**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The house has operated without problems in the past. It is not expected that the extended hours will have an adverse effect on this and therefore do not see the need to introduce any extra measures.

**b) The prevention of crime and disorder**

Engage with recognised local liaison groups such as Pubwatch and/or other groups/organisations, e.g. the Council and Police working to promote the licensing objectives. Advise staff to report evidence of crime taking place on the premises. Provide a "wind down period" after alcohol sales end to assist with an orderly and staggered departure from the premises.

**c) Public Safety**

Maintain electrical, fire detection/alarm lighting, gas appliances and other relevant plant and systems according to appropriate regulations.

**d) The prevention of public nuisance**

Ensure noise levels are kept to a minimum, particularly after 23:00 hours. Ensure details of local licensed taxi companies are available in the premises.

**e) The protection of children from harm**

Train staff on the law and practice relating to age restricted sales. Support proof of age standards scheme.

An incident book will be provided and maintained at the premises. It will remain on the premises at all times and will be available to Police for inspection upon request.

Anyone not attaining the pass rate will not be permitted to sell or authorise the sale of alcohol until the pass rate is attained. There will be a minimum of two sets of questions to be used in the training which will be rotated upon each subsequent six month training session.

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

The proposed plan alterations are to put into effect the proposals to extend the facilities offered as envisaged in the new licence recently granted for this site. The steps to be taken to promote the licensing objectives were set out in that application and are endorsed on the Premises Licence. Additional steps to be taken are shown below if and where necessary and proportionate.

**b) The prevention of crime and disorder**

No additional steps are considered to be necessary.

**c) Public safety**

The building works are being controlled by the relevant authorities and the appropriate approvals obtained. Updated risk assessments will be effected when the works are completed prior to opening to the public. It is averred that the proposals improve public safety, especially with the removal of the spiral staircase and replacement with a traditional flight.

**d) The prevention of public nuisance**

In addition to the steps currently noted, particular care will be taken to prevent public nuisance to those living in the vicinity by discouraging customers from taking food and drink into the outside areas after 23:00hrs.

**e) The protection of children from harm**

In addition to the steps currently noted, the age verification policy to be adopted at this time will be the Challenge 21 Policy and staff will be instructed accordingly.

**Licence Objective Notes (if any)****Q) Proposals by the applicant in order to promote the four licensing objectives:****a) General – all four licensing objectives (b,c,d,e)**

The types of regulated entertainments proposed re-instate and then enhance the normal pub entertainments that were previously unregulated, with the benefit to enhance the local facilities for social entertainment and reduce the focus on alcohol. No new steps have been identified by risk assessment in relation to the four licensing objectives, except as below. The terms of the local licensing policy have been considered in preparing this application.

**b) The prevention of crime and disorder**

Providing a 30 minutes extension of opening hours after the end of the sale of alcohol will promote this objective as the last drink will be consumed less quickly, with access to the pubs toilet facilities and the provision of non-alcoholic refreshment during this period. All staff will be briefed on awareness of drug abuse and the steps to take should they suspect it. Not less than five working days written notice will be provided to the Police when the 'event' days are planned.

**c) Public Safety**

My risk assessment identifies no risk of crowding. A lidded metal bin will be provided for the disposal of smoking debris.

**d) The prevention of public nuisance**

Notices reminding customers to respect our neighbours and leave the premises quietly will be affixed adjacent to each exit. Live music will cease by 24:00hrs (01:00hrs on 1 January) Externally, amplified music/voice will cease by 23:00hrs.

**e) The protection of children from harm**

The restrictions set out in the Licensing Act 2003 will apply. No unusual risks of harm to children have been identified. All staff will be briefed regarding acceptable forms of I.D., and actions to take if they suspect its validity. Notices advising parents to supervise their children will be affixed adjacent to play equipment. Where films classified according to the British Board of Film Classification are exhibited, steps will be taken to ensure that children below this age are not present.

## Licence Objective Notes (if any)

### Q) Proposals by the applicant in order to promote the four licensing objectives:

#### a) General – all four licensing objectives (b,c,d,e)

The house has operated without problems with due regard to the new four licensing objectives. We do not expect the extra hours requested will have an adverse effect on this and therefore do not see the need to introduce any extra measures.

#### b) The prevention of crime and disorder

Engage in recognised local groups such as Pub Watch and liaise with local police. Staff induction will include training on dealing with conflict situations. Providing a 30 and/or 60 minute 'wind down' period to sales hours will encourage the last drinks to be consumed less quickly, avoiding 'the binge' also access to pub toilets.

#### c) Public Safety

Comply to findings of Company Health and Safety Audits and exercise a Due Diligence Policy at all times, to include staff training. Having drinking water available at all times.

#### d) The prevention of public nuisance

Refuse admission and or sale of alcohol to persons who appear drunk. Have a range of low alcohol and alcohol free beers etc on stock. Ensure noise levels are kept to a minimum. Display details of local taxi services. Comply to any licensing authority recommendations and policies. At all times after 23:00 hours, music and noise emanating from the premises shall be inaudible at the boundary of all noise sensitive premises. At all times prior to 23:00 hours, music and noise emanating from the premises, whilst audible, shall be so low that distinct tunes, lyrics, musical instruments and any base beat cannot be recognised at the boundary of all noise sensitive premises as marked on the attached map. Live music events will terminate at 23:00hrs.

#### e) The protection of children from harm

The restrictions set out in the Licensing Act 2003 will apply. Only accredited Proof of Age I.D. Schemes will be accepted. Staff will be trained in I.D. Policy.

## Licence Objective Notes (if any)

### Q) Proposals by the applicant in order to promote the four licensing objectives:

#### a) General – all four licensing objectives (b,c,d,e)

The types of regulated entertainment proposed re-instate the normal pub entertainments that were previously unregulated. No new steps have been identified by risk assessment in relation to the four licensing objectives except as below. Consideration has been given to the terms of the local licensing policy in preparing the following:

#### b) The prevention of crime and disorder

Providing a 30 minute extension of opening hours after the end of the sale of alcohol will promote this objective as the last drink will be consumed less quickly, with access to the pubs toilet facilities. Not less than 10 working days written notice will be provided to police when 'event days' are planned (section M).

#### c) Public Safety

Function bookings will be limited to 125 persons. A risk assessment identifies no other risk of crowding.

#### d) The prevention of public nuisance

Live music will end at 23:30hrs. Recorded music will end at 23:30hrs. The volume control for recorded music is behind the bar and can only be accessed by a member of staff. Music and amplified speech from the premises shall be inaudible after 23:00hrs at points represented by the hashed (red) line on the map, attached. Between 20:00hrs and 23:00hrs such sound shall be 'barely audible' on the same line. Patrons will be excluded from the outside drinking area after 23:30hrs.

#### e) The protection of children from harm

The restrictions set out in the Licensing Act 2003 will apply. No unusual risks of harm to children have been identified. A proof of age scheme will be administered.

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

**b) The prevention of crime and disorder**

The Personal Licence holders and Designated Premises Supervisor will not knowingly sell or supply or attempt to sell or supply alcohol to a person who is drunk. The Personal Licence holders and the Designated Premises Supervisor will not knowingly allow disorderly conduct on the licensed premises. The Personal Licence holders and the Designated Premises Supervisor will not knowingly keep or allow to be kept on licensed premises any goods that have been imported without payment of duty or which have otherwise been unlawfully imported. If the Designated Premises Supervisor is not on the licensed premises during opening hours, he shall be contactable at all times by any other Personal Licence holders or authorised members of staff by way of mobile telephone or radio pager. There shall be maintained on the licensed premises at all times a landline telephone in proper working order. All instances of suspected crime or disorder will be reported immediately to the Designated Premises Supervisor who shall take such action as appropriate expeditiously, including reporting the matter to the Police where appropriate. Where CCTV cameras and associated equipment are installed on the premises, the Designated Premises Supervisor shall ensure that the system is maintained in a suitable working condition at all times when the premises are open and that appropriate instructions for using the system and training are given to other Personal Licence holders and other senior members of staff. A policy will be adopted whereby all persons who are or appear to be under the age of 21 will be asked to produce appropriate 'proof of age' documentation before a sale or supply of alcohol may be made. On the premises there will be displayed a notice, where it can conveniently be read by customers, detailing the opening hours for the sale and supply of alcohol and/or hot food.

**c) Public Safety**

The Personal Licence holders and the Designated Premises Supervisor will be fully trained and receive regular updates on training in respect of Public Health and Safety, First Aid, Fire Detection, a system for evacuating customers from the premises and emergency lighting systems. The Personal Licence holders and the Designated Premises Supervisor will ensure that they are appropriately trained and receive regular updates upon training to assist disabled persons who might be present within the licensed premises and to ensure that there are adequate arrangements to enable their safe evacuation in the event of an emergency and the disable people on the premises are made aware of those arrangements. Safety checks will be carried out by the Personal Licence holders or the Designated Premises Supervisor on a regular basis and details of such checks will be kept in a designated log book. All curtains, hangings, decorations and upholstery will comply with Fire Safety Regulations and be maintained in a flame-retardant condition. There will be displayed on the licensed premises a notice detailing the actions to be taken in the event of fire or other emergencies, including how the Fire Safety Service should be contacted and the notice will be prominently displayed and protected from damage and deterioration. The Fire Safety Service must be called at one to any outbreak of fire, however slight, and the details recorded in a fire safety log book. Access to the premises for emergency vehicles must be kept clear and free from obstruction at all times. An appropriate First Aid Kit will be maintained on the licensed premises at all times, whether open to the public or not and the Designated Premises Supervisor and at least one other person will be given adequate and appropriate training and should be on duty when the public are present. The Personal Licence holders or the Designated Premises Supervisor reserve the right to close the premises at any given time, whether during normal opening hours or not, in order to promote the prevention of public nuisance. Where appropriate, the playing of recorded music or the provision of other entertainment will be monitored or prohibited after a certain time if, in the opinion of the Personal Licence holders or the Designated Premises Supervisor it could cause public nuisance. All appropriate steps will be taken to ensure: Such noise or vibration does not emanate from the premises so as to cause a nuisance to nearby properties, which may be achieved by a simple requirement to keep doors and windows closed or to use noise limiters on amplification equipment. **Plan of Premises**

Plan/Drawing No: Plans approved 29th March 2011 and 4th January 2017

Date of Plan:

**Licence Objective Notes (if any)**

## **a) General - all four licensing objectives (b, c, d, e)**

### **b) The prevention of crime and disorder**

Keyhaven Yacht Club is a private members club and members and guests are governed by the rules of the club . Sanctions are applied to members who do not behave according to standards expected of them.

