-managed whilst on the premises. We

set out previously the measures that we adopt to ensure customers are well managed on our premises.

3.1.2 We accept that our responsibilities cannot simply end at our front door and that, by contributing to a better managed pubs at the end of the night, we can help deliver a

1.2.4 1.2.5 **Overview** J D Wetherspoon began trading in 1979. Over time we have developed a sophisticated range of practices and procedures aimed at providing a safe and convivial environment in which the public may enjoy the wide range of facilities which we offer. The procedures that we have put in place are subject to constant review and improvement and are the result of careful consideration by our experienced team of directors, managers and professional advisors. Overall, our aim is to provide a distinctive kind of pub which attracts a broad range of customers. We aim to create the congenial atmosphere of the traditional pub combined with features found in modern cafes, restaurants and bars. We successfully achieve this through a combination of high-quality design, good management and the provision of an all-day menu and a range of quality products. J D Wetherspoon was the first company to develop a Code of Conduct for Responsible Retailing. This Code sets out the operational procedures that we as a company have put in place to ensure we are actively promoting the four licensing objectives; Prevention of Crime and Disorder, Prevention of Public Safety, Prevention of Public Nuisance and Protection of Children from Harm. At all times we operate to ensure that our commercial imperatives do not override the core values set out in the Code. The first edition of the Code was developed in April 2004 as a result of our experience in dealing with different local authorities, police forces and various other statutory bodies at the time of licensing reform. The Code formed an integral part of all applications that we submitted to convert and vary licenses prior to the introduction of the new licensing regime. Today we continue to offer a commitment to the principles set out in the Code with each and every application for a new premises licence. The Code is divided into four sections, one for each of the four licensing objectives, with specific practices and procedures identified under the relevant objective. There is however, considerable overlap between our practices and the objectives so that some of our procedures simultaneously address more than one of the objectives. For example, our staff training procedures address **all** four objectives and our CCTV policy meets both the crime prevention and the prevention of public nuisance objectives. Our approach has always been to work closely with the statutory authorities and with local residents to ensure that the licensing objectives are being actively promoted. We appreciate that the success of the licensing regime depends on the continuation of strong partnerships between the licensed trade, responsible authorities and interested parties. We are always sensitive to concerns raised by interested parties or responsible authorities in response to our applications for new licences. We are always willing to modify our applications to address those concerns when that is deemed

necessary. **1 Prevention of Crime and Disorder 1.1 Food** At J D Wetherspoon the provision of good quality food at reasonable prices is at the core of our business. A full menu is available in our premises from opening until 10pm, 7 days of the week. Food has become an increasingly important element of our operation in recent years and in particular since the introduction of the smoking ban in England and Wales in 2007. Our experience is that a smoke-free pub provides a much more conducive atmosphere in which to eat, especially for families with children. As a consequence, in the past few years we have seen our food sales increase significantly. Food currently amounts to 29% of the total sales across the estate. In a number of our pubs a figure of 50% and higher is achieved. Including bar purchases made in association with table meals, diners now account for approximately two-thirds of sales. The majority of our pubs open from 8:00am or 9:00am to cater for customers who want to join us for breakfast. We pioneered the availability of breakfasts across all our pubs. We now sell approximately 250,000 breakfasts per week. In a similar vein, we now sell over 400,000 cups of Lavazza coffee every week. Our coffee sales now approximately match those of Caffe Nero in volume and are about a quarter of Starbucks. We believe that we now have approximately 6 per cent of the United Kingdom 'chain' coffee market. Our Curry Club, Grill Night and Sunday Club are a key offer available in all of our pubs. These promotions are typical of our approach to responsible drinks retailing where we link drinks promotions with the sale of affordable food. For example, during Curry Club customers are offered a drink inclusive with their meal and can choose from a pint of lager, bitter, Guinness or cider, a bottled lager, a glass of wine, a single gin or vodka and tonic, or they can choose a coffee or tea, a bottle of water or a non alcoholic soft drink such as Pepsi or J20. We always use high quality ingredients and increasingly offer regional dishes and locally sourced products. We also take great care to ensure that artificial ingredients are avoided wherever possible. For example we use free range eggs, cod from sustainable stocks, the beef in our burgers is 100% British and cooking oils without trans-fats. Our award winning children's menu is available throughout our trading hours. A number of our children's meals use only organic ingredients. We have no preservatives or sugar or artificial colours or flavours in any of the meals in the children's menu. All of our children's meals come with a bag of fresh fruit as well as milk, orange juice or water as the drink options. We provide nutritional information about the meals offered on the children's menu to help parents make informed decisions about what their children are eating.

**1.2 Responsible Drinks Retailing** J D Wetherspoon takes the issue of responsible drinks retailing extremely seriously. We understand that we are in the business of selling alcohol and we cannot therefore take the moral high ground, but we strive to operate our pubs in such a way that we create a safe and convivial atmosphere which encourages people to behave well. We closely work with the statutory authorities to ensure that any initiatives designed to achieve these goals are fully supported by our local operators. We are continually looking for new ways to ensure that the facilities and promotions offered in our pubs do not encourage the excessive consumption of alcohol and unruly behaviour that often goes with it. The provision of food throughout our trading hours is a vital component of our approach to responsible drinks retailing. The consumption of food both before and during the consumption of alcohol is widely recognised to slow down its absorption into the blood stream. We encourage adults to drink in moderation and to enjoy alcoholic beverages in a sensible manner, preferably around mealtimes. We do not engage in irresponsible drinks promotions. We do not offer 'all inclusive' promotions where our customers can drink unlimited amounts for a set fee. Neither do we offer promotions that entice customers with free alcoholic drinks such as buy-one-get-one-free promotions. The majority of our drinks promotions form part of our food promotions. Our practices and procedures are frequently held-up by the police and local authorities as 'best practice' for others to follow. We sell a wide range of soft drinks, fruit juices and coffee. We ensure that low-alcohol and non-alcoholic beverages are prominently advertised in our 'table talker' menus. Where drinks are promoted we always offer a range of drinks including ones of different alcoholic strengths, soft drinks and coffee. We concentrate on the provision of cask conditioned beers - selling more than any other pub company. Throughout the year we run regional festivals showcasing the very best ales from local microbrewers as well as larger provincial brewers. The vast majority of our premises are accredited by Cask Marque for the quality of their ales. Real ale typically attracts a broader, often older, cross-section of customers. This broad customer base creates an atmosphere within our pubs that we believe leads to better behaved customers.

1.2.6 We are the only pub company in the United Kingdom to produce a comprehensive, bi-monthly customer magazine - Wetherspoon News. The print run per issue is 250,000 however there is an estimated readership of 1,000,000 (4 readers per copy). Wetherspoon News is distributed nationally throughout all Wetherspoon pubs, Lloyds N01 bars, Wetherspoon Lodges and the company's head office. It is provided free-of-charge to customers. Wetherspoon News is an invaluable method of communicating responsible retailing messages to our customers. We also devote a large proportion of this publication to recognise and highlight our staff who have worked hard to promote responsible retailing and sensible drinking messages in their pubs.

Section 1 " Prevention of Crime and Disorder . --- .- - - -

1,2,7 We recognise the importance of informing customers about the alcoholic strength of products and unit measurements, We always try to source alcoholic products (wine, RTDs, bottled lagers and beers) that prominently advertise both the alcohol-by-volume ('ABV') content and units as a part of their packaging, All of our table talker/drinks lists record the ABV content for draught ales, lagers, spirits & bottled beers & ciders, Unit measurements for all alcoholic products are available through our website,

1,2,8 We adopt a socially responsible approach to marketing, We place our responsible retailing messages in prominent positions in public areas to ensure that our customers are kept well-Informed about our commitment to

these practices, The majority of our drinks promotions form part of food promotions such as our Curry Club or Grill Night where customers are offered a drink inclusive with the meal offer, We ensure that low-alcohol and nonalcoholic beverages are prominently advertised in our table talker/drinks lists, Where drinks are promoted we always offer a range of drinks including ones of different alcoholic strengths, soft drinks and coffee,

### **1.3 Price Structure**

1.3.1 J D Wetherspoon offers reasonable prices across the full range of products on offer to our customers and not just on alcoholic drinks, This approach has been always been an *attractive* part of our offer from the customer point of view, In our view customer behaviour is primarily influenced by strong management, highly trained staff, and a robust approach to responsible drinks retailing rather than the pricing of alcoholic products,

1.3.2 The Office of Fair Trading has consistently stated that price fixing or minimum pricing is prohibited under United Kingdom and European Competition Law. Accordingly, we do not adopt a minimum pricing policy in our pubs, We continually review the pricing structure of our alcoholic and non-alcoholic products to ensure that we are encouraging sensible drinking at all times,

1.3.3 Our approach to the sale of alcohol is to concentrate on the range and quality of the products on offer rather than to use price as an incentive, Our approach has been both welcomed and supported by the police and other statutory authorities around the United Kingdom, In 2005 we won the national 'Responsible Drinks Retailer - Pub Chain Company' award organised by the Morning Advertiser and supported by the Home Office and were short listed for the same award in 2006,

### **1.4 Highly Trained Staff**

1.4.1 At J D Wetherspoon there is a very strong culture of thorough induction training and on-going refresher training. Training is provided for all employees regardless of their role, their age or their hours of work. It is widely recognised that the level and quality of staff training is a significant factor in controlling the behaviour of customers on licensed premises. Our employees are extensively trained on their obligations under licensing law.