A four channel CCTV system covering vulnerable areas of the clubhouse and car park is in operation at all times .

The bar and administration office areas are alarmed when not in use .

There is security lighting with PIR sensors in the car park and around the building.

Notices are posted to remind all members to ensure that windows are shut and doors locked.

The events are all well organised by a sub committee of the Club and in conjunction with the existing alcohol licence, we ensure that behaviour is well regulated.

### **c) Public safety**

#### **Fire Safety**

The building is equipped with fire fighting equipment and emergency lighting according to the recommendations of the Hampshire Fire Service, Chubb and our Insurers.

Fire equipment is leased from Abacus Fire Ltd who carry out annual planned checks and maintenance on all extinguishers .

#### **Maximum Occupancy**

The overall area of the main clubroom is 133 sq.m.

#### **Seated Events (Club Dinners)**

Allowing for space to reach emergency exits the net floor space is 82 sq.m. Club dinners are a ticketed even and a maximum number of 80 is applied unless a marquee is used to provide extra seating capacity.

#### **Seated Events (Lectures)**

Allowing further space for the lecturer and projection equipment the net floor space is further reduced by 70 sq.m. Seating for 50 is allowed for at club lectures.

#### **Standing Events**

e.g. discos and live bands. Allowing space for the performers, the net area is 80 sq.m. The maximum for these events (limited by ticket sales) is 100.

#### **General Safety.**

Security lighting from the exit door and into the Club car park and through to the NFDC amenity car park 'lights the way safely' off the premises.

A barrier outside the club garden gate prevents members and children rushing into the road .

'Safety' is a committee fixed agenda item and the Club is subjected to regular safety checks by Club Officers . We also now have a Safety Officer who supervised by a Senior Officer of the CLub and they have monthly meetings .

### **d) The prevention of public nuisance**

As a private members club, behaviour is controlled b the Club Rules and sanctions can be applied to those members not behaving to acceptable standards.

#### **Noise**

The nearest residences are c. 150 metres away and occupied mainly by Club members. There have been no complaints about noise generated by the club in at least the last twenty years. The Club operates a complaints procedure and corrective action is taking in response to any complaint received by the Club Secretary.

The Clubhouse is well insulated and double glazed. Where a marquee is used for social events, performers play their music within the Clubhouse in order to confine the sound.

#### **Visual Impact**

The premises, garden, car park and dinghy park are regularly checked and kept in a clean and tidy condition.

At no time will external speakers be used whilst regulated entertainment is taking place.

The disposal of outdoor storage receptacles will not take place between 19:00hrs to 07:00hrs.

Deliveries of consumables will not take place between 19:00hrs and 07:00hrs

Waste collection contractors do not collect between 19:00hrs and 07:00hrs

Clear notices to be put at each exit advising customers to be considerate to local residents by leaving the premises and the area quietly.

Sound monitoring will be undertaken to ensure that the sound as heard from the boundary of the club is at acceptable levels.

**e) The protection of children from harm**

The bar is split in two and children are only allowed to purchase non-alcoholic comestibles at the designated area.

Bar staff have the absolute authority to refuse to serve anyone they believe to be under the age and to report any member if they attempt to buy alcoholic drinks for minors.

Signs relating to the sale of alcohol to minors are prominently displayed in the bar area.

Adult leaders working directly with children in particular junior sailing are required to have the necessary CRB checks.

**Licence Objective Notes (if any)**

#### **a) General - all four licensing objectives (b, c, d, e)**

The club is located behind security gates that prevents access to non members. This ensures that only bona fide members and their guests are admitted to the Club.

#### **b) The prevention of crime and disorder**

The Club Rules make reference to members behaviour and the rules for the Club are policed actively by the General Committee of the Club.

#### **Incident Book**

An incident book will be provided and maintained at the premises. It will remain on the premises at all times and will be available to Police for inspection upon request.

Any incidents that include physical altercation or disorder, physical ejection, injury, ID seizure or drug misuse will be recorded in the incident book. The entry is to include an account of the incident and the identity of all persons involved (or descriptions of those involved if identity is not known). Should there be any physical interaction by members of staff and the public the entry will include what physical action occurred between each party. The entry shall be timed, dated and signed by the author.

If the member of staff creating the entry has difficulties reading or writing then the entry may be written by another staff member . This should however be read back to the person creating the entry and countersigned by the person who wrote the entry.

If incidents have occurred the duty manager will debrief door staff at the close of business . Should there be no incidents then this will also be recorded at the close of business in the incident book.

#### **Refusals Logs**

A written log shall be kept of all refusals including refusals to sell alcohol . The Premises Licence Holder shall ensure that the refusals log is checked, signed and dated on a monthly basis by the premises manager/manageress.

The refusals log will be kept and maintained at the premises and will be available for inspection immediately upon request by Hampshire Constabulary and any responsible authority.

The record of refusals will be retained for 12 months.

#### **Challenge 25**

There will be a Challenge 25 policy operating at the premises. Challenge 25 means that the holder of the premises licence shall ensure that every individual, who visually appears to be under 25 years of age and is seeking to purchase or be supplied with alcohol at the premises or from the premises shall produce identification proving that individual to be 18 years of age or older.

Acceptable means of identification for the purposes of age verification will include a driving licence, passport or photographic identification bearing the 'PASS' logo and the persons date of birth.

If the person seeking alcohol is unable to produce acceptable means of identification, no sale or supply of alcohol will be made to or for that person.

Challenge 25 posters shall be displayed in prominent positions at the premises.

#### **Training**

The licence holder must ensure that all staff selling alcohol have received adequate training which must incorporate a process of assessment and refresher training to a recognised national standard on the law with regard to age restricted sales. Such training will be properly documented and full training records kept. No member of staff shall sell alcohol until they have completed this training and is has been documented and signed by both the staff member and the DPS .

#### **c) Public safety**

There is not admittance to the Club by members of the Public.

#### **d) The prevention of public nuisance**

The Club maintains a good relationship with its neighbours which is helped as the bar is not heavily used in the evenings so there is little disturbance to neighbours.

#### **e) The protection of children from harm**

Volunteers are trained not to supply alcohol to under 18 years of age. This is made easier as it is a members only Club. All members are known. Guests of members would be noted. Average age of members are early 60's. Should there be a surge of younger members, steps would be taken to introduce a system to ensure age verification and a Challenge 25 policy. At this time the risk of underage sales is negligent but none the less taken seriously.

Indoor events have a maximum ticket/invitation number of 100.

Tickets are not sold to children.

Alcohol is only served or sold to those over 18 and anyone under 25 has to provide proof that they are over 18.

### **b) The prevention of crime and disorder**

Tickets/invitations are limited to a maximum of 100 for an indoor event. Tickets/invitations are limited to 300 maximum for an outdoor event. The local police and emergency services are notified when events are held. Event organisers remain on the premises until everyone has left and ensure all money/alcohol is taken away locked away before securely locking the hall and making sure no-one is in the vicinity.

### **Incident Book**

An incident book will be provided and maintained at the premises. It will remain on the premises at all times and will be available to police for inspection upon request.

Any incidents that include physical altercation or disorder, physical ejection, injury, I.D., seizure or drug misuse will be recorded in the incident book. The entry is to include an account of the incident and the identity of all person(s) involved (or descriptions of those involved if identity is not known). Should there be any physical interaction by members of staff and the public the entry will include what physical action occurred between each party. The entry shall be timed, dated and signed by the author.

If the member of staff creating the entry has difficulties reading or writing , then the entry may be written by another staff member. This should however be read back to the person creating the entry and counter signed by the person who wrote the entry.

The incident book will be checked and signed by a committee member following any use of the premises for licensable activity.

### **Refusals Book**

A written log shall be kept of all refusals including refusals to sell alcohol . The premises licence holder shall ensure that the refusals log is checked, signed and dated on a weekly basis.

Acceptable identification for the purposes of age verification will include a driving licence, passport or photographic identification bearing the 'PASS' logo and the persons date of birth.

If the person seeking alcohol is unable to produce acceptable means of identification no sale or supply of alcohol will be made to or for that person.

Challenge 25 posters shall be displayed in prominent positions at the premises.

### **Training**

Anyone selling or authorising the sale of alcohol will be trained regarding appropriate precautions to prevent the sale of alcohol to persons under the age of 18, the signs and symptoms of drunk persons and the refusal of sale due to intoxication. Records will be kept of such training which must be signed and dated by the person who has received that training.