1.4.2 Our training systems have been consistently praised by employees and by the industry. We have won many awards including the Supreme Training Award from the British Institute of Innkeeping ('BII') for two consecutive years. We have also won the National Innkeeping Training awards for Best Catering Training, Best Training in Managed Estates and in 2007 the Best Training Scheme by Institutions of Further and Higher Education in Partnership within the Licensed Retail Industry.

1.4.3 Training of our management personnel is conducted on a modular basis with continuing assessment throughout their employment period. Bar staff training is primarily carried out on site by management personnel.

1.4.4 An essential element in having a well trained staff is our ability to retain our employees. Turnover of Pub Managers is around 12% which is less than half the industry average. Moreover, 75% of all management employees began with J D Wetherspoon as hourly paid employees and, typically, anyone appointed to run one of our pubs for the first time is likely to have been employed by the Company for at least 5 years.

1.4.5 The quality of our training, recruitment and employment practices have been recognised by J D Wetherspoon being included in "Britain's Top Employers" for 5 consecutive years.

### **1.5 Management Structure**

1.5.1 Our management structure is designed to ensure that we encourage responsible behaviour on our premises. Our pubs each have an average of five managers and the majority of these hold personal licence qualifications or are working towards them. There is always at least one manager (often more) on duty in every pub throughout trading hours and at peak times there will be a designated manager supervising the bar and 'walking the floor'.

1.5.2 Pub Managers have the support of their Area Manager who in turn reports to a General Manager. The Operations Director maintains regular contact with management at all levels. This management structure ensures that if any employee has any question or requires further support they can immediately ask for assistance from their management team. Area Managers look after an average of only 12 pubs each which is a low number of pubs in comparison to regional managers in competitor pub companies.

---

### **1.6 Preventing Drunkenness and Disorderly Behaviour**

1.6.1 In recent years we have taken numerous positive steps to ensure that the facilities and promotions offered in our pubs do not encourage the excessive consumption of alcohol. All of our employees are provided with intensive induction and refresher training on our Don't Do Drunk policy. This policy is designed to ensure that alcohol is not served to anyone who appears to be drunk or to anyone who is trying to purchase alcohol on their behalf. Our employees are trained to continually assess the state of sobriety of any customer purchasing alcoholic drinks or consuming alcohol within the premises. As part of this training we reassure our employees that if they ever feel uncomfortable dealing with a situation then they must notify the Pub Manager and ask for their assistance. Our management teams are asked to support the decision of any employee not to serve a customer who appears to be drunk or disorderly.

1.6.2 We monitor the effectiveness of this training by reviewing the use of the 'Refusal' button on the EPOS till system (pressed whenever a customer is refused alcohol) and from feedback given by enforcement authorities, customers and Company representatives. Adherence to our Don't Do Drunk policy is closely monitored through regular inspections of all pubs at any time during trading hours. These visits are completed by senior J D Wetherspoon managers and also by a body of independent professional advisers. There are specific questions on the visit report form regarding the perceived presence of drunk and disorderly customers on the premises and all employees participate in a monthly bonus scheme which is directly linked to the results of these visits.

1.6.3 All employees are trained to immediately notify the Pub Manager if any customer becomes insulting, threatening or aggressive. The Pub Manager is then able to act to prevent this behaviour escalating into violence. If such disorderly behaviour does occur on our premises the pub management team will take immediate action to diffuse the situation. If the disorderly individual refuses to leave the premises then, if necessary, the police will be called to assist in the ejection.

1.6.4 Details of disorderly customers are circulated to other licensed venues via the PubWatch or similar local intelligence systems. We will always support 'Banned from One - Banned from All' initiatives which ensure that a consistent approach is taken by licensed premises to refuse entry to anyone who has been included on the PubWatch 'banned list'.

## 1.7 Zero Tolerance to Drug Use

1.7.1 J D Wetherspoon operates a zero tolerance policy towards drug use and we will take whatever measures are necessary to ensure this policy is being actively promoted. In particular, we co-operate with the police to ensure that wherever a risk has been identified customers are searched upon entry and where illegal substances are found, they are confiscated and given to the police at the earliest opportunity.

1.7.2 Where a search policy is in place we make every effort to ensure that customers are aware that this is a voluntary procedure and that they have the right to decline this 'condition of entry'. If a customer does decline and our door staff or employees remain concerned that the person is in possession of illegal substances they will make every effort to notify the police of these concerns so that a police search can be considered.

1.7.3 Employees are expected to be extra vigilant to prevent drug use occurring and all receive specific training on how to deal with such issues should they arise. Our Pub Managers will always welcome any additional site specific training that local police wish to offer that may be particularly relevant to their locality.

1.7.4 Toilet checks are carried out by employees at frequent intervals during peak trading times and they are carried out at least once every hour during all other trading hours. These checks help ensure that no illegal activities take place in these areas.

## 1.8 CCTV

1.8.1 CCTV is provided throughout our premises. It has proved to be an active deterrent for anti-social behaviour and we are committed to continuing its provision. All new premises are fitted with digital equipment and the camera locations are selected in conjunction with the local police Crime Prevention Officer whenever possible.

1.8.2 We are committed to training adequate numbers of employees in each pub in the use of the CCTV system so that immediately following an incident a trained member of staff is always available to replay footage, download material or provide a VHS tape where the CCTV is recorded on an analogue

system, This material will always be made available to the statutory authorities without delay,

1,8,3 All CCTV footage will be retained for a period of at least 30 days,

### **1,9 Door Staff**

1,9,1 The vast majority of our premises operate successfully without the need for door supervisors, We continually 'risk assess' the need to provide door supervision and are willing to follow any reasonable recommendations of the police to engage door supervisors where that is deemed necessary,

1,9,2 Where door staff are engaged they work in accordance with our policies and procedures under the control of a Head Door Supervisor. Their primary function is to ensure that the points of exit and entry and outside areas remain under supervision while also monitoring the interior of the premises to maintain a safe and relaxing environment for customers and employees alike, We would always expect door staff to meet the high standards of service and behaviour that we would expect from our own staff. We expect them to give customers confidence in their ability (and our ability) to create a safer environment We expect that they can control and handle themselves in an appropriate manner in any situation where customers are rude, aggressive, violent and know how, when deemed necessary, to use proportionate force in controlling a situation, We ensure that all door supervisors are registered and in possession of an SIA badge and refuse to allow any unbadged door supervisor to work on our premises,

### **1.10 Toughened Glassware & Polycarbonates**

1,10,1 J D Wetherspoon is 100% committed to working with the police to improve industry standards for customer safety in licensed premises and in particular reduce the risk of 'glassing' incidents,

1,10.2 We strive to eradicate glass-related incidents in our pubs through strong front-of-house management, staff training, effective door and customer management policies, regular glass collection, well-maintained premises and the use of toughened glass, Wherever possible the glassware used in our pubs is toughened glass, Due to the methods employed in the manufacture of toughened glass the glass, if broken, tends to break into very small pieces thereby reducing the possibility of it being used as a weapon, Our employees are trained to ensure that when customers leave our premises they do not leave taking glassware or bottles with them, Our employees are also tasked to ensure empty drinking vessels are cleared away in a timely fashion so as to reduce the risk of breakages and their use as weapons, Most importantly, however, J D Wetherspoon, unlike the vast majority of pub companies, has an extensive food offer which is available to customers throughout trading hours from 0900 hours to 2200 hours, 7 days a week, The result of this is that our pubs attract a much broader range of age groups and types of clientele than many of our competitors, We consider that this is a significant factor in reducing the potential for poor behaviour and glass-related violence,

10.3 We will always consider whether polycarbonates should be introduced on a premises-by-premises basis. When problems have been identified with a particular pub or a Town Centre then we accept that this approach may assist to address the problems at specific licensed premises. Similarly, there may be specific occasions when a temporary use of polycarbonates is appropriate, for example, on match days in premises that are situated close to major football grounds. The issue of whether we are willing to adopt polycarbonates involves a very delicate balancing exercise between our desire to work with the police to eradicate glass-related violence, the need to promote customer and staff safety whilst at the same time accommodating and respecting the expectations of our customers.

### **1.11 PubWatch and Best Bar None**

1.11.1 J D Wetherspoon is a member of the National PubWatch organisation and a senior representative of J D Wetherspoon sits on the National PubWatch committee. We are one of the few pub companies that are involved in this organisation at a national level. National PubWatch is an entirely voluntary organisation that 'IS set up to support local PubWatch schemes and encourages the creation of new schemes. The National PubWatch organisation has the key aims of achieving a safe, secure and responsible social drinking environment in all licensed premises throughout the United Kingdom and helping to reduce alcohol-related crime .

1.11.2 Our Pub Managers are expected to take an active role in their local PubWatch scheme. We **will** support the establishment of a local PubWatch where one is not already in existence. The type of support we can provide includes providing expertise on how to set up a local PubWatch scheme and/or PubWatch online, offering our premises as venues in which PubWatch

meetings can be held and chairing those meetings.

1.11.3 We always support initiatives introduced by local PubWatch schemes to reduce crime and disorder in town centres. For example, many of our premises operate the 'Banned from One - Banned from All' initiative and subscribe to the Radio-Link scheme which provides radio contact with other licensed operators and with the town centre CCTV operators .

11.4 We provide national support for the Best Bar None Award scheme . The UK wide scheme, which is backed by the Home Office, was piloted in Manchester in 2003 and has since been adopted by over thirty other towns and cities with great success. Best Bar None aims to promote the responsible management and operation of alcohol-licensed premises with the ultimate intention of offering and maintaining a safer, more welcoming, attractive and lively drinking experience. The scheme encourages local operators to act responsibly and take pride in their premises and surroundings and, in so doing, put something back into the town and the local community. Wetherspoon pubs have won numerous awards throughout the UK in the Best Bar None Awards scheme.

## **1.12 Drinkaware**

1.12.1 J D Wetherspoon is one of only four pub companies in the UK who was a founding supporter of the Drinkaware Trust ('the Trust'), We fully support their strategic aims and hope to raise their profile and highlight their valuable work by communicating their sensible drinking messages w'rthin our pubs,

1,12.2 We actively promote the Trust by including a reference to their website [www.drinkaware.co.uk](http://www.drinkaware.co.uk) on most of our 'alcohol-related' point-of-sale and marketing materials, Their website is recognised as the leading public source of information on sensible drinking behaviour, A link to their website is provided on our own company website, The website is also advertised on our table-talker/drinks list, our front-of-house posters and all single-issue flyers/mail-drops/vouchers, The website is advertised on any promotional materials for our bi-annual beer and wine festivals, The link features routinely in the header of the 'responsible drinking' section of Wetherspoon News, We offer the Trust a free page to communicate sensible drinking messages in every edition of Wetherspoon News,

12,3 We are continually working with the Trust to update our own sensible drinking messages and develop marketing material which can be used in our pubs to reinforce this message, We are pleased to be actively supporting the Trust to achieve their key objective, namely, change the United Kingdom's drinking culture in order to help reduce alcohol misuse and alcohol-related harms,

## **2 Maintaining Public Safety**

### **2.1 High Quality Design**

2.1.1 J D Wetherspoon works closely with Planning Officers, Listed Building Specialists and where appropriate, English Heritage to ensure that each new pub is designed and built to the highest specification. We aim to provide comfortable, efficient and ergonomic dining facilities and accessible customer areas suitable for all types of customer.

2.1.2 Customer areas are designed aesthetically and surfaces are carefully chosen to ensure safety. The majority of our premises are large in size and this allows us to provide ample seating space which in turn prevents overcrowding and creates a safer and more welcoming atmosphere. All floor coverings are assessed for suitability and are slip resistant so as to minimise slips and trips. The sanitary accommodation consists of ceramic tiles and either quarry tile flooring or non-slip flooring similar to the kitchen and behind the bar. Again, consideration is given to maximising slip resistance when choosing flooring.

### **2.2 Disabled Facilities**

2.2.1 We are fully aware of our obligations in respect of accessibility for disabled persons and we aim to make all new developments as accessible to everyone as is possible within the constraints of the building.

2.2.2 J D Wetherspoon is highly respected by consumer and enforcement bodies interested in the provision of services and facilities for those with disabilities. Significant emphasis is placed on designing premises which will provide easy access to toilet facilities and also lifts for customers with disabilities where they are required.

2.2.3 All new buildings will meet the requirements of Part M of the Building Regulations 2002.

### **2.3 Electrical and Gas Safety**

2.3.1 All electrical systems are installed in accordance with Part P Building Regulations and are under the supervision of the Electrical Services Consultant. The Company follows good electrical practice guidance and

ensures that all equipment is maintained in a safe condition in accordance with the Electricity at Work Regulations 1989.

2.3.2 All gas appliances are installed by CORGI registered engineers and thereafter maintained within the planned maintenance scheme.

2.3.3 Electrical safety procedures form part of the overall health and safety management system.

## **2.4 Health and Safety**

2.4.1 All management staff and Associates are trained in basic health and safety to a level commensurate with their job responsibilities.

2.4.2 A Safety Policy Statement is displayed on the staff notice board or in the staff room of every pub and detailed procedures in respect of safe working practices etc are contained in the written Safety Policy Manual.

2.4.3 Regular audits of all our pubs are carried out by senior managers and by independent consultants. These audits are often unannounced and are made throughout the entire estate.

2.4.4 An extensive accident and incident reporting and monitoring system is in place, with all accidents / incidents being reported to our independent health and safety consultants. Monthly records of types of accidents are collated using computer software. Accidents are investigated where necessary and RIDDOR reporting is undertaken.

## **2.5 Fire Safety**

2.5.1 All Wetherspoon premises comply with the terms of the Regulatory Reform (Fire Safety) Order. We engage independent consultants to conduct regular fire risk assessments focusing on the safety of all relevant persons in situations of fire. We identify and define the nature and extent of both the fire precautions that must be put in place to protect against fire and the inherent risks that remain, and take steps to remove or reduce those risks where appropriate.

2.5.2 All employees are trained in basic fire safety and regular refresher training is undertaken. Daily, weekly and monthly log fire safety checks are kept and all fire protection / precaution systems are regularly maintained.

#### **Licence Objective Notes (if any)**

### **a) General - all four licensing objectives (b, c, d, e)**

We will provide staff with adequate training.

We will have HACCP records (HACCP is hazard analysis and critical control points - risk assessment training would be a more suitable for alcohol - HACCP relates to food production).

### **b) The prevention of crime and disorder**

#### Staff Training

Staff will be trained regarding appropriate precautions to prevent the sale of alcohol to persons under the age of 18, the signs and symptoms of drunk persons and the refusal of sale due to intoxication. Records will be kept of such training which must be signed and dated by the member of staff who has received that training.

All staff will receive refresher training every six months as a minimum and that records are to be kept of this refresher training which should be signed and dated by the member of staff who received that training.

All training records will be made immediately available for inspection by Hampshire Constabulary and the Licensing Authority upon request. Training records will be kept for a minimum period of two years. Training records will be kept on the licensed premises to which they relate to.

#### Challenge 25

There will be a Challenge 25 policy operating at the premises. Challenge 25 means that the holder of the premises licence shall ensure that every individual, who visually appears to be under 25 years of age and is seeking to purchase or be supplied with alcohol at the premises or from the premises, shall produce identification proving that individual to be 18 years of age or older.

Acceptable identification for the purposes of age verification will include a driving licence, passport or photographic identification bearing the "PASS" logo and the persons date of birth.

If the person seeking alcohol is unable to produce acceptable means of identification, no sale or supply of alcohol will be made to or for that person.

#### Incident Book

An incident book will be provided and maintained at the premises. It will remain on the premises at all times and will be available to police for inspection upon request.

Any incidents that include physical altercation or disorder, physical ejection, injury, ID seizure or drug misuse will be recorded in the incident book. The entry is to include an account of the incident and the identity of all person(s) involved (or descriptions of those involved if identity is not known). Should there be any physical interaction by members of staff and the public the entry will include what physical action occurred between each party. The entry shall be timed, dated and signed by the author.

If the member of staff creating the entry has difficulties reading or writing then the entry may be written by another staff member. This should however be read back to the person creating the entry and counter signed by the person who wrote the entry.

At the close of business on each day the incident book will be checked by the manager on duty where any entries will be reviewed and signed. If incidents have occurred the duty manager will de-brief door staff at the close of business. Should there be no incidents then this will also be recorded at the close of business in the incident book.

#### Refusals Book

A refusals book will be kept and maintained at the premises and will be available for police inspection upon request. All refusals for the sale of alcohol and the reasons for refusal should be recorded. Any age challenge or identification seizures should also be recorded.

### **c) Public safety**

All doorways and passages will be kept clear of trip hazards. Fire escapes will be clearly marked and accessible.

### **d) The prevention of public nuisance**

The placing of refuse, such as bottles into receptacles outside the premises will not take place before 9am or after 7pm so not to disturb nearby neighbours.

Deliveries of stock will also be scheduled within these hours wherever possible.

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

The business promotes high quality products and is marketed and distributed on a web based business so keeps alcohol away from minors and is delivered in such a way as to prevent crime and disorder (i.e. not late night premises).

**b) The prevention of crime and disorder**

No cheap alcohol is sold and all wine is delivered to customer's home minimising risk of drinking in public places. All but small quantities are held in bonded warehouse in east London.

**c) Public safety**

Business structure minimises risk of public's safety with no physical visits to premises and all wine stored in specific facilities (London city bond) - NB small stocks held at the licence address only.

**d) The prevention of public nuisance**

No physical "shop front" as it is a web based business. Therefore no local nuisance effect in the vicinity of the premises for which this application relates.

**e) The protection of children from harm**

Alcohol is marketed to niche market at higher price point with no physical shop front so risk to children minimised. The website has a very educational angle marketing our products in a genuine way (i.e. not modern marketing where cheap alcohol is sold as "cool").