In addition to the training a written test related to the training given will be conducted before the person is permitted to sell or authorise alcohol. The test will consist of a minimum of ten questions of which the pass rate is 80%. Anyone who fails to reach the prescribed pass rate will be retrained and re-tested. Anyone not attaining the pass rate will not be permitted to sell or authorise the sale of alcohol until the pass rate is attained. There will be a minimum of two sets of questions to be used in the training which will be rotated upon each subsequent six month training session.

All training records will be made immediately available for inspection by Hampshire Constabulary and any responsible authority

upon request. Training records will be kept for a minimum period of two years. Training records will be kept on the licensed premises.

### S.12 CHILDREN AND YOUNG PERSONS ACT 1933

Where the number of children attending the entertainment exceeds 100 the licensee shall ensure that the provisions of Section 12 of the Children and Young Persons Act 1933 are complied with.

#### Plan of Premises

Plan/Drawing No: 3 plans approved 3 August 2005

Date of Plan:

#### Licence Objective Notes (if any)

**a) General - all four licensing objectives (b, c, d, e)**

**b) The prevention of crime and disorder**

**c) Public safety**

The numbers of persons at any entertainment shall not exceed:

School Hall : 300 (dancing) 130 (seated)

Drama Studio : 200 (dancing) 130 (seated)

Drama Studio : 130 (seated - Plays)

The curtains/drapes in the Drama Studio must be either inherently flame retardant or be treated with a durable flame retardant finish. If the latter measure is taken a certificate to the appropriate British Standard should be provided to the Council every five years, (the first certificate provided is dated 30 April 2003).

The four sets of double doors to the side of the main hall (marked A on the attached plan) provide adequate means of escape from the main hall for the numbers licensed. Therefore the emergency exits through the changing rooms from the main hall (marked B on the attached plan) need not be available as a means of escape. However, this applies only if the changing rooms are not in use (i.e. the single doors from the hall to the changing rooms are locked).

If the changing rooms are being used, e.g. for a stage performance, the alternative exit routes from the changing rooms must be available. If the routes are not in use the illuminated signs must either be removed or covered.

**d) The prevention of public nuisance**

**e) The protection of children from harm**

All staff will receive refresher training every six months as a minimum and records are to be kept of this refresher training which should be signed and dated by the member of staff who received that training.

In addition to their training, a written test related to the training given will be conducted before the staff member is permitted to sell or authorise alcohol. The test will consist of a minimum of ten questions of which the pass rate is 80%. Anyone who fails to reach the prescribed pass rate will be retrained and re-tested. Anyone not attaining the pass rate will not be permitted to sell or authorise the sale of alcohol until the pass rate is attained. **Plan of Premises**

Plan/Drawing No: 250 - February 2016

Date of Plan: Plan approved 17/05/2016

**Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

The types of regulated entertainment proposed reinstate the existing and normal pub entertainment that were previously unregulated.

No new steps have been identified by risk assessment in relation to the four licensing objectives, except as below.

The terms of the local licensing policy have been considered.

**b) The prevention of crime and disorder**

Providing a 30 minute extension of opening hours after the end of the sale of alcohol will promote this objective as the last drink will be consumed less quickly, with access to the pubs toilet facilities.

In view of the customer base and trading history, no requirement for doorstaff is indicated by the risk assessments.

**c) Public safety**

A risk assessment identifies no risk of crowding.

CCTV is already installed. Tapes are kept for 10 days.

**d) The prevention of public nuisance**

Air extraction and filters are already provided, enabling the windows and doors to be kept shut when live music is played in the building.

Any music (live or recorded) in the garden will end at or before 23:00hrs. The Act and the guidance encourage the provision of music facilities, but applicants should take steps to mitigate the impact of music on neighbours, in this case by volunteering a limitation on hours of music in the garden.

All windows and doors will be kept closed (except as required for access and egress) after 23:00hrs to reduce noise breakout.

The outside bar will close at 21:30hrs and the garden will be cleared by 22:00hrs.

**e) The protection of children from harm**

The restrictions set out in the Licensing Act 2003 will apply.

No unusual risks of harm to children have been identified.

### **b) The prevention of crime and disorder**

Club constitution includes rules governing the conduct of members and their guests within and adjacent to the Club premises. Admission to the Club is confined to members and bona fide guests and is controlled through a computerised door entry system. Club employees are instructed not to admit or serve members or guests who behave in a drunk or disorderly fashion. Misconduct is reported to the Committee to consider action under the Club's disciplinary code.

### **c) Public Safety**

The Club complies with health and safety and fire precaution regulations. Following risk assessment, preventative and control measures are in place to ensure the safety of members, guests, employees and entertainers while on the premises. The Club complies with advised capacity limits. Fire action notices are posted and emergency escape routes are signposted.

### **d) The prevention of public nuisance**

When live or recorded music is played all reasonable steps are taken to avoid disturbance to neighbouring properties. At all times after 23:00 hours, music and noise emanating from the premises shall be inaudible at the boundary of all noise sensitive premises marked on the attached map. Plan/Drawing No:

**Licence Objective Notes (if any)**

## **O) Proposals by the applicant in order to promote the four licensing objectives:**

### **a) General – all four licensing objectives (b,c,d,e)**

The Club is for members and members guests. All members are either employees of Scottish and Southern Energy plc (SSE), retired Company employees or local residents who have applied for associate membership through member proposal and acceptance by the Committee. Although the Club has as many retired employees as active members, it retains a family atmosphere and accompanied children are allowed. The premises are situated in a rural hamlet area at the western end of a larger building within the centre of the SSE site at Malwood on the A31 west. There is only one dwelling within 200m which is occupied by a club member. Prior to the implementation of the Licensing Act 2003, the opening times of the Club were: Wednesday, Thursday, Friday 19:30hrs to 23:00hrs. Occasional functions are also held on some Saturdays throughout the year with similar opening hours as above. Generally there are no more than two per month. Additionally less frequent Sunday opening takes place during the year on some Bank Holiday weekends and other occasions. It is not generally intended to vary the existing opening arrangements unless there is a specific function being held that benefits from afternoon or extended opening hours, or opening on an additional day. The Club will normally continue to close at 23:00hrs. Cheap drinks promotions are not used.

### **b) The prevention of crime and disorder**

Because of the membership policy, most members are normally known by sight by the volunteer bar staff or other members. The Club is not advertised outside SSE and the general public would not know of its existence should they wander into the SSE site. The site on which the premises are located are patrolled by on site SSE contracted security staff during the hours the Club is opening. Cheap drinks promotions are not used.

### **c) Public Safety**

The premises are within a working utility depot and as such notices are displayed explaining the hazards and risks of the site. There are no employees of the Club. Members volunteer to carry out bar duties. The capacity of the Club, based on the Hampshire Fire and Rescue Service recommendations is 100 persons in the main bar room and 100 persons in the adjoining room, a total of 200 persons. There are two or three separate emergency exit routes, depending which rooms are in use, leading to external areas within the SSE site. None of these are onto public roads or areas.

### **d) The prevention of public nuisance**

Car parking is available on site within the general SSE parking areas. The numbers of users of the Club is generally less than 100 at any one time. Deliveries to the Club are made within normal SSE depot working hours. Waste collection is made via the normal SSE site arrangements within normal working hours. An entrance lobby is used to access the premises within external and internal doors. All doors are fitted with self closers. Windows are only alongside two sides, north and west of the building. The entire site is surrounded by tall trees. These facilities will all reduce any external noise. Fireworks etc, will not be used without the prior consent of the Licensing Authority.

### **e) The protection of children from harm**

Children's are only allowed if accompanied by an adult member. Notices are displayed that children are not allowed to make purchases from the bar. The fruit machine on the premises is alongside the bar serving area. Toilets are accessible without entering the direct bar serving area. At children's parties the bar is closed, smoking is banned and the fruit machine is not switched on.

**Licence Objective Notes (if any)**

**a) General – all four licensing objectives (b,c,d,e)**

The types of regulated entertainments proposed reinstate the normal pub entertainments that were previously unregulated, with the benefit of enhancing the local facilities for social entertainment and reducing the focus on alcohol. Staff will be trained on the requirements of the Licensing Act 2003 when they are recruited and given training in 'drugs awareness' as part of their induction. No new steps have been identified by risk assessment in relation to the four licensing objectives, except as below. The terms of the local licensing policy have been considered.

**b) The prevention of crime and disorder**

Providing a 30 minute extension of opening hours after the end of the sale of alcohol will promote this objective as the last drink will be consumed less quickly, with access to the pubs toilet facilities and the provision of non-alcoholic refreshment during this period. The DPS will be a member of the local Pubwatch scheme so long as it exists.

**c) Public Safety**

A risk assessment identifies no risk of crowding.

**d) The prevention of public nuisance**

Live music will end at 23:00hrs (except New Years Eve). Recorded music volume will be reduced to background levels after 23:00hrs Existing lobbies will be retained.

**e) The protection of children from harm**

The restrictions set out in the Licensing Act 2003 will apply. Photographic proof of age will be required to be shown by anyone seeking to purchase alcohol who appears to be under 20 years of age. No unusual risks of harm to children have been identified.

## Q) Proposals by the applicant in order to promote the four licensing objectives:

### a) General – all four licensing objectives (b,c,d,e)

New Forest District Councils Standard Conditions for the existing Public Entertainment Licence. The modern village hall is equipped with appropriate safety features. A bar servery removed from the main circulatory areas and signed to highlight drink sales for adults over 18 years only. Event staff are experienced bar staff are well trained and our record is of minimal incidents of disorder or public safety concerns. **Operating Schedule - Introduction.** The Damerham Village Hall is a charitable community hall run by a management committee representing the various village organisations that use it and members of the public elected at the Annual General Meeting. These individuals act as Trustees for the Charity. The hall is hired by a range of local voluntary organisations, private individuals (particularly for wedding celebrations) and statutory organisations such as the Parish and District Councils. A written hiring agreement is signed by the users and in the booking process their attention is drawn to the health and safety and licensing conditions they have agreed to undertake. The hall is maintained by a caretaker and he is responsible for taking bookings so that any changes need in the hiring agreement are readily identified to the management committee. Typical non licensable activities include meetings of the W.I., the Horticultural Society, Parish Council, Tea and Chat and Flower arranging groups, badminton evenings and on school days, children's sporting activities. Licensable activities include music concerts and discos, dances, quizzes, a variety of fundraising events, horticultural shows, wildlife displays, apple day and performances of touring theatre groups, as well as childrens parties and nursery groups, weddings and private parties. The hall serves the community's needs it is difficult to predict which activities will take place and when they will be required. For that reason the applicant has opted for activities such as films and dance, boxing and indoor sports although we have had no recent experience of these, in order to anticipate future requirements. For example, a mobile cinema now visits the area on a monthly basis. In order to potentially make use of this facility the applicant has indicated a range of days and times beyond the one evening per month they could expect to use it, to provide the necessary flexibility within the hall programme. This approach has been adopted throughout. The applicant certainly does not expect to operate an alcohol licence on every evening of the week but need to be covered for the odd event which takes place outside of the weekend.

**Operating Schedule - General Comments** The Management Committee will endeavour to provide premises that are safe for public use. We shall require all hirers (including the applicant when using the hall for a fundraising function) to comply with the conditions of the hiring agreement. The caretaker shall draw the hirer's attention to these conditions and acquaint them with the location and use of the halls emergency equipment, evacuation procedure and 'in case of fire' instructions. The hall has a contractual arrangement with a local company to the effect that it has exclusive rights to serve alcohol on the premises in return for a share of the profits of those functions run on behalf of the Village Hall. The company is operated by a Personal Licence holder who shall be the Designate Premises Supervisor and who is well aware of the need to avoid drunken behaviour and the creation of public nuisance.

### b) The prevention of crime and disorder

Most village events are non-ticket daytime gatherings without alcohol or evening events with alcohol for which tickets are required. Experienced bar staff check the ages of customers where there is doubt that they are 18. Regular checks are made of the premises to prevent use of drugs. Duty manager will log on at each event. **Operating Schedule - Prevention of Crime and Disorder.** If alcohol is to be served, the caretaker shall remind the hirers of the need to avoid the creation of public nuisance or disorderly or drunken behaviour. Applicants shall maintain a log and the duty manager shall 'sign on' so that it is clear who is in charge. The bar is signed to the effect that only those over 18 can purchase alcohol and staff is trained to uphold that law and to ensure that drink is not served if an individual is drunk.

### c) Public Safety

The number of persons admitted at any entertainment shall not exceed: Main Hall 360 - Dancing Function Room 40 - Dancing There are five external emergency exits each equipped with emergency lighting both inside and outside. The halls capacity of 400 can be serviced by these exits and these are checked prior to an event. Fire equipment is maintained regularly. **Operating Schedule - Public Safety.** The applicant shall: Provide hirers with a copy of the Operating Schedule and Licensing Conditions which shall include maximum capacities. Carry out a Fire Safety Risk Assessment annually and record the results. Carry out a General Risk Assessment of the premises every two years and record the results. Provide premises that are safe and free from fire hazards. Continue to provide all statutory fire precautions, emergency lighting and exit signs as advised by the Fire Authority and keep them in good working order. We have provided notices explaining the actions to be taken in case of fire or other emergencies in the entrance hall and the applicant shall extend this to each meeting room. Continue to maintain additional emergency exit lights on the exterior of the hall and to provide a first aid kit. Keep a safety log and record checks made of fire exits, emergency lighting, presence of fire fighting equipment etc, before each hire.

### d) The prevention of public nuisance

We clear the immediate vicinity of the hall after an event to maintain a clean environment. The applicants are conscious of the need to monitor noise levels and we will remind our patrons to leave quietly. Speakers will not be positioned outside for evening events. The applicant shall: Ensure that hirers understand the licensing hours and the importance of avoiding creating a public nuisance when leaving the premises. Ask them to make an announcement to that effect at the end of the evening.

### e) The protection of children from harm

Activities involving children from the village school are always supervised by school staff. Village events for children (wildlife day, apple day) are supervised appropriately and kept distant from the bar area - if its present at all. The applicant shall: Provide premises which are safe for the use of children as far as we can. Not serve alcohol to children under the age of 18, nor shall we allow children on the premises if we are showing a film whose age classification prohibits their presence, or if we are running a gambling entertainment. We have no plans to hold events of an 'adult' nature and if so the applicant would exclude minors. Provide adult supervision to minimize the risk of illegal drugs being brought into the premises and ensure that

disruptive behaviour is not tolerated. The hall is used for school evens and a nursery so that appropriate safety standards are in place.

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The types of regulated entertainment proposed re-instate and then enhance the normal pub and family entertainments that were previously unregulated, with the benefit to enhance the local facilities for social entertainment and reduce the focus on alcohol. The facilities for live and recorded music, dancing and voice are proposed in support of bookings, events and the core business of a family friendly public house. No new steps have been identified by a risk assessment in relation to the four licensing objectives, except as below:

**b) The prevention of crime and disorder**

Providing a 30 minute extension of opening hours after the end of the sale of alcohol, with continued sale of refreshments will promote gradual and orderly dispersal of customers. Not less than five working days written notice will be provided to Police when 'event days' are planned. The applicant is registered with the local Pubwatch Scheme.

**c) Public Safety**

No risks that are not covered by other legislation.

**d) The prevention of public nuisance**

The licensable activities at Sections B, E, F, G, H, I and J shall cease at 22:00hrs when they are taking place outdoors. After 23:00hrs music and noise emanating from the premises (both outdoors and indoors) if audible, shall be at such a level that distinct tunes, lyrics, musical instruments and any base beat cannot be recognised at the boundary of all noise sensitive premises\*. Prior to 23:00hrs, music and noise emanating from the premises (both outdoors and indoors) if audible, shall be at such a level that distinct tunes, lyrics, musical instruments and any base beat cannot be recognised at the boundary of all noise sensitive premises\*.

\* For the purposes of conditions 4 and 5 above, noise sensitive premises shall include premises used for residential purposes, hospitals, or similar institutions, educational establishments (when in use), places of worship (during recognised times and days of worship) and any other premises used for any other purpose likely to be affected by the music noise .

#### Licence Objective Notes (if any)

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The premises have not given rise to problems of crime and disorder in the past and there have been no problems with children or harm suffered by children. There will be detailed staff training for all levels of staff on licensing and safety issues. The existing CCTV system will be extended throughout the premises and all proposed improvements will be discussed with the police. Removal of glasses from the premises will be prohibited. Service of alcohol and late night refreshment and the playing of music will cease half an hour before the premises finally close. This will give a drinking up and winding down period for customers which will generally ensure good order, freedom from noise and nuisance and contribute to public safety.

**b) The prevention of crime and disorder**

The licence holder will participate in any established Watch Scheme or other recognised scheme or body designed to secure effective liaison with the local police and/or local community. The licence holder will continue to operate a proof of age scheme which ensures that anyone seeking to purchase alcohol under age will be required to produce ID such as a passport or picture driving licence or other identification in accordance with the Portman Scheme. No admissions will be allowed to the premises after 23:00 hours.

**c) Public Safety**

An evacuation plan will be developed and maintained and agreed with the Fire Officer and will be advised to all relevant members of staff. Safe occupancy levels will be determined and suitable arrangements made to ensure that they are not exceeded. There will be adequate safety for any indoor sports entertainment events that are conducted on the premises. Adequate access will be maintained for emergency vehicles whilst the premises are open to the public.

**d) The prevention of public nuisance**

Prominent clear and legible notices will be displayed at all exits requesting the public to respect the needs of local residents and to leave the premises and the area quietly. A contact telephone number will be provided to adjoining noise sensitive premises so that if any complaints arise occupiers of such premises can be given the opportunity of speaking to management at the premises. The licence holder will arrange for licensed taxis or private hire vehicles to be available to take patrons from the premises whenever required. The use by customers of the external areas shall cease no later than 23:00 hours.

**e) The protection of children from harm**

Children generally visit the premises accompanied by a parent, guardian or responsible adult. Measures are carried out to ensure the service of alcohol does not take place to children under the age of 18. The two all cash gaming machines on the premises are in the bar area which is closely supervised and no children are allowed to play on them. No unaccompanied children under the age of 18 will be allowed to remain on the premises after 23:00 hours unless accompanied by a parent, guardian or responsible adult.

### Licence Objective Notes (if any)

**O) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The club is a traditional club catering to members of all ages but predominantly over 50. The extended hours will be seldom used. Drinking is a secondary activity that accompanies the primary activity of golf. On the rare occasions when entertainment is staged this does not affect neighbours due to the remote location of the club.

**b) The prevention of crime and disorder**

Due to the nature of the club and the profile of the membership the club does not have any crime and disorder problems but the club will comply fully with any recommendations made by the police.

**c) Public Safety**

The club fully complies with all safety regulations and takes such matters seriously. Consultants are employed who inspect the facilities annually to ensure compliance. Each member of staff is taken through a staff safety handbook which details their responsibilities and actions required for fire, first aid, hazards, COSSH, hygiene, etc. The club conducted a full audit of the premises to comply with the Disability Discrimination Act and has actioned the findings.

**d) The prevention of public nuisance**

Due to the remote location of the club it has not caused a nuisance through noise. In the unlikely event of the club receiving a complaint it will be dealt with appropriately as the club is anxious to maintain a good relationship with the local community.