**Plan of Premises**

Plan/Drawing No: 001

Date of Plan: June & July 2009 - Plan approved 21/09/2012

**Licence Objective Notes (if any)**

### **a) General - all four licensing objectives (b, c, d, e)**

Sopley Parish Hall Management Committee run a programme of social functions for the benefit of the members of Sopley Parish. They raise funds for the restoration and extension of Sopley Parish Hall for the benefit of the Community.

### **b) The prevention of crime and disorder**

Sopley Parish Hall Management Committee run family events and anticipate that this will reduce the attraction for crime and disorder. However, all steps necessary will be taken to prevent the disorderly minority from spoiling any event for others. Stewards monitor for anti-social behaviour and will, if necessary, restrict access to unwanted elements. Excessive drinking will neither be allowed or tolerated.

#### Incident Book

An incident book will be provided and maintained at the premises. It will remain on the premises at all times and will be available to police for inspection upon request.

Any incidents that include physical altercation or disorder, physical ejection, injury, id seizure or drug misuse will be recorded in the incident book. The entry is to include an account of the incident and the identity of all person(s) involved (or descriptions of those involved if identity not known). Should there be any physical interaction by members of staff and the public the entry will include what physical action occurred between each party. The entry shall be timed, dated and signed by the author.

If the member of staff creating the entry has difficulties reading or writing then the entry may be written by another staff member. This should however be read back to the person creating the entry and countersigned by the persons who wrote the entry.

At the close of business on each day the incident book will be checked by the manager on duty where any entries will be reviewed and signed. If incidents have occurred the duty manager will debrief door staff at the close of business. Should there be no incidents then this will also be recorded at the close of business in the incident book.

#### Refusals Book

A written log shall be kept of all refusals including refusals to sell alcohol. The premises licence holder shall ensure that the refusals log is checked, signed and dated on a weekly basis by the Designated premises supervisor or nominated deputy. The refusals log will be kept and maintained at the premises and will be available for inspection immediately upon request by Hampshire Constabulary and any responsible authority. The record of refusals will be retained for 12 months.

### **c) Public safety**

There will always be a qualified First Aider on site

All events are covered by the Sopley Parish Hall Public Liability Insurance policy

All entrances, exits and toilet facilities will be clearly sign posted.

For larger outside events, a written risk assessment will be conducted.

### **d) The prevention of public nuisance**

We are in a relatively isolated rural position and are on good terms with the few neighbours we have. At the end of each event, people are encouraged to leave quietly. Local advertising is consistently good, ensuring that we communicate well with our neighbours.

For indoor events, music will only be played when

Doors are kept closed except for access and egress

Windows to the rooms where amplification will be used (currently not openable) will be kept closed at all times music is being played

The Hall's air conditioning system will be used when required

Signs will be located at each exit of the premises requesting that persons leave the area quietly, avoiding disturbance to neighbours.

Amplified music and live music will only be played outside for community event.

### **e) The protection of children from harm**

Most events are planned to be family orientated often with children from the local Primary School and Play Group. Children under 12 are expected to be accompanied by an adult. Stewards will challenge those who are not. Children and those under age will not be served at the bar.

Children under 12 are to be accompanied by an adult at all times.

#### Challenge 21

There will be a Challenge 21 policy operating at the premises. Challenge 21 means that the holder of the premises licence shall ensure that every individual, who visually appears to be under 21 years of age and is seeking to purchase or be supplied with alcohol at the premises or from the premises, shall produce identification proving the individual to be 18 years of age or older.

Acceptable identification for the purposes of age verification will include a driving licence, passport, HM Forces ID card or photographic identification bearing the 'PASS' logo and the persons date of birth.

If the person seeking alcohol is unable to produce acceptable means of identification, no sale or supply of alcohol will be made to or for that person.

Challenge 21 posters shall be displayed in prominent positions at the premises.

#### Staff Training

Staff will be trained regarding appropriate precautions to prevent the sale of alcohol to persons under the age of 18, the signs and symptoms of drunk persons and the refusal of sale due to intoxication. Records will be kept of such training which must be signed and dated by the member of staff who has received that training.

All staff will receive refresher training every six months as a minimum and records are to be kept of this refresher training which should be signed and dated by the member of staff who received that training.

In addition to their training a written test related to the training given will be conducted before the staff member is permitted to sell or authorise alcohol. The test will consist of a minimum of ten questions of which the pass rate is 80%. Anyone who fails to reach the prescribed pass rate will be retrained and re-tested. Anyone not attaining the pass rate will not be permitted to sell or authorise the sale of alcohol until the pass rate is attained. There will be a minimum of two sets of questions to be used in the training which will be rotated upon each subsequent six month training session.

All training records will be made immediately available for inspection by Hampshire Constabulary and any responsible authority upon request. Training records will be kept for a minimum period of two years. Training records will be kept on the licensed premises to which they relate to.

Patrons will not be permitted to leave the premises with any glass or bottles which belong to the premises. Where patrons wait in a queue for admission, all reasonable steps will be taken to ensure that such persons do not obstruct exits, years,

passageways, stairway and ramps leading to the outside of the premises.

All parts of the premises and all fittings and apparatus therein, door fastenings and notices and the seating, lighting, heating, electrical, ventilation, sanitary accommodation, washing facilities and other installations, will be maintained at all times in good order and in a safe condition.

At least one qualified first aider will be present on the premises during the whole time the premises are made available for regulated entertainment.

Persons must not be allowed to stand, sit or otherwise remain in the gangway or exit way.

Curtains will not be hung across gangways, exit ways or other staircases. Where hung over doorways or across corridors, they shall draw easily from the centre and slide freely and shall be clear of the floor. All parts of the premises will be adequately illuminated and those portions to which the public has access and all routes of escape for performers and staff shall be provided with adequate means of illumination from two independent sources.

Smoking is prohibited within the building.

#### **d) The prevention of public nuisance**

Undertake environmental risk assessments prior to and during events to ensure we are not being a public nuisance during any event. To assess that noise or vibration will not emanate from the premises such as to cause persons in the neighbourhood to be unreasonably disturbed. In general terms, noise from the premises should not be audible within any noise sensitive premises (e.g. dwelling) with windows open for normal ventilation especially after 11:00pm. This will be assessed from the boundary to the nearest residential properties, on all sides of the licensed premises. We are situated in a limited residential area and all assessments will be undertaken.

All rubbish produced by the premises will be stored securely in a designated area or in a bin with a tight fitting lid. This will help prevent litter being blown around.

#### **e) The protection of children from harm**

Risk assessments undertaken on a regular basis, children requested to remain with their adults.

Stewards on duty are very watchful when children are within the building and do provide safety information and speak with children when necessary - i.e., upstairs balcony restricted access.

Limited bar area when in use is divided by a stable door for no access during the time used as a bar.

If showing films:

- it has received a 'U', 'PG', '12', '15' or '18' certificate issued by the British Board of Film Classification or
- it is a current newsreel, which has not been submitted to the British Board of Film Classification

General Performances or Events

During performances principally for child audiences, additional steps will be provided to ensure the safety and well being of children present on the premises.

a) An adult member of staff will be stationed in the area(s) occupied by the children, in the vicinity of each exit, provided that on each level, occupied by children the minimum number of stewards on duty will be one steward per 25 children.

### **Plan of Premises**

Plan/Drawing No:

Date of Plan: plan approved 31 October 2013

1. Alcoholic drinks may be consumed on the Recreation Ground as a whole or in the designated bar area only, subject to the nature of the event, appropriate risk assessment and agreement with the police.
2. Whilst the sale of alcohol is taking place there will be a representative of the Premises Licence Holder present who will oversee the event.
3. At all times that the sale of alcohol is taking place on site there will be a personal licence holder at the premises. The Designated Premises Supervisor will regularly conduct spot checks and a record of such checks will be made.
4. An incident log will be provided and maintained on the premises for all days that licensable activities take place. It will remain on the premises throughout the day and will be available for inspection by any Responsible Authority on request. All incident logs will be retained by the Premises Licence Holder for a minimum of 2 years. Any incidents that include physical altercation or disorder, physical ejection, injury, I.D. seizure or drug misuse will be recorded in the incident log. The entry is to include an account of the incident and the identity of all persons involved or descriptions if identity unknown. Should there be any physical interaction by staff of event organisers and the public, the entry will include what physical action occurred between each party. The entry must be timed, dated and signed by the author. If the person making the entry has reading or writing difficulties then the entry can be made by another, read back to the involved and counter signed by the person writing. If no incidents occurred then a record of this should be made in the log. At the end of the event the incident log will be checked by a manager appointed by the event organiser where any entries will be reviewed and signed.
5. A written refusal log shall be kept of all refusals including refusals to sell alcohol. The Designated Premises Supervisor shall ensure that the refusal log is checked and signed on every day that the sale of alcohol takes place. The refusals log will be kept and maintained by the Premises Licence Holder and will be available for inspection immediately upon request by any Responsible Authority. Records of refusals will be retained for 2 years.
6. Drinks purchased on site will only be available for consumption from plastic vessels within the designated bar area. There will be a sufficient number of staff present at the event to monitor this.
7. Signage displaying 'No alcohol to be taken beyond this point' must be fitted to the designated bar area exit point.
8. No customers will be permitted into the designated bar area with open or sealed drinks vessels which have not been purchased from the bar.
9. Adequate bins shall be provided on site and all litter and refuse including litter from the access and egress routes to the premises, shall be removed within 24 hours of the event finish time.
10. There shall be a Challenge 25 policy operating at the premises. Challenge 25 means that the holder of the premises licence shall ensure that every individual, who visually appears to be under 25 years of age and is seeking to purchase or be supplied with alcohol at the premises, shall produce identification proving they are 18 years of age or older.
11. Acceptable identification for the purpose of age verification will include a photo card driving licence, HM Forces I.D., card or photographic identification being the 'PASS' logo (Proof of Age Standard Scheme) and persons date of birth. If no acceptable means of identification is produced, no alcohol sale or supply can take place to or for that person.
12. Signage will be prominently placed around the designated bar area advertising the 'Challenge 25' initiative.
13. Individuals under the age of 18 must be accompanied by an individual over the age of 18 at all times whilst in the designated bar area.
14. There will be at least one staff member of the event organiser per 50 children at the premises.
15. The Premises Licence Holder shall inform the Police of anticipated capacity at an event a minimum of four weeks prior to the event date.