**e) The protection of children from harm**

Child welfare is taken seriously by the club. Juniors are expressly forbidden to consume alcohol or play the gaming machine and the staff are trained to ensure this is policed. The club has a welfare policy which takes into account good practice guidelines from the NSPCC and the golf unions. The club has a welfare officer and a junior organiser for boys and girls. The club restricts the number of juniors to 50 to ensure adequate supervision.

### **Plan of Premises**

Plan/Drawing No:

Date of Plan: Plan approved 20/04/2017

### **Licence Objective Notes (if any)**

#### **Q) Proposals by the applicant in order to promote the four licensing objectives:**

##### **a) General – all four licensing objectives (b,c,d,e)**

The types of regulated entertainment proposed reinstate the normal pub and family entertainments that were previously unregulated. Facilities for the live and recorded music, dancing and voice are proposed in support of bookings events and the business of a family friendly public house. No new steps have been identified by risk assessment in relation to the full licensing objective except as below. The terms of the Local Licensing Policy have been considered in prepared in this application.

##### **b) The prevention of crime and disorder**

Not less than 5 working days written notice will be provided to the Police on 'Event Days' during existing permitted hours. Better management of departure of customers as the renewed hours will allow varied departure times, which will promote gradual and orderly dispersal of customers. The extension of hours will result in alcohol being consumed less quickly.

##### **c) Public Safety**

No risks that are not covered by the legislation.

##### **d) The prevention of public nuisance**

Music will end half an hour before closing. There will be no more than 12 external events per annum. At all times prior to 23:00 hours, music and noise emanating from the premises, whilst audible, shall be so low that distinct tunes, lyrics, musical instruments and any base beat cannot be recognised at the boundary of all noise sensitive premises. The licensee or nominated representative shall receive and respond to complaints throughout the duration of the regulated entertainment. At all times after 23:00 hours, music and noise emanating from the premises shall be inaudible at the boundary of all noise sensitive premises. All external doors and windows shall be kept closed, other than for access and egress, when events involving live and/or amplified music (including amplified speech) are taking place. For the purposes of this licence noise sensitive premises are defined as "Noise sensitive premises include premises used for residential purposes, hospitals or similar institutions, educational establishments (when in use), or places of worship (during recognised times and days of worship) or any premises used for any other purposes likely to be affected by the music noise."

##### **e) The protection of children from harm**

The restrictions set out in the Licensing Act 2003 will apply. No unusual risk of harm to children that are not already covered by other legislation have been identified. Children under 18 will not be allowed on the premises after 24:00hrs. The restrictions set out in the Licensing Act 2003 will apply so adults accompanying the child provides protection from harm. Safety of the premises and play equipment is fully covered by other legislation.

### P) Proposals by the applicant in order to promote the four licensing objectives:

#### a) General – all four licensing objectives (b,c,d,e)

The types of regulated entertainment are in keeping with traditional village hall activities adapted to the age of sound amplification. A risk assessment of the four licensing objectives below has been undertaken. The frequency of events and any complaints will be recorded and closely monitored.

#### b) The prevention of crime and disorder

Events put on by local people for local people in a small village of 165 electorates plus children.

#### c) Public Safety

Control of numbers by sale of tickets. Emergency lighting, equipment and electrics professionally maintained. Access for public and emergency vehicles improved by provision of 16 space car park (2005), i.e., no 'on road' parking.

#### d) The prevention of public nuisance

The committee do not envisage more than 12 'noisy' events per year, recognising that the building is unsuitable for full time use (lack of insulation/ventilation etc). Exterior movements sensitive lighting will be on master switch so that it will not operate when hall is not in use.

#### e) The protection of children from harm

For film shows, national guidelines/classifications will be adhered to. No unsupervised access to premises permitted. There is a 'no smoking' policy in the village hall.

## **Plan of Premises**

Plan/Drawing No:

Date of Plan: Plan dated 27/07/2004

## **Licence Objective Notes (if any)**

### **Q) Proposals by the applicant in order to promote the four licensing objectives:**

#### **a) General – all four licensing objectives (b,c,d,e)**

The public house is essentially a restaurant providing a top quality cuisine and a local village pub facility. The aim is to continue to attract the maturer clientele. Their reputation is and will be based on the quality of the food provided. The setting is semi-rural with only one residential property nearby. The premises is approximately one mile from Bransgore. The public house will usually open 11:00hrs to 23:00hrs, but on occasions may make use of the extended hours.

#### **b) The prevention of crime and disorder**

All staff are trained to recognise patrons who are drunk and disorderly and to deal with them accordingly, either by asking them to leave or refusing to serve them alcohol. The public house only purchased cigarettes and alcohol from reliable suppliers. All children under the age of 16 must be accompanied by an adult or be asked to leave. Regular bottle and glass collecting takes place, increasing towards the end of the evening and the licensed hours. The public house will not exceed its capacity limits for patrons. Patrons who appear under the age of 18 will be required to produce proof of age cards, photographic driving licences and/or passports. Aside setting out the terms of the Act at which licensable activities are allowed to take place, to be displayed on or immediately outside the premises including restrictions upon admission for children. No patrons will be admitted after 23:00hrs and door staff will be in place to ensure this policy.

#### **c) Public Safety**

The public house is predominantly for local mature village clientele and those who wish to purchase 'Gastro' restaurant food. When the restaurant area is full and/or the outside area is either full or the weather is not suitable for eating outside, the clientele will be discouraged from waiting. Capacity will be restricted and will be dependant upon the weather conditions.

#### **d) The prevention of public nuisance**

The public house will contain prominent, clear and legible notices at all exits requesting the public to respect the needs of the local residents and to leave the premises and the area quietly. Staff will be required to empty refuse at suitable times to minimise the disturbance to the residents. Towards the end of the evening, the volume of music will be reduced and more soothing music will be played as the evening winds down. Arrangements will be made as necessary for licensed taxis/private hire vehicles to take patrons from the premises.

#### **e) The protection of children from harm**

No children under the age of 16 will be permitted on the premises unless accompanied by an adult. No adult only entertainment will be provided at the premises.

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

All staff are instructed in the objectives and statutory requirements of the Licensing Act 2003 to comply with the provisions of the Act. Last orders for food are taken at 21:00 hours to allow time for orderly dining and to discourage late bingeing and late trade which might encourage disorderly customers and conduct.

**b) The prevention of crime and disorder**

All employees are instructed not to serve or to allow admittance to customers who are, or appear to be drunk, and/or who behave in a disorderly fashion. Customers are urged to respect the needs of local residents when leaving the premises and staff are instructed not to serve drunk or apparently drunk and disorderly customers to help obviate any disturbance. The provision of an extra half an hour after alcohol ceases to be served will help encourage an orderly and quiet drinking up and phased exit from the premises.

**c) Public Safety**

### Plan of Premises

Plan/Drawing No:

Date of Plan: Plans approved 09/12/2005

### Licence Objective Notes (if any)

#### P) Proposals by the applicant in order to promote the four licensing objectives:

##### a) General – all four licensing objectives (b,c,d,e)

All hire agreements specify hall is to be vacated by a specified time. Residents in neighbouring properties are encouraged to report noise or nuisance.

##### b) The prevention of crime and disorder

No alcohol licence applied for. No adult entertainment. All hire agreements stipulate adult supervision at all times.

##### c) Public Safety

The hall is fully insured and meets the insurers standards. All exits are clearly marked, there are emergency lights and fire extinguishers. The fire exit can be opened at all times by a push bar. The same key is used for all entrances. Regular checks are made on fire safety, gas fires and Chubb certificates. Hall users are made aware of safety rules and regulations.

##### d) The prevention of public nuisance

Spot checks for noise and disturbance are made. Users are requested to keep noise to a minimum by keeping doors and windows shut whilst playing music. If abused then further hiring's are refused. Residents are encouraged to inform trustees of any undue noise or disturbance. Conditions are stipulated on individual hiring agreements. At each exit point a prominent and clear notice will be displayed to the effect that customers should be considerate to local residents by leaving the premises and the area quietly. **INDOOR EVENTS** During any event involving live or amplified music (other than low level background music), all windows will be kept closed. External doors will also be kept closed, except where necessary for access and egress, i.e. the doors will not be secured open and will be fitted with self-closers if necessary. Noise from music and voices emanating from the premises between 23:00 and 09:00 hours will be inaudible when measured at the boundary of all noise sensitive premises. Prior to 23:00 hours, music noise emanating from the premises whilst audible, is so low that distinct tunes, lyrics, musical instruments and any base beat cannot be recognised at the boundary of all noise sensitive premises. (Noise sensitive premises includes premises used for residential purposes, hospitals or similar institutions, educational establishments (when in use), or places of worship (during recognised times and days of worship) or any premises used for any other purpose likely to be affected by the music noise.)

Clearly stating parking considerations, ensuring all activity takes place inside the hall. Fire fighting equipment is inspected annually. Hirers are aware of emergency exits and of the location of the first aid equipment.

##### **d) The prevention of public nuisance**

Ensuring hirers understand they must use the hall with consideration to other neighbours and residents. Hirers are responsible for removing all rubbish from the hall. Windows are all double glazed.

**Plan of Premises**

Plan/Drawing No: 1036.01

Date of Plan: June 2005

**Licence Objective Notes (if any)**

**P) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

It is not proposed that any of the following promotions will be used: 'Drink all you can for a fixed price'. 'Charging less per unit for multiple units than for single units'. 'Refusing to sell single measures'. 'Running of drinking games or competitions which involve consumption of alcohol or the awarding of drinks as prizes'. Staff employed at the premises will be trained as appropriate to their duties to ensure that they appreciate the influence that they can have on the licensing objectives. This training will be refreshed as and when the premises feel it is necessary, depending on the individual and the circumstances. The premises will operate in accordance with the rules of the Club.

**b) The prevention of crime and disorder**

The existing CCTV system will be maintained to at least the current standard. No further steps are considered necessary but the premises will undertake to implement any additional measures that are agreed in writing from time to time between the Police and the premises and subsequently notified to the Licensing Authority.

**c) Public Safety**

Fire and other risk assessments will be carried out in accordance with statutory provisions. Copies of risk assessments will be requested from any sub-contractors. Electrical systems will be designed and maintained in accordance with the Electricity at Work Regulations 1989 and regard will be had to the current codes of practice on electrical installations. Adequate lighting will be maintained at all times to a level that will facilitate emergency egress from any licensed area. An evacuation plan will be developed and maintained, which will be advised to all relevant members of staff. The property has comprehensive fire detection and warning systems, with detectors fitted in all rooms. Fire precaution measures, as indicated will be kept in place unless otherwise agreed with the Fire Authority. Advice on occupancy figures will be sought from the Fire Authority as appropriate. Fire detection and warning systems will be tested at regular intervals and a record of the test maintained in a log book. Fire fighting equipment will be checked and serviced in accordance with manufacturers recommendations. No further steps are considered necessary at this point in time, but the premises will undertake to implement any additional measures that are agreed in writing from time to time between the Fire Service or Health & Safety Officer and the premises and subsequently notified to the Licensing Authority.

**d) The prevention of public nuisance**

No additional measures are intended relating to public nuisance. However, the premises will undertake to implement any further measures that are agreed in writing from time to time between the Environmental Health Officer and the premises and subsequently notified to the Licensing Authority. Noise levels from regulated entertainment will be monitored and where sound levels are considered to be excessive or likely to cause a nuisance to any nearby residential property, arrangements will be made to immediately reduce the level so the disturbance does not occur. External doors and windows to any room where regulated entertainment is taking place will be kept closed after 22:00hrs, except when being used for access and egress.

**e) The protection of children from harm**

If it is believed that there is an activity which poses a particular and unacceptable risk to children, no admittance will be permitted for children to the area of that risk unless the risk can be reduced to a level that is reasonable. Where videographic recordings are to be shown, children will only be admitted in accordance with the British Board of Film Classification (BBFC) rating or, in the case of recordings not rated by BBFC, where the recording has been made or previously broadcast with a view to being suitable for presentation to children (for example, a television programme that has previously been broadcast during the day before 21:00hrs or a sporting event). Where it is suspected that any child attempting to purchase alcohol, proof of age will normally be required. Acceptable identification will be by means of a passport, driving licence or other identification that is listed as acceptable in the Council's Statement of Licensing Policy. No further steps to be considered but the premises undertake to implement any additional measures that are agreed in writing from time to time between the body responsible for advising on Child Protection and the premises subsequently notifying the Licensing Authority.

## Licence Objective Notes (if any)

### Q) Proposals by the applicant in order to promote the four licensing objectives:

#### a) General – all four licensing objectives (b,c,d,e)

Following an assessment of the premises and its surrounding area the following is proposed: 30 minute "drinking up" time will allow appropriate dispersal, use of lavatories etc. In order to further the licensing objectives the licensee reserves the right to move the fire appliance. AWP machines, cigarette machines and or any other similar objects temporarily in a fixed location which may impact on the ability of individuals on the premises to use exits or escape routes without impediment.

#### b) The prevention of crime and disorder

Illumination is provided to the exterior areas of the pub, accessible to the public. All interior trading areas are visible to staff from behind the bar servery. A rota system is in place for checking the toilets regularly. The licensees/staff monitor customer behaviour especially during busy periods. There is always a minimum of two staff on duty at any one time. Toilets access is clearly visible from the bar. There is a driver 'shelf' with a selection of soft drinks. There is a CCTV system overlooking the bar servery.

#### c) Public Safety

The pub is equipped with emergency lighting, illuminated exit signs and a fire detection system throughout the entire building. All fire fighting equipment is serviced annually and there is a contract in place with Southern Fire Protection. A fire alarm test is carried out weekly. All portable electrical appliances are tested annually. A pest control contract is in place. The pub has a first aider and first aid facilities. Accident/incident book on site for staff and public.

#### d) The prevention of public nuisance

When required, staff organise taxis to transport customers home and customers are seen off the premises and encouraged to disperse at closing. Being a detached property there are no adjoining neighbours and residential accommodation in the immediate area is minimal. The fact that this public house is a detached property assists in minimising noise transfer to neighbours. Standard glasses are gradually being phased out and being replaced with toughened glasses. The pub has a lobbied entrance which reduces noise emission. The pub does not have any aggressive drinks promotions (i.e. 2-4-1's, heavy discounting/happy hours). There are no fast food outlets in the vicinity, therefore limited loitering around the pub. No sale of alcohol shall take place in the outside area after 23:00hrs.

#### e) The protection of children from harm

The pub has a children's menu and suitable soft drinks to promote family atmosphere. No unaccompanied children will be allowed in the premises. There are no AWP machines. No striptease, no nudity and no restricted film exhibition.

Challenge 25 means that the holder of the premises licence shall ensure that every individual, who visually appears to be under 25 years of age and is seeking to purchase or be supplied with alcohol at the premises or from the premises, shall produce identification proving that individual to be 18 years of age or older. Acceptable identification for the purposes of age verification will include a driving licence, passport, HM Forces ID card or photographic identification bearing the "PASS" logo and the persons date of birth. If the person seeking alcohol is unable to produce acceptable means of identification, no sale or supply of alcohol will be made to or for that person. **P) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

All events will be organised by the Council and/or Clubs and/or other organisations for the benefit of the town. Performances will generally be part of other activities which are not licensable. Those involved with events will be informed of the provisions of the licence. It is not intended to significantly increase the number of events already taking place.

**b) The prevention of crime and disorder**

It is not anticipated that any event will cause crime or disorder. The police will be notified of all events and be involved in traffic control/crowd control and alcohol licensing issues (not part of application).

**c) Public Safety**

All events will be stewarded (police involved with carnival). Barriers will be provided and road closures will be sought as necessary to minimise the risk of accidents involving spectators/participants and motor vehicles. Risk assessment will be sought where reasonably practical. First aid provisions will be made as necessary.

**d) The prevention of public nuisance**

All events will be publicised and monitored to avoid public nuisance. Times will be adhered to by organisers of events. Licensable events will be limited and take place later only on carnival and possibly Christmas Eve and/ or New Years Eve. 1. All events shall be notified to the Licensing Authority at least 14 days before the first day of the event. 2. Regulated entertainment is permitted at the site on a maximum of 12 days in any single calendar year and of these a maximum of 3 days is permitted per calendar month. 3. Condition 2 above shall apply to all events, except to the Carnival weekend and Festival week.

**e) The protection of children from harm**

**Licence Objective Notes (if any)**

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

Strong management controls and effective staff training to ensure: No underage drinking, drunkenness on the premises, use of drugs, violent or anti-social behaviour and to protect children from harm. This market is traditionally less prone to public nuisance problems and licensing issues.

**b) The prevention of crime and disorder**

The house is very much in the rural setting, with a long established reputation for good food trade. Depth of local knowledge and of community is an advantage when applied to reducing crime and disorder. Regular monitoring of all trade areas by trained staff. Proof of age scheme. Staff trained to refer to DPS in cases of doubt. Keep to agreed capacity limits. Will not run irresponsible drinks promotions. Site has well lit car park, garden and outside areas. Have a good working relationship with local Police.

**c) Public Safety**

Site has committed to ensuring that at least one member of staff/management holds a recognised 'First Aid' training certificate by end of November 2005. Review DDA policy to ensure all reasonable steps have been taken to allow disabled customers to use premises in safety. Upkeep of emergency lighting and appropriate records kept. Upkeep of fire fighting equipment; adequate staff training and appropriate records kept. Trade within recognised capacity limits and ensure adequate levels of staff to meet expected levels of trade.

**d) The prevention of public nuisance**

Site has an unblemished record concerning public nuisance, partly through the fact it operates as a family/food led house but more importantly from operating as a well run establishment. It is also located in a rural setting and therefore away from immediate neighbours. This results in no noisy mechanical equipment being sited so as to interfere with neighbours; ensures kitchen filters are regularly cleaned to reduce the potential for kitchen odours, no light pollution to neighbours. Site is regularly monitored particularly garden area to ensure no instances of excessive noise or unruly behaviour. Ensures deliveries and service providers (e.g., refuse) are at such an hour as not to cause nuisance to neighbours.

**e) The protection of children from harm**

House operates very much on the lines of a family friendly pub and therefore welcomes children, although this will usually mean remain seated away from the bar and usually partaking of a meal in a family environment. This usually results in children not still being on the premises after 21:00hrs although this is down to the judgement of responsible adults. Depth of local knowledge would help prevent any apparent attempts of under age drinking but would be backed up by a strong policy on challenging attempts through staff training and use of photo I.D. schemes.

Regular monitoring of all trade areas by trained staff. Proof of age scheme. Staff trained to refer to DPS in cases of doubt. Keep to agreed capacity limits. Will not run irresponsible drinks promotions. Site has well lit car park, garden and outside areas. Has established a working relationship with the other Fordingbridge licensees to ensure a common approach when tackling issues relating to crime and disorder within their remit.