16. Access for emergency vehicles shall be kept clear at all times.

17. Operators must ensure sufficient stewards are present to patrol the relevant areas in compliance with the terms of the licence and based on numbers of visitors to the event, such that sufficient staffing is available to maintain the four licensing objectives.

**Plan of Premises**

Plan/Drawing No: 2 x plans

Date of Plan: Plans approved 22/11/2013

**Licence Objective Notes (if any)**

### **a) General - all four licensing objectives (b, c, d, e)**

Entry to licensable events at the hall is by ticket or invitation only and tickets/invitations are checked at the door before entry is permitted.

Indoors events have a maximum ticket/invitations number of 100. Tickets are not sold to children. Alcohol is only served or sold to those over 18 and anyone under 25 has to provide proof that they are over 18. The hiring contract stipulates that these rules are followed by all hirers. Events at Hale Village Hall are only advertised in Hale and surrounding villages and most people attending are known locally and known to the organisers.

### **b) The prevention of crime and disorder**

Ticket numbers/invitations are limited to a maximum of 100. The local police and emergency services are notified when the events are held. Event organisers remain on the premises until everyone has left and ensure all money and alcohol are taken away or locked away before securely locking the hall and making sure no-one is in the vicinity.

### **Incident Book**

An incident book will be provided and maintained at the premises. It will remain on the premises at all times and will be available to police for inspection upon request.

Any incidents that include physical altercation or disorder, physical ejection, injury, I.D., seizure or drug misuse will be recorded in the incident book. The entry is to include an account of the incident and the identity of all person(s) involved (descriptions of those involved if identity is not known). Should there be any physical interaction by members of staff and the public, the entry will include what physical action occurred between each party. The entry shall be timed, dated and signed by the author.

If the member of staff creating the entry has difficulties reading or writing then the entry may be written by another staff member. This should however be read back to the person creating the entry and countersigned by the person who wrote the entry.

The incident book will be checked and signed by a committee member following any use of the premises for licensable activity.

### **Refusals Book**

A written log shall be kept of all refusals including refusals to sell alcohol. The Premises Licence Holder shall ensure that the refusals log is checked, signed and dated on a weekly basis.

The refusals log will be kept and maintained at the premises and will be available for inspection immediately upon request by Hampshire Constabulary and any responsible authority.

The record of refusals will be retained for 12 months.

### **Challenge 25**

There will be a Challenge 25 policy operating at the premises. Challenge 25 means that the holder of the premises licence shall ensure that every individual, who visually appears to be under 25 years of age and is seeking to purchase or be supplied with alcohol at the premises or from the premises, shall produce identification proving that individual to be 18 years of age or older.

Acceptable identification for the purposes of age verification will include a driving licence, passport or photographic identification bearing the 'PASS' logo and the persons date of birth.

If the person seeking alcohol is unable to produce acceptable means of identification, no sale or supply of alcohol will be made to or for that person.

Challenge 25 posters shall be displayed in prominent positions at the premises.

### **Training**

Anyone selling or authorising the sale of alcohol will be trained regarding appropriate precautions to prevent the sale of alcohol to persons under the age of 17, the signs and symptoms of drunk persons and the refusal of sale due to intoxication. Records will be kept of such training which must be signed and dated by the person who has received that training.

Refresher training will be conducted every six months as a minimum and records will be kept of this refresher training and signed and dated by the person who received that training.

In addition to the training a written test related to the training given will be conducted before the person is permitted to sell or authorise alcohol. The test will consist of a minimum of ten questions of which the pass rate is 80%. Anyone who fails to reach the prescribed pass rate will be retrained and re-tested. Anyone not attaining the pass rate will not be permitted to sell or authorise the sale of alcohol until the pass rate is attained. There will be a minimum of two sets of questions to be used in the training which will be rotated upon each subsequent six month training session.

All training records will be made immediately available for inspection by Hampshire Constabulary and any responsible authority

upon request. Training records will be kept for a minimum period of two years. Training records will be kept on the licensed premises.

**c) Public safety**

The hall hiring contract stipulates that organisers of events and hirers must not sell alcohol to under 18s and must check that those under 25 provide evidence of age. Anyone misbehaving or drinking too much will not be served alcohol. Numbers in the hall are kept to 100 or below. Emergency services are kept informed of events to be held in the hall. Organisers or hirers are responsible for ensuring the hall is properly secure, everyone has gone home and no alcohol or money are left unsecured.

**d) The prevention of public nuisance**

Hirers and organisers are required to ensure that people leave quietly and that everyone has gone home before the hall is vacated and left. Hale and Woodgreen Neighbourhood Watch and the Emergency Services are notified of event held at the hall .

Those providing alcohol are required in the hiring contract to ensure no-one drinks too much alcohol and no-one under age is served alcoholic drink. Where outdoor activities are planned neighbouring properties are informed/consulted.

**e) The protection of children from harm**

Children do not attend licensable events without a parent or responsible adult. Children are not served alcohol. If any event is only suitable for children and repeated on the ticket or invitation.

Date of Plan: Feb 2014 - plan approved 04/04/2014

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

This restaurant understands that in extending our opening hours we have a duty to the local community and that we continue to protect our staff and customers from danger and harm. We believe that the systems we have in place are robust, thorough and will, as far as reasonably practicable, secure the promotions of the four licensing objectives. It should be noted that no McDonald's Restaurant within the United Kingdom serves alcohol and further none of our drinks or food are served to customers in glass receptacles.

We are eager to work in partnership with all responsible authorities to ensure the promotion of the four licensing objectives. We also seek to work with the local communities, whom we serve, in achieving a successful cohesion between our business operations and our neighbours.

**b) The prevention of crime and disorder**

This restaurant is keen to work in partnership with the local police force to prevent crime and disorder.

**CCTV**

The premises shall have sufficient cameras located within the premises to cover all public areas including outside of the premises covering the entrance and exit. The system will be able to cope with all levels of illumination throughout the premises as well as outside areas.

CCTV warning signs to be fitted in public places.

The CCTV system must be operating at all times. All equipment shall have a constant and accurate time and date generation.

The recording system will be able to capture a minimum of 4 frames per second and all recorded footage must be securely retained for a minimum of 28 days.

The DPS or premises manager must be able to demonstrate that the CCTV system has measures to prevent recordings being tampered with i.e., password protected.

There shall be sufficient members of trained staff at the premises during operating hours to be able to provide viewable copies immediately to Police on request when investigating allegations of offences or criminal activity. Any images recovered must be in a viewable format on either disc or VHS. Footage supplied in a digital format on CD or DVD will also have a copy of the CCTV system software enabled on the disc to allow playback.

In the event of technical failure of the CCTV equipment the Premises Licence Holder/ DPS MUST report the failure to the Hampshire Western Police Licensing Unit with 24 hours.

At this restaurant all shift running managers have safety and security training.

**c) Public safety**

This restaurant has safety systems in place to protect the safety of customers and staff at all times. These systems are regularly reviewed and updated where appropriate. In line with current legislation all of our restaurant are routinely inspected by the local Environmental Health Office and we work with them and the local Fire Service to ensure we are complying, as far as reasonably practicable, with relevant Health and Safety and Fire Safety Legislation. This restaurant is subject to inspections from our own safety and security teams to ensure our systems are being maintained.

All of our restaurant staff are required to attend comprehensive safety training to ensure that safe working methods are adopted and all staff are trained in evacuation procedure in the event of a fire or other dangerous occurrence.

This store operates a 'No Open Alcohol Containers' policy to prevent persons carrying open alcohol into the in-store area. Emergency contact mobile telephone numbers are listed in the Business Manager's office.

This restaurant is keen to work in partnership with the local Fire Service and Environmental Health Officer to ensure Public Safety.