**c) Public Safety**

Site has committed to ensuring that at least one member of staff/management holds a recognised 'First Aid' training certificate by end of November 2005. Review DDA policy to ensure all reasonable steps have been taken to allow disabled customers to use premises in safety. Upkeep of emergency lighting and appropriate records kept. Upkeep of fire fighting equipment; adequate staff training and appropriate records kept. Trade within recognised capacity limits and ensure adequate levels of staff to meet expected levels of trade. Review the site boundary on a regular basis to ensure any obvious repairs likely to affect public safety are identified and dealt with swiftly.

**d) The prevention of public nuisance**

Site has an unblemished record concerning public nuisance, partly through the fact it operates as a family/food led house but more importantly from operating as a well run establishment. It is also located in a rural setting and therefore away from immediate neighbours. Site is regularly monitored particularly garden area to ensure no instances of excessive noise or unruly behaviour. Ensures deliveries and service providers (e.g., refuse) are at such an hour as not to cause nuisance to neighbours. The use of the pub garden shall terminate at 23:00hrs. At all times prior to 23:00hrs, music from the premises will be kept to a volume that is acceptable to the nearby residents of noise sensitive premises. At all times after 23:00 hours, music and noise emanating from the premises shall be inaudible at the boundary of all noise sensitive premises. For the purposes of this licence noise sensitive premises are defined as "Noise sensitive premises include premises used for residential purposes, hospitals or similar institutions, educational establishments (when in use), or places of worship (during recognised times and days of worship) or any premises used for any other purposes likely to be affected by the music noise."

**e) The protection of children from harm**

Does not actively encourage children onto the premises. Under the heading of being a local community pub, children are allowed in with adult supervision, but would expect them to be seated away from the bar and usually partaking in a meal. Would expect to be off the premises by 21:00hrs. With reference to underage drinking, DPS employs a policy of over 21 and trains all staff to challenge apparent underage through the use of photo ID schemes.

**Licence Objective Notes (if any)**

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The types of regulated entertainments proposed reinstate and then enhance the normal pub entertainments that were previously unregulated, with the benefit to enhance the local facilities for social entertainment and reduce the focus on alcohol. Staff will be trained on the requirements of the Licensing Act 2003 when they are recruited and given training in "drugs awareness" as part of their induction. No new steps have been identified in relation to the four licensing objectives, except as below.

**b) The prevention of crime and disorder**

Providing a 60 minute extension of opening hours after the end of the sale of alcohol will promote this objective as the last drink will be consumed less quickly, with access to the pub's toilet facilities and the provision of non-alcoholic refreshment during this period. Risk assessment has determined that door supervisors are not required.

**c) Public Safety**

Function bookings will be limited to 200 persons. Based on the nature of the business, fire risk assessment, seating capacity and available exits and emergency procedures no risk of crowding has been identified.

**d) The prevention of public nuisance**

Live music will end at 24:00 except on New Year's Eve and New Year's Day. Live music will be staged only in the dining areas and function room. Recorded music indoors will end at 02:00 hours except on New Year's Eve and New Year's Day. Recorded music volume will be reduced to background level during the 'wind down' period to create a mood change. A notice will be placed prominently at the exits asking customers to leave quietly. Kitchen extract filters will be cleaned frequently to minimise the impact of cooking smells on neighbours. All external doors and windows shall be kept closed after 23:00 hours, other than access and egress, when events involving live and/or amplified music (including amplified speech) are taking place. After 23:00 hours any noise emanating from the premises shall be inaudible at the boundary of all noise sensitive premises. The licence holder or nominated representative shall receive and respond to complaints throughout the duration of the regulated entertainment.

**e) The protection of children from harm**

The restrictions set out in the Licensing Act 2003 will apply. Photographic proof of age will be required to be shown by anyone seeking to purchase alcohol who appears to be under 21 years of aged. AWP machines and cigarette machines to be sited in areas that are visible to staff, to ensure that children do not have access to them. No unusual risks of harm to children have been identified.

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The hotel is a family run hotel with strong management controls and has 15 staff including 3 bar staff. The licence holders and staff are trained to ensure that there is no underage drinking, drunkenness, use of drugs or violent and anti-social behaviour at the premises and ensure that children are protection from harm.

**b) The prevention of crime and disorder**

The premises are in a 10 acre rural setting which has a well lit car park and garden area. The licence holders will not run irresponsible drinks promotions and have a good working relationship with the Police.

**c) Public Safety**

The site is well lit and the premises hold all relevant fire safety, electrical and health and safety certificates. The licence holders regularly maintain all fire safety and emergency lighting equipment at the premises.

**d) The prevention of public nuisance**

The site is situated in a 10 acre rural site away from the public and immediate neighbours. Deliveries are made in the morning so as to avoid excessive noise. The proposed regulated entertainment is to cease at 24:00hrs.

**e) The protection of children from harm**

Whilst residents and non-residents take children to the premises, children are not allowed in the bar area of the premises and are only permitted in the residents lounge (when accompanied by an adult) or in the restaurant/function room (again when accompanied by an adult). Children are therefore away from the bar area. Depth of local knowledge will prevent under age drinking together with the requirement to produce I.D., when requested by staff.

The air conditioning and cooking extraction system will be switched off when not required. The disposal of empty bottles into outdoor storage will not take place between 19:00 hours and 17:00 hours. Arrangements will be in place to ensure that deliveries of consumables will not take place between 19:00 hours and 07:00 hours. ## Licence Conditions

### Plan of Premises

Plan/Drawing No: 24814

Date of Plan: 05/05/2005

Not Restricted

## Licence Objective Notes (if any)

### Q) Proposals by the applicant in order to promote the four licensing objectives:

#### a) General – all four licensing objectives (b,c,d,e)

The type of regulated entertainment proposed reinstate and then enhance the normal pub entertainments that were previously unregulated, with the benefit of improving local facilities for social entertainment and reducing the focus on alcohol. The facilities for live and recorded music, dancing and voice are proposed in support of bookings, events and the core business of a family friendly public house. Staff will be trained on the requirement of the Licensing Act 2003 when they are recruited. No new steps have been identified by risk assessment in relation to the four licensing objectives, except those mentioned below. The terms of the Local Authority's Licensing Policy have been considered in making this application

#### b) The prevention of crime and disorder

Providing a 30 minute 'wind down' period at the end of the permitted hours for the sale of alcohol with continued sale of refreshments will promote a gradual and orderly dispersal of customers. Photographic proof of age will be required to be produced by anyone who appears to be under 20 years of age. The Designated Premises Supervisor will always be a member of Ringwood Pubwatch scheme, whilst it is in existence. Not less than 5 working days written notice will be provided to the Police when event days are planned.

#### c) Public Safety

Staff are fully conversant with the Emergency Plan. Emergency lighting is in place and operational. Fire extinguishers serviced annually and staff are trained in their use. No risk of crowding has been identified by risk assessment.

#### d) The prevention of public nuisance

Live and recorded music indoors will cease by 23:00hrs, except on New Years Eve/New Years Day. Live and recorded music outdoors will cease by 18:00hrs. External doors will be kept closed during performances of live music, except where necessary for access and egress. A notice is placed at all exits requesting customers to leave the premises quietly. Live music events occurring outside will be limited to 5 in any one calendar year. Recorded music events occurring outside will be limited to 5 in any one calendar year. At all times after 23:00hrs, music and noise emanating from the premises shall be inaudible at the boundary of all noise sensitive premises, as marked with red lines on the attached map. At all times prior to 23:00hrs, music and noise emanating from the premises whilst audible, is so low that distinct tunes, lyrics, musical instruments and any base beat cannot be recognised at the boundary of all noise sensitive premises as marked with red lines on the attached map. For the purposes of this licence noise sensitive premises are defined as "Noise sensitive premises include premises used for residential purposes, hospitals or similar institutions, educational establishments (when in use), or places of worship (during recognised times and days of worship) or any premises used for any other purposes likely to be affected by the music noise."

#### e) The protection of children from harm

The restrictions in the Licensing Act 2003 will apply. Photographic proof of age will be required to be produced by anyone who appears to be under 20 years of age. When activities are designed to include children, children may only attend when accompanied by an adult, who will be made aware that they have primary responsibility for protection of the child from physical or mental harm. A similar notice will be prominently displayed close to the children's play equipment.

**Plan of Premises**

Plan/Drawing No: 8174/03

Date of Plan: Plan dated July 2015 - plan approved 06/08/2015

**Licence Objective Notes (if any)**

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The types of regulated entertainments proposed re-instate and then enhance the normal pub entertainments that were previously unregulated, with the benefit to enhance the local facilities for social entertainment and reduce the focus on alcohol. Staff will be trained on the requirements of the Licensing Act 2003 when they are recruited and given training in 'drugs awareness' as part of their induction. No new steps have been identified in relation to the four licensing objectives, except as below. The terms of the local licensing policy have been considered in preparing this application.

**b) The prevention of crime and disorder**

Providing a 60 minute extension of opening hours after the end of the sale of alcohol will promote this objective as the last drink will be consumed less quickly, with access to the pubs toilet facilities and the provision of non-alcoholic refreshment during this period. The DPS will be a member of the local Pubwatch so long as it exists.

**c) Public Safety**

Function bookings will be limited to 200 persons. On certain occasions my risk assessment indicates a risk of crowding and, on those occasions the capacity of the whole premises (including staff and performers) is not to exceed 200. At such times the DPS will agree in advance with the police, the most effective means of control of numbers and behaviour, depending on the circumstances. The risk assessment facilities identified no other risk of crowding.

**d) The prevention of public nuisance**

Live music will end at 00:00hrs except on New Years Eve and New Years Day. Live or recorded music in the garden will end at or before 23:00hrs. Recorded music indoors will end at 02:00 hrs except on New Years Eve and New Years Day. Recorded music volume will be reduced to background level during the wind down period to create a mood change. A notice will be placed prominently at the exits asking customers to leave quietly. After 23:00hrs, music and noise emanating from the premises shall be inaudible at the boundary of noise sensitive premises, represented by an assessment at the hashed line on the map. For the purposes of this licence noise sensitive premises are defined as "Noise sensitive premises include premises used for residential purposes, hospitals or similar institutions, educational establishments (when in use), or places of worship (during recognised times and days of worship) or any premises used for any other purposes likely to be affected by the music noise."

**e) The protection of children from harm**

The restrictions set out in the Licensing Act 2003 will apply. Photographic proof of age will be required to be shown by anyone seeking to purchase alcohol who appears to be under 21 years of age. AWP machines and cigarette machines will be sited in areas that are visible to staff, to ensure that children do not have access to them. No unusual risks of harm to children have been identified.

Plan/Drawing No: 1583\_LP1  
Date of Plan: 15/02/2005

Not Restricted

**Licence Objective Notes (if any)**

**P) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

No additional steps identified as being necessary to be taken to promote the licensing objectives for the additional hours sought. The premises had the benefit of a Supper Hours Certificate under the 1964 Act and therefore operated those hours for all the licensable activities in any event (save live music then only being for 2 performers). The application is to regularise the position post conversion having lost some of the grandfather rights and to extend hours on Sunday and extend to 3 performers. The hours on Bank Holidays under previous legislation been applied for as special order of exemption. Adequate conditions are appended to the licence to promote the licensing objectives.

**b) The prevention of crime and disorder**

DPS and all staff to be trained to challenge apparent under age drinkers via photo I.D., refusal to persons appearing drunk and to regularly monitor all trading areas for suspicious behaviour particularly with reference to drug taking and dealing. Trade to recognise capacity limits. Will not run any irresponsible drinks promotions. Enforce a working policy of not allowing open vessels past designated drinking areas onto Public Highways. Well lit car park and external trading area. DPS has a very good working relationship with the Local Licensing Officer.

**c) Public Safety**

Risk management assessment completed and reviewed quarterly as a minimum. Induction and ongoing training of all staff to ensure safety of premises and customers. Provide minimum of one recognised First Aider within the staff. Review DDA policy and ensure all reasonable steps have been taken to allow disabled customers to safely enjoy the facilities provided. Ensure fire safety certificate is current and complies with regulations. Ensure fire evacuation policy is documented, displayed and that staff training is completed and documented. Ensure all fire exits are kept clear at all times and that emergency vehicles can access rear car park.

**d) The prevention of public nuisance**

Site has established an enviable reputation for the prevention of public nuisance based on controls already in place: Frequently monitoring of all trade areas particularly garden and patio during fine weather to ensure no excessive noise or unruly behaviour. Ensuring no noisy external mechanical equipment are sited that may disturb neighbours. Ensure extract filters are kept clean to minimise kitchen odours. Ensure there is no light pollution from site that may disturb neighbours. Policy of no external speakers. Internal music is provided and controlled from behind the bar and as such will be at acceptable levels so as not to cause a nuisance outside. Provision of adequate external rubbish bins. Prior to 23:00 hours, music and noise emanating from the premises whilst audible, is so low that distinct tunes, lyrics, musical instruments and any bass beats cannot be recognised at the red line on the attached plan. After 23:00 hours, music and noise emanating from the premises shall be inaudible at the red line shown on the attached plan. No external speakers shall be used for regulated entertainment.

**Additional Conditions** All major sporting and non-sporting events of national and international importance to be shown live out of normal trading hours - 21 days notice to Police with 7 days notice to veto.

**e) The protection of children from harm**

Children must be accompanied by an adult when on the premises. Proof of age schemes deployed with photo ID with a strict policy of challenging any apparent attempts of under age drinking. No children allowed at the bar servery.

### Q) Proposals by the applicant in order to promote the four licensing objectives:

#### a) General – all four licensing objectives (b,c,d,e)

The types of indoor sporting events entertainment and provision of late night refreshment is proposed to reinstate and enhance the normal public house entertainments that were previously unregulated, with the added benefit of the provision on occasions of live and recorded music with dancing to broaden the experience when attending the premises and reduce the focus on alcohol. At least 7 days notice will be given to the Licensing Authority for the 12 occasional events per calendar year as mentioned in Supply of Alcohol. The premises operates CCTV.

#### b) The prevention of crime and disorder

The premises will provide a 30 minute extension to opening hours after the end of the sale of alcohol to promote this objective as the last drink will be consumed less quickly and customers can then leave in an orderly fashion and make use of the toilet facilities before departure. This will also assist in minimising public nuisance. The premises adopts the Portman Group Code of Practice 'Avoiding the Encouragement of Excessive Consumption in Multi-Purchase on Trade Promotions by Producers' and the guidance issued by the British Beer & Pub Association on point of sales promotions. This is to minimise the risks caused by happy hours and binge drinking. The premises encourages staff to regularly collect empty glasses and bottles every fifteen minutes. Toilet inspections are carried out every hour.

#### c) Public Safety

No risks to safety have been identified by the applicant. The premises has fire retardant fixtures and fittings. The premises has an up to date health and safety policy and a qualified first aider. The premises has standard extractor fans at the premises.

#### d) The prevention of public nuisance

No unusual risks have been identified.

#### e) The protection of children from harm

No unusual risks have been identified.

#### **Plan of Premises**

Plan/Drawing No:

Date of Plan: Plans approved 19/08/2010

#### **Licence Objective Notes (if any)**

**a) General - all four licensing objectives (b, c, d, e)**

It is the intention of the PCC to ensure that no use of the hall would cause the church to be brought into conflict with neighbours.

The licence holders abide by existing health and safety and fire requirements.

The majority of the hall hire is by organisations or the church itself rather than use for private events.

**b) The prevention of crime and disorder**

The licence holders identify the uses the hall is to be put to and limit the hours of hire.

**c) Public safety**

Electrical safety checks are carried out, a risk assessment and a fire risk assessment.

The licence holders expect risk assessments from hirers.

**d) The prevention of public nuisance**

The use of the hall is restricted to avoid nuisance. It is not allowed to be used for rehearsals of amplified music. Hire as an adult venue is avoided. The licence holders are careful due to the siting of the hall within the churchyard to avoid activity which would be viewed as in conflict to this. Also as a parish church the licence holders would wish to avoid friction with neighbours.

Prior to 23:00hrs music noise emanating from the premises whilst audible, is so low that distinct tunes, lyrics, musical instruments and any base beat cannot be recognised at the boundary of all noise sensitive premises.

**e) The protection of children from harm**

The PCC insist on CRB checks on church members working with children. The licence holders would expect their hirers of the hall where appropriate to produce proof of this also. The licence holders would not hire the hall knowingly for use as a venue for adult entertainment or services, activities other entertainment or matters ancillary to the use of the premises that may give rise to concern in respect of children.

### Plan of Premises

Plan/Drawing No: 15.123 Rev B

Date of Plan: 19/06/2017 - plan approved 15th August 2017

### Licence Objective Notes (if any)

**Q) Proposals by the applicant in order to promote the four licensing objectives:**

**a) General – all four licensing objectives (b,c,d,e)**

The application included an extended period between the cessation of the supply of alcohol and the closure of the premises to give the option to allow for a more gradual dispersal of customers. The style and operation of the pub will not differ significantly during the extended hours. Where this is appropriate, non-alcoholic refreshment will be available in the extended period. The premises will respect Spirit Group's Approach to Responsible Drinking. The Spirit Group's policies change at regular intervals to reflect current trends and it would be inappropriate to standardise them on a permanent basis.

**b) The prevention of crime and disorder**

The Spirit Group are introducing Security Industry Authority (SIA) approved door supervisors across their estate, in line with the Government approved implementation plan. A zero tolerance towards illegal drugs will be enforced at all times. If a disc jockey is used on any night then he/she will ask customers to leave quietly. If a CCTV system is installed at this site, it will continue to operate during the additional hours of trading and notices will be displayed. All instances of crime and disorder will be reported to the police and will be kept in an incident log book.

**c) Public Safety**

Public safety is integral to the way that the Spirit Group runs its business and is reviewed regularly through their health and safety policy. This policy is fully briefed and trained to all management and staff and the Spirit Group will continue to train their staff to the standards required by relevant legislation. Free drinking water will be available at all times.

**d) The prevention of public nuisance**

Additional patrols will take place by members of staff, internally and externally, to limit any noise pollution when entertainment is being offered within the premises. If appropriate, notices will be displayed asking customers to respect neighbours when leaving the premises. Where already used text/radio pagers will continue to be used for the additional hours of trading and will be monitored by a responsible member of staff. Soft drinks and non-alcoholic refreshment will be available if it is decided to use the option to stay open for an extended period between the cessation of the supply of alcohol and the closure of the premises (see above under General).

In a village community centre many types of activity will take place at different times . The aim of the trustees is to provide a safe enjoyable environment for villages of all ages and testes and to ensure that in doing so the interests of neighbours are looked after. To achieve this the licence holders have liaised with all relevant responsible authorities and sought and taken their advice . The management committee of the premises, overseen by the trustees of the charity will play close attention to who used the centre and for what, being prepared to refuse any activity which seems inappropriate or unlikely to comply with the centre's aims. There will also be regular monitoring of activities. All neighbours will be given contact details in case of complaint.

#### c) Public Safety

Maintain electrical, fire detection/alarm lighting, gas appliances and other relevant plant and systems according to appropriate regulations. Comply with safety legislations, such as Health and Safety and Fire Precautions.