**d) The prevention of public nuisance**

McDonald's were the first company in our sector to introduce litter patrols in the early 1980's. These patrols collect McDonald's packaging and other litter within a certain radius of the restaurant. All of McDonald's packaging displays the 'Bin It' symbol to encourage our customers to deal with waste responsibly. We are happy to act on recommendations from the Environmental Health Officer should they feel that we should extend our patrol to a nearby area, as far as this is reasonably practicable. Our pioneering stance on litter patrols has meant working on a project with DEFRA, in which we piloted 'reducing litter caused by food on the go', a voluntary code of practice for local partnerships. A copy of which can be found at: [www.defra.gov.uk/environment/localenv/litter/pdf/fastfoodcop.pdf](http://www.defra.gov.uk/environment/localenv/litter/pdf/fastfoodcop.pdf)

Further details regarding McDonald's commitment to reducing waste and litter nuisance can be found at the ' Our World' section of the McDonald's website: <http://www.mcdonalds.co.uk/ourworld/environment/policy.shtml>

We also have measures in place to limit noise. Our doors are self closing and we try to encourage our customers to be considerate to our neighbours and limit noise both when ordering their food and on leaving the local area.

**e) The protection of children from harm**

McDonald's do not anticipate that children will use the restaurant in the extended hours period covered by this licensing application. We do however take their safety extremely seriously and will continue to employ the same practices to ensure that they are protected from harm at all times when visiting the restaurant.

All of our restaurant staff are required to attend comprehensive safety training .

**Licence Conditions**

Not Restricted

**Plan of Premises**

Plan/Drawing No: 14/124/01

Date of Plan: Plan approved 30/04/2014

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

The mandatory conditions relating to the sale of alcohol shall apply to the licence.

The premises shall at all times operate as a Farm shop, village store and cafe to which the sale of alcohol is ancillary to the principal business.

The supply of alcohol for consumption on the premises shall be restricted to persons sitting at tables in that part of the premises and external area hatched in red on the attached plan, who are either proposing to eat in the premises, are eating in the premises or have recently finished eating in the premises.

A waiter/waitress service will operate whenever alcohol is being sold for consumption on the premises (including the outside seating area).

No draft beers, lagers or ciders shall be stocked or supplied. For the avoidance of doubt 'draft' shall mean beer, lager and/or cider served either by means of a hand pump or pressurised pump and shall not include any real ales (or ciders) served from a keg or barrel under gravity.

**b) The prevention of crime and disorder**

Note - not intended to form part of any licence condition. The applicant has carefully considered what if any steps may be appropriate to promote this licensing objective and in particular whether to install CCTV. Having regard to the nature of the premises and the low risk the premises pose in terms of crime and disorder, the applicant has concluded that the installation of CCTV would not be appropriate and that no other conditions need to be offered under this heading.

**c) Public safety**

Note - not intended to form any part of any licence condition. The applicant has considered whether it is appropriate to offer any condition under this heading but has concluded that other legislation and regulations such as the Regulatory Reform (Fire Safety) Order deals with all relevant matters.

**d) The prevention of public nuisance**

Note - not intended to form any part of any licence condition. The applicant will not be providing any regulated entertainment or undertaking any noisy activity in the premises nor will the premises be open late at night or very early in the morning. There is therefore unlikely to be any noise nuisance which would necessitate a condition under this heading. Any potential nuisance from cooking odours would be dealt with by conditions attached to any planning consent that might be granted. For those reasons, no conditions are proposed with regard to this licensing objective.

**e) The protection of children from harm**

The age verification policy required by the mandatory conditions shall state that any person who appears to be under the age of 25 shall be required to produce proof of age in a form consistent with the condition before being sold or supplied with alcohol.

Signs advertising the 'Challenge 25' or 'Think 25' policy shall be displayed on or at the entrance to the premises and either next to any alcohol display or at the till point or both.

All staff involved in the sale or supply of alcohol shall receive training in the Licensing Act and in particular, the law on selling or supplying alcohol to children and people who are or might be drunk. Unless the member of staff concerned is the holder of a personal licence, he or she shall also receive refresher training every six months. A record of all such training (or refresher training) signed by the person receiving the training shall be kept in the premises and made available for inspection by authorised officers on request.

The premises shall maintain a refusals register and use it to record any occasion upon which a person is challenged as to his or her age and the result of that challenge e.g. the refusal of a sale of alcohol or the production of appropriate ID and any other occasion when a customer is refused service of alcohol. The register shall be checked and signed weekly by the DPS or in his/her absence, an authorised deputy. The register shall be kept on the premises and made available for inspection on request by authorised officers.

**a) General - all four licensing objectives (b, c, d, e)**

Tesco are a national retailer that sells alcohol as part of a broad offering of goods and services. Tesco have held off licences in our stores for many years and are an approved British Institute of Inn-Keeping Examination Centre. We have written training policies and formal training programmes are in place, which have been approved by our Primary Authority and ensure our people are equipped to meet all licensing objectives. All training and revision/refresher materials are reviewed regularly. All stores currently comply with our 'Think 25' policy, this is brought to customers attention through point of sale material within the store. We take legal compliance very seriously and in addition to local training we employ a central alcohol licensing compliance manager and have a compliance committee.

**b) The prevention of crime and disorder**

A member of the management team will be on the premises all the time the store is open. A person will have responsibility for the premises whilst the premises are open.

**c) Public safety**

A person will have responsibility for the premises whilst the premises are open. Management will be trained to support the running of the premises, including looking after our customers and staff. The store will adhere to all rules and regulations relating to public safety.

**d) The prevention of public nuisance**

We intend to be an active member of the community. We welcome the opportunity to liaise with Police and enforcement authorities should the need arise.

The CCTV system must be operating at all times whilst the premises are open for licensable activity. All equipment shall have a constant and accurate time and date generation.

The recording system will be able to capture a minimum of 4 frames per second and all recorded footage must be securely retained for a minimum of 28 days.

In the event of technical failure of the CCTV equipment the Premises Licence holder/DPS MUST take immediate steps to ensure that the system is repaired ASAP. Document to demonstrate the steps taken must be shown to the enforcement officer on request.

An incident book will be provided and maintained at the premises. It will remain on the premises at all times and will be available to police for inspection upon request.

Any incidents relating to Licensable activity shall be recorded in the book.

**Plan of Premises**

Plan/Drawing No:

Date of Plan: Plan approved 18/10/2016

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

Dancing Cows will ensure that all employees are given the appropriate training to assure the successful running of the premises and a responsible approach to the sale of alcohol.

**b) The prevention of crime and disorder**

To ensure the prevention of crime and disorder on and around the premises, Dancing Cows has taken the following precautions:

- a) The exterior building is lined with 7 dome cameras covering all potential entrances and exits. The exterior of the building is also covered by several surrounding buildings CCTV systems. The system records in real time and stores all film to the hard drive. This film will be made available to both the police and licensing authority.
- b) There is an internal intruder alarm system in place and is activated when the property is vacated. Once triggered, both the police and Richard Baker (Director) are notified of the intrusion and the appropriate action can then be taken.
- c) Metal security gating have been installed on all windows leading into the distillery/brewery area in order to deter and prevent intruders from entering.
- d) The exterior door leading into the distillery/brewery is protected by a padlocked metal security door when the property is vacated.
- e) The entrance to the distillery/brewery from the office is security by a metal barred-door padlocked on the inside.
- f) External lighting can be found on the front of the property covering both possible entrances. The lighting is also equipped with motion detection technology helping to deter and prevent intruders. The lighting has been positioned so that it does not negatively impact the local residents through unwanted light pollution.
- g) The main entrance to the property is 'alarmed' at all times. When opened a subtle alert is sounded and the internal security light flashes briefly - this alerts employees that the door has been opened.
- h) Dancing Cows has no problem ejecting or refusing entry to person from the premises if they do not meet adequate admissions standards or they are known to be violent or aggressive.
- i) We understand the dangers associated with glass drinking vessels and will therefore treat each event /day differently. If a particular event is to be outside, then plastic or polycarbonate vessels may be more appropriate. The weather, numbers and age of visitors for example will all play a role in what vessel is selected. When alternatives are not used, a robust glass collection policy will be in place. This will include the regular collection of glassware by employees and the prevention of glassware being removed from the premises.
- j) A duty of care policy regarding persons suffering adversely from the effects of drink will be in place at the premises. The policy will clearly express that every effort will be made by employees to prevent patrons from deteriorating to an uncontrolled intoxicated state.
- k) The consumption of alcohol on site will be limited to small groups on tours/tasting sessions. As such it is much easier to control the amount of alcohol being consumed.

**Training**

Staff involved in the sale of alcohol will be trained regarding appropriate precautions to prevent the sale of alcohol to persons under the age of 18, the signs and symptoms of drunk persons and the refusal of sale due to intoxication. Records will be kept of such training which must be signed and dated by the member of staff who has received that training.

All staff will receive refresher training every six months as a minimum and records are to be kept of this refresher training which should be signed and dated by the member of staff who received that training.

All training records will be made immediately available for inspection by Hampshire Constabulary and any responsible Authority upon request. Training records will be kept for a minimum period of two years. Training records will be kept on the licensed premises to which they relate to.

Acceptable identification for the purposes of age verification will include a driving licence, passport or photographic identification bearing the "PASS" logo and the persons date of birth.

### **Refusals book**

A written log shall be kept of all refusals including refusals to sell alcohol. The Premises Licence Holder shall ensure that the refusals log is checked, signed and dated on a weekly basis by the manager/manageress.

The refusals log will be kept and maintained at the premises and will be available for inspection immediately upon request by Hampshire Constabulary and any responsible authority.

The record of refusals will be retained for 12 months.

### **c) Public safety**

The safety of all visitors and customers at Dancing Cows is of utmost importance. We will endeavour to reduce the number of potential risks/hazards through a pro active approach. We have identified the following ways in which we can do this:

a) A full risk assessment, taking into account public safety will be carried out at the premises to identify potential hazards posed to both employees and customers. Precautions for managing the resolving hazards will be set out and developed with employees to ensure they are aware of the potential risks and precautionary measures. A copy of the risk assessment will be kept on the premises at all times and will be made available for inspection.

b) First aid boxes will be available on the premises and will be maintained and stocked sufficiently. A recognised qualification in first aid will be held by at least one employee on duty at all times with all other staff having at least basic training in first aid.

c) Whilst we don't intend on hosting large events or gathering on the premises, a documented capacity will be set for the premises overall and for individual rooms within the premises.

d) As mentioned above, a glass collection policy will be in place to ensure safety, prevent glassware from leaving the premises and to prevent glassware from accumulating or causing obstructions. Employees may also be instructed to complete perimeter checks to ensure no glassware surrounds the premises.

e) Liquid spillages, glass breakage's and other potentially hazardous messes will be cleaned up and dealt with immediately

f) A fire detection system is in place on the premises and is fully functional at all times - the system is frequently tested. In the extreme and unlikely event of a fire, the means of escape are clearly identifiable and lead out onto a place of ultimate safety. Employees will be trained in fire safety measures in order to provide them with the knowledge and confidence necessary to deal with emergency situations, including the correct and effective use of fire extinguishers.

g) There is a zero tolerance policy to the use of drugs on the premises and entry will be refused to anyone who appears to be under the influence of drugs - in appropriate situations, the emergency service will be contacted.

h) Drink driving will be heavily discouraged and will be done through the promotion of THINK! and Designated Driver schemes.

i) Local cab numbers will be available and customers will be able to use our land line to arrange pick ups. We will also promote taxi use when customers arrange tours.

### **d) The prevention of public nuisance**

a) Tours and tastings will be prearranged with small (15 max) groups of people.

b) There will be no music played and the tours will be finished by 8:30pm.

c) All visitors will be reminded of the need to leave quietly to avoid disturbing neighbours.

d) Commercial deliveries, collections and store/disposal of waste, including beer deliveries, refuse collections and storage/disposal of waste and recyclables in external areas will be restricted to normal working hours between 8am and 6pm Monday to Friday.

e) Procedures will be in place for the prompt collection of rubbish.

f) Regular patrols of the area outside the premises will be undertaken by staff to clear any litter attributable to the premises

g) We will install wall or floor mounted cigarette bins in designated smoking areas for customers.

h) External lighting for the premises is automatically turned off after the premises are closed to the public.

### **e) The protection of children from harm**

a) Children will only be allowed into the premises when accompanied by an adult.

The Bowling Club is a membership Club.

The Club Rules specify that the management committee are responsible for the behaviour of the members and have the power to discipline or bar any members who do not act responsibly.

A member's guest signing in book will be maintained in the Clubhouse.

**b) The prevention of crime and disorder**

The Club is surrounded by a hedge and fence and the entrance is through a locked gate with only members having keys. There are CCTV camera's with recorder in the vicinity of the Clubhouse. The bar staff will be trained to recognise signs of drunkenness and will refuse to serve any more drink. These occurrences will be recorded in a refusals book.

**c) Public safety**

The general public do not have access to the Club.

Any non-members will be supervised at all times and any hazards highlighted by a risk assessment will be pointed out.

**d) The prevention of public nuisance**

The Club is on a large sporting area.

The nearest buildings are school premises.

No housing is close to the Club.

A Challenge 25 policy will be introduced and all members who serve behind the bar will be trained as to these requirements.

Where in doubt, appropriate I.D. will be required (passport or driving licence).

**e) The protection of children from harm**

As a Bowls Club, we do not generally have children present. However on the occasions that children are present, (i.e. Fun Days, Open Days), there are always several committee members present to control the area.

**Plan of Premises**

Plan/Drawing No:

Date of Plan: Plan approved 11/05/2017

This Time Limited Premises Licence permits licensable activities on the 12th and 13th August 2017 only.

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

These will be promoted through the event website [www.lymingtonseafoodfestival.co.uk](http://www.lymingtonseafoodfestival.co.uk) and through our Facebook and Instagram social media feeds.

Also through a printed event programme, available through various local outlets approximately one month before the event. This will also be communicated through local media via press releases.

In addition, clear visible event signage will be displayed at the two main entry points to the part and each alcohol retailer will display their 'Challenge 25' policies.

**b) The prevention of crime and disorder**

At least two SIA accredited security guards will be in attendance for the duration of the event. There will also be overnight security on Friday 11th August and Saturday 12th August to mitigate any criminal damage to stall holders equipment that is left overnight.

Through the SAG process we have informed the local police that the event is taking place. A 'presence' is not guaranteed but it would be helpful if a short attendance can take place, notably in the last afternoon/early evening as the event is winding down and members of the public are more likely to have consumed greater volumes of alcohol.

In addition, there will be stewards (circa 10-12) on the live site at all times and one of their tasks will be to monitor the behaviour of the public. They will be briefed, using 'best practice guidelines' on each morning before the event.

No glass will be allowed on site. Alcohol retailers will be asked to 'decant' any bottles and use (ideally recyclable) plastic. Any glass will be confiscated and placed in the 'sin bin' until after the event.

All alcohol retailers will operate a strict Challenge 25 with proof of age cards/relevant ID required.

All stall holders will be asked to keep money or any high value items away from public view.

An event log book will be kept, noting any issues, however minor they seem in case of post event requirements.

At least 8 weeks prior to the event:

A Noise Management Plan shall be provided to the Licensing Authority.

This document shall detail the control measures to be put in place to minimise the impact of the music event, including the location of the bands(Live Music) and all speakers associated with the live or recorded music.

The Noise Management Plan shall be agreed in writing by the Licensing Authority prior to the event taking place and the event shall be carried out in accordance with the Noise Management Plan.

**c) Public safety**

An initial risk assessment has been undertaken and a further assessment will be undertaken two months from the live event. This will be circulated to all stakeholder's with any final actions carried out on their advice.

St John's Ambulance will be on site throughout. Lymington Hospital will be informed the event is taking place in case any minor injuries occur that St John's cannot deal with.

An accredited life guard will be on site to manage the 'balance pond'. Although this is of a depth of no more than 6-10 inches, it still requires overseeing, especially from a child protection perspective.

All stall holders - all of whom regularly attend similar events - will be aware of setting up their stands in the correct manner. Each stand will be checked on the morning before each event. This includes ensuring their stands are properly secured/constructed. Any guy ropes have coloured material attached to ensure they are visible to people with poor eyesight.

Any stall holders will have to hold and present their Food Hygiene Certificate to the event organisers prior to the event.

Any generators will be boxed off and away from the public.

Any cabling will be covered with rubber matting to prevent trips or falls. A qualified event electrician will be on site during set up each morning and on call throughout the event.

Hay bales will be used for seating. However, these will be cited away from any cooking areas where naked flames/fire pits or BBQ's are in operation. All stall holders will have to have fire safety equipment on hand and in addition the event organisers will be extinguishers/fire blankets available.

All dogs must be kept on a lead.

#### **d) The prevention of public nuisance**

Noise:

Music will be kept at the required levels (as per above) and played only during event hours.

Deliveries/stall holders will only be allowed on site after 7:30am (Saturday) and 8:00am (Sunday). Any generator will be cited to the 'east' of the park (the estuary side). Stewards will be politely ushering members of the public off site at the end of each day.

Waste:

We will be engaging with New Forest District Council Environmental/Waste Team to ensure collections are carried out at the end of each day of the Festival. Litter pickers will also be in operation across both days. They will also be asked to cover residential roads in close proximity to the event as people have a habit of littering on public highways.

There will be sufficient waste bins (paper, plastic, tin) across the site with a further large scale waste solution cited at the northern end of the park. This will ensure regular waste bins can be emptied into the larger waste unit during the Festival, so alleviating any mess. In addition, we are looking at a food waste solution with any by-products potentially being used for renewable energy. Our aim is to make the event as environmentally friendly as possible.

Odour:

Its a Food Festival, so hopefully the smells will be appetizing.

Lighting:

No additional lighting is being used given this is a daytime event.

#### **e) The protection of children from harm**

Firstly, this is an adult food Festival, so not an event aimed at children. However, some provision will be on site to ensure they enjoy the day. staff selling child friendly food and drinks will be available.

Playground:

Is currently in situ, is enclosed and will be subject to ongoing safety inspections by Lymington & Pennington Town Council.

Face Painter:

Will be on site. We will ensure they are using correct materials and are DPS checked.

Arts & Crafts:

HART (Hampshire Art Therapy) a registered local charity will be running an arts and crafts area for children where they can paint and make things. As above, all materials and persons involved will be checked prior to the event.

Lost Children:

The event organisers site (the Band Stand) will act as the area for lost children. There is a PA system that can alert people to any situations. If an adult is claiming to be a parent of a lost child we will take common sense steps to ensure this is correct.

Otherwise, all children attending must be supervised by parents/adults and are their own responsibility. Signage will communicate this.

Plan/Drawing No: Location Plan and Site Plan

Date of Plan: Plan approved 21/12/2017

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

Alcohol sales are limited to reception hours 09:00hrs to 17:00hrs and located in a stand alone secure brick building operated by trained staff and monitored by CCTV and kept under review by the licence holder.

As an established business allowing access to the public, existing risk assessments and health and safety policies will be applied. The reception is well lit and well maintained to a good standard of repair.

The type of off sales proposed are unlikely to generate excessive noise or disturbance to the neighbouring properties due to the layout and location.

The licence holder will utilise the Challenge 25 policy and request appropriate I.D.

**b) The prevention of crime and disorder**

CCTV is already installed in the premises. The premises will be supervised by trained staff between 09:00hrs to 17:00hrs. Sales of alcohol ceasing at 17:00hrs will discourage excessive late night consumption. The premises are locked and secure outside of opening hours. There is adequate lighting both inside and outside the premises.

**c) Public safety**

As part of the existing holiday park business at Harrow Wood Farm Caravan Park, the premises already conform to appropriate health and safety guidance following a full risk assessment in view of the existing access permitted to the public visiting the caravan park. The premises will be monitored and operated by trained staff during opening hours and kept locked and secure outside of opening hours.

**d) The prevention of public nuisance**

The off premises sales are designed as an ancillary service to guests staying on the holiday park to consume cider made locally by the licence holder. The proposed activity will not generate excessive noise. The premises are located on self contained private land controlled by the licence holder and does not directly adjoin the adopted highway. The proposed activities are unlikely to impact on any nearby residential dwellings. The existing caravan park health and safety and security measures are already in place and will be implemented by the licence holder to discourage consumption directly outside the premises.

**e) The protection of children from harm**

The licence holder will operate a 'Challenge 25' policy in respect of all sales acquiring appropriate ID and staff will be trained in the application of this policy and checking the appropriate forms of identification. No promotions or adverts for the sale of cider will be directed towards or designed to appeal towards children.

We have CCTV on the inside and outside of the property to help with the prevention of crime and disorder . A DPS will be in day to day control of the premises and responsible for the training of all staff and the keeping of records . A 'Challenge 25' policy will be clearly shown on the premises.

All hirers will be provided with a written summary of their responsibilities under the Licensing Act 2003 in relation to the sale of alcohol on each occasion of hire. This summary will be signed and dated. A copy of this summary, along with a copy of the hire agreement, will be kept by the premises licence holder for a minimum of 1 year.

**Licence Objective Notes (if any)**

### **a) General - all four licensing objectives (b, c, d, e)**

Sunnyfields has been trading and operating on this location for over 30 years and in that time has been licensed.

It has sold alcohol from its shop and at events plus hosted major public and private events. It hosts school events on site as well as previously managing large public events off site.

Ian Nelson one of the directors has attended many Safety Advisory Groups and has experience of event planning and management.

The four licensing objectives fit into all of our daily operating procedures which are mindful of our obligations to staff, customers, neighbours (local residents) and all other visitors to Sunnyfields. Our premises and events are adequately staffed so as to allow the proper management of the premises and supervision of those who visit them. In summary strong management and controls and adequate training of all staff to make sure that all four licensing objectives are met with particular emphasis on 1) no selling or consumption of alcohol to underage people 2) No drunk and disorderly behaviour 3) Vigilance in preventing the use of drugs on site 4) No violent and anti-social behaviour 5) No harm to children.

The Designated Premises Supervisor is confirmed to be obligated to be in day to day control of the premises and to provide good training to all staff on the Licensing Act to make or authorise each sale.

As a licensed premises we know that it is necessary to operate our business with a purpose to promote these objectives. We support these through our operating schedule and other measures including training, record keeping, policies and strategic partnerships with others.

The site has extensive hard roads and lighting.

We operate a zero tolerance on drugs on the site.

### **c) Public safety**

Our premises comply with all requisite health and safety legislation.

We carry out regular health and safety risk assessments for daily operations .

In addition we conduct specific risk assessments for all individual events.

At our events we avoid glassware in public areas .

The site has good solid hard roads and is well illuminated.

Site layout in terms of public safety in terms of numbers of people is always considered to avoid overcrowding (which can lead to an increased risk of violence) which can affect public safety particularly in an evacuation situation .

Fire safety equipment and fire risk is considered in all planning and safety reviews.

Any incidents of public safety are recorded and acted upon depending on the severity of the incident.

All incidents are considered in future planning.

#### **d) The prevention of public nuisance**

We have long standing neighbours who we respect.

We have never had issues with these neighbours as we respect their rights to not being repeatedly disturbed by Sunnyfields activities.

We therefore operate our daily activities and events in a manner to respect our direct and indirect (local residents).

Noise levels at events large or small are at levels to avoid being a public nuisance.

Visitors to our site are asked to respect all our neighbours and we do not hesitate in banning people from the site if they do not respect this.

We operate a zero litter policy on site and if we do ever have an event which could cause external litter issues then we always counter this with signs and litter picking.

We consider noise, lights, odours, smoke, litter and threats to community safety as public nuisance issues.

Where the main attraction of an outdoor event is live and/or recorded music, and more than 500 persons are expected to be in attendance, a noise management plan shall be provided to the Licensing Authority prior to 3 months before the date of the beginning of the event. This shall be agreed in writing by the Licensing Authority prior to the event taking place. The event shall be carried out in accordance with the Noise Management Plan.

There shall be no more than one outdoor cinema event in any week period.

#### **e) The protection of children from harm**

Sunnyfields is a family run farm and event / retail environment.

Its activities and mindset is always to consider the protection of children from harm, this is of particular importance at events or other times when children could come to harm.

The areas which are of concern to us on the farm are protecting children from the early exposure to: strong language, sexual expletives, drinking alcohol, drug taking and violence. We therefore make sure that at all times we do so and if situations arise or could arise that compromise the above then we act to prevent it.

In relation to alcohol we operate a Challenge 25 policy where alcohol is purchased and / or is being consumed. If we are concerned that a person attempting to purchase alcohol or is consuming alcohol looks under the age of 25 then we will ask for acceptable identification - Photo driving licence, passport, PASS(Proof of Age Standards Scheme) or accredited Military Card.

Staff are trained in this policy and records kept.

The exception to this is a 16-17yr old dining with parents eating a meal.

Safety of children on site in terms of health and safety and in the event of becoming lost on site is catered for with a lost children procedure particularly at events.

**Plan of Premises**

Plan/Drawing No:

Date of Plan:      Plan approved 18/02/2020

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

The cafe is a small 12 cover area on the first floor of a retail store. Its purpose is to provide refreshment for patrons of the retail and beauty treatment areas if they require it. A small light food menu will accompany a small hot and cold drink menu with extremely limited alcohol options (if licence granted). Alcohol will be restricted to single serving bottles of cider, beer and wine. No spirits will be served. Alcohol is kept in a locked back bar refrigerator which is monitored at all times by 1-2 permanent cafe staff. The cafe is open 6 days a week. Because of the beauty treatment rooms, children under the age of 16 are not permitted on the first floor of the building without an adult and very young children as completely restricted. As a purveyor of beauty treatments, it is in our interest to ensure noise levels remain sensible and that disorderly conduct is completely restricted. As a lunchtime only establishment, particular attention will be paid to the amount of alcohol being served to any one individual and prices of drinks will be set at a premium to discourage alcohol sales. However, as a store targeted to 35-70 adults it would be nice to offer some limited alcohol sales.

**b) The prevention of crime and disorder**

The cafe is small (12 covers) open plan and permanently manned by 1-2 members of staff when open. CCTV is in operation in the cafe and throughout the shop, is operational at all times with footage available for the police or licensing authority if required. Large A4 signs on the ground floor state that CCTV is operational. An incident book will be maintained to record full details of all occurrences of disorder and refused alcohol sale at the premises. It will be made available for inspection by the licensing authority and the police. No one carrying open or sealed bottles or glasses will be admitted to the premises at any time. No customers will be permitted to take open containers of alcoholic or soft drinks from the premises.

**c) Public safety**

Once the maximum occupancy is reached, no further persons will be admitted to the cafe. Alcohol consumption will be restricted to the cafe only. We will not promote the sale of alcohol through 'happy hour' schemes nor offer any other drinks promotions. I will ensure that all staff receive appropriate training about emergency and general safety precautions and procedures and that staff are aware of their social and legal obligations and their responsibilities regarding the sale of alcohol. Free drinking water is set out on all tables. All bottles and glasses will be removed from the cafe on a regular basis. The coffee machine is tested and certified annually for correct operation. The cafe is open 6 days a week Monday to Saturday. Because of the beauty treatment rooms, children under the age of 16 are not permitted on the first floor of the building where the cafe is located without an adult and very young children are completely restricted.

**d) The prevention of public nuisance**

The shop is restricted to opening hours of 08:30am to 8pm and therefore customers will not be exiting at unsociable hours. The external window from the shop will be kept shut at all times.

**e) The protection of children from harm**

Signage will be prominently shown on the cafe wall and in the menu stating that persons under the age of 18 will not be served alcohol. Staff will be trained on when and how to refuse a sale. A no proof - no sales policy will be adhered to. As alcohol even if accompanied by a parent and eating a 'meal'.
